The JCT 05 Standard Building Sub-Contract Peter Barnes, 2008-04-15 Although the majority of construction work these days is carried out by sub-contractors, there are surprisingly few books dealing with building sub-contracts and the related law. This book provides a much welcomed guide to the new 2005 JCT Standard Building Sub-Contract (SBCSub and SBCSub/D), which is likely to be the regular sub-contract form used by contractors when letting works under the radically revised 2005 JCT Standard Building Contract. Peter Barnes, who has over 30 years' experience of contractor/sub-contractor relationships, provides a clause by clause commentary on the sub-contract, highlighting practical issues and considering relevant case law. The book will be of interest not only to sub-contractors and main contractors, but also to other construction professionals and lawyers who need an understanding of the contractual relationship and allocation of risk between contractors and sub-contractors. The Author Peter Barnes MSc (Construction Law and Arbitration), DipICarb, FCIQB, FCI Arb, MRICS, is a Chartered Arbitrator, a registered adjudicator and a CI Arb trained mediator. He has been actively involved in the construction industry for almost 30 years and has a wide experience of many types of construction work, including building

(both new build and refurbishment), civil engineering, and mechanical and electrical installations. He spent many years working for main contractors, undertaking both surveying and management roles, and during that time he has administered and settled a multitude of sub-contract accounts on a variety of different contracts. His experience with sub-contracts covers both simple and complex contracts and has involved detailed examination of contractual entitlements. His practical background has led to an in-depth understanding of the allocation of risks in contractor/sub-contractor relationships. Since becoming a consultant, Peter Barnes has represented many parties in both adjudications and arbitrations, has acted as an expert witness in respect of both liability and quantum, and has been appointed as adjudicator by both the Chartered Institute of Arbitrators and the Construction Industry Council. His wide experience base has led to him being appointed to the committees of the Chartered Institute of Building Eastern Branch, the Chartered Institute of Arbitrators East Anglia Branch, and the Institution of Civil Engineering Surveyors Anglia and Central Branch. Highly practical in approach, the detailed interpretation and assessment of the arbitration of multi-party disputes will facilitate understanding and decision making by arbitrators, clients and construction contractors.

*Construction Adjudication* John Riches, Christopher Dancaster, 2008-04-15 Adjudication has been the main means of settling construction disputes since it was first introduced by the Housing Grants, Construction and Regeneration Act 1996, and a substantial body of case law has now built up. This book established itself as the key authority on adjudication when it was first published. It has now been revised to reflect the authors' experience of adjudication in practice and to cover the large number of court decisions. It features useful appendices on adjudication materials.
