**Holocaust Icons** Oren Baruch Stier,2015-11 Oren Baruch Stier traces the lives and afterlives of certain remnants of the Holocaust and their ongoing impact. He shows how and why four icons—an object, a phrase, a person, and a number—have come to stand in for the Holocaust: where they came from and how they have been used and reproduced; how they are presently at risk from a variety of threats such as commodification; and what the future holds for the memory of the Shoah.

*The Consciousness' Drive* Charles Cole,2018-09-18 What is the uniquely human factor in finding and using information to produce new knowledge? Is there an underlying aspect of our thinking that cannot be imitated by the AI-equipped machines that will increasingly dominate our lives? This book answers these questions, and tells us about our consciousness - its drive or intention in seeking information in the world around us, and how we are able to construct new knowledge from this information. The book is divided into three parts, each with an introduction and a conclusion that relate the theories and models presented to the real-world experience of someone using a search engine. First, Part I defines the exceptionality of human consciousness and its need for new information and how, uniquely among all other species, we frame our interactions with the world. Part II then investigates the problem of finding our real information need during information searches, and how our exceptional ability to frame our interactions with the world blocks us from finding the information we really need. Lastly, Part III details the solution to this framing problem and its operational implications for search engine design for everyone whose objective is the production of new knowledge. In this book, Charles Cole deliberately writes in a conversational style for a broader readership, keeping references to research material to the bare minimum. Replicating the structure of a detective novel, he builds his arguments towards a climax at the end of the book. For our video-game, video-on-demand times, he has visualized the ideas that form the book's thesis in over 90 original diagrams. And above all, he establishes a link between information need and knowledge production in evolutionary psychology, and thus bases his arguments in our origins as a species: how we humans naturally think, and how we naturally search for new information because our consciousness drives us to need it.

**The Holocaust** Paul R. Bartrop,Eve E. Grimm,2022-05-18 This volume provides an indispensable resource for anyone studying the Holocaust. The reference entries are enhanced by documents and other tools that make this volume a vital contribution to Holocaust research. This volume showcases a detailed look at the multifaceted attempts by Germany's Nazi

regime, together with its collaborators, to annihilate the Jews of Europe during the Holocaust. Several introductory essays, along with a rich chronology, reference entries, primary documents, images, and a bibliography provide crucial information that readers will need in order to try to understand the Holocaust while undertaking research on that horrible event. This text looks not only at the history of the Holocaust, but also at examples of resistance (through armed violence, attempts at rescue, or the very act of survival itself); literary and cultural expressions that have attempted to deal with the Holocaust; the social and psychological implications of the Holocaust for today; and how historians and others have attempted to do justice to the memory of those killed and seek insight into why the Holocaust happened in the first place.

**California. Court of Appeal (5th Appellate District). Records and Briefs** California (State).,

*Auschwitz* Laurence Rees, 2005 Accompanying a major BBC/PBS television event Auschwitz is the story of the role played by the most notorious Nazi concentration camp in the development of the final solution, published to commemorate the 60th anniversary of the camp's liberation in January 2005. With shocking eye-witness testimony and new archive material from the East, Auschwitz will revise current opinion on the running of the camp and the Nazi's decision-making processes.

**Der Jüdische Kalender**, 2007

*People of the Holocaust* Linda Schmittroth, Mary Kay Rosteck, 1998 Profiles 60 women and men who were caught up in the Holocaust, including Nazi perpetrators and their victims, world leaders and policy makers, and those who showed their humanity and courage by resisting Hitler's reign of genocidal terror.

**Let's Go: Europe**, 2004

**The Day the Thunderbird Cried** David L. Israel, 2005 Summary In a series of gripping stories the reader accompanies American infantrymen from the invasion of Sicily to final victory in Germany. The focus throughout is personal. The reader shares moments of fear, daring, grief and humor the very human experiences of young men at war. Interwoven with the stories the author addresses the ultimate enigma of World War II. How did Adolf Hitler brainwash 62 million Germans into accepting Nazi ideology and its inevitable consequences? Detailed accounts of the endurance of young GIs during the Battle of the Bulge precede their horrific discovery of the Dachau Concentration Camp. The GIs shocked and angry reactions and the subsequent shooting of SS Concentration Camp guards are vividly recreated from numerous interviews with men who were there. *The Day the Thunderbird Cried* is a must read for all who believe that those who can't remember the past are doomed to repeat it. Quote: George Santayana

**The Camp** Colman Hogan, Marta Marin-Dòmine, 2007 The camp is nothing if not diverse: in kind, scope, and particularity; in sociological and juridical configuration; in texture, iconography, and political import. Adjectives of camp specificity embrace a spectrum from extermination and concentration, to detention, migration, deportation, and refugee camps. And while the geographic range covered by contributors is hardly global, it is broad: Chile, Rwanda, Canada, the US,

Central Europe, Morocco, Algeria, South Africa, France and Spain. And yet it is to so characterize the camp to run the risk of diffusing what in origin is a concentration into a paratactical series of identity particularisms? While *The Camp* does not seek to antithetically promulgate a universalist vision, it does aim to explore the imbrication of the particular and the universal, to analyze the structure of a camp or camps, and to call attention the role of the listener in the construction of the testimony. For, by naming what cannot be said, is not every narrative of internment and exclusion a potential site of agency, articulating the inner splitting of language that Giorgio Agamben defines as the locus of testimony: to bear witness is to place oneself in one's own language in the position of those who have lost it, to establish oneself in a living language as if it were dead, or in a dead language as if it were living.

**Drehscheibe Prag** Peter Becher, 1989 A catalogue of an exhibition (German and English in parallel columns) on Nazi persecution of dissidents, Jews, and degenerate writers and artists, many of whom fled to Prague. Describes the escape routes and the hardships of life in exile where they were not permitted to take employment. After the Munich Pact, they were joined in Prague by refugees from the Sudetenland. Traces the fate of many individuals from each of the categories. Describes the struggle for visas after the Nazi occupation of Prague.
