Everyday Sports Injuries DK,2010-10-18 More people than ever before are regularly taking part in recreational sports, often gaining enormous health benefits from their chosen activity. But sports also carry the risk of injury, and each year there are millions of injuries as a result of physical activity in the US alone. *Sports Injuries* is a practical guide to recognizing, treating, and preventing injury, with the goal of getting the sportsperson back in action as soon as possible. *Sports Injuries* starts with tips and advice on preparing for sports to reduce the risk of injury. Many of the most popular sports-from snowboarding and surfing to soccer and tennis-are highlighted in a directory that pinpoints areas of the body most at risk of injury, and how to minimize the risks. The injuries section is a practical guide to the recognition, prevention, and treatment of sports injuries. Organized anatomically, each injury is described along with the causes and symptoms. There is instant advice on first aid, along with practical recovery programs for each injury. Clear cross-references take the reader to a step-by-step exercise section at the end of the book. This section details 150 routines that will help people return to their sporting activity as soon as possible.

Model Coach Daniel L. Sedor,2008-12-01 Winning isn't everything. It's becoming more and more evident: Parents and coaches are losing sight of the purpose and value of youth sports programs. Youth sports should be as much about developing social skills, understanding what it takes to become a leader, and learning how to become a young upstanding member of society as it is about kicking, hitting, spiking, or shooting a ball. *MODEL Coach* is focused on reinstituting the value youth sports has on our children by refining and developing the coach's role. As the first installment in the *MODEL Book Series*,*MODEL Coach* helps coaches become well-rounded; and more effective at developing players, creating better leaders, and impacting their community in a positive manner. Success is a result of doing the right things. *MODEL Coach* is about doing the right things.

Ohio State `68 Steve Greenberg,Larry Zelina,1998 This book delivers not only the historical context of that season, but also the humanity of it. Through interviews with authors, the players and assistant coaches tell their stories of the talent, the friendship, the charity, the drive, the devotion, the knowledge, the ups, the downs, the tantrums and the care attendant to that championship season.

Living Out of Bounds Steven J. Overman,2009 From the Publisher: Despite some enormous differences in pay among professional athletes, most aspects of their daily lives remain surprisingly constant across sports and income levels. *Living out of Bounds* provides answers to persistent questions about what it's really like to be an athlete and discusses the filtered image of the athlete that emerges through books and other media. Overman mines a wide array of sports biographies, autobiographies, memoirs, and diaries to construct a representative picture of the athlete's life from the rise of American sport in the late 19th century to the present day. In doing so, he reveals the person behind the sports celebrity, as he exists on a daily basis. Individual chapters cover such topics as college athletics, the pressure of celebrity, the difficulty of balancing sports and everyday life, sex and sexuality, race in sports the obsession with the body, and the difficulties associated with retiring. In the course of the work, a portrait emerges that transcends the individual lives. The shared experiences of devoted training, of travel and hotels, and of tension within and beyond the clubhouse or gym, force use to appreciate the often-oppressive reality of the sporting life, at the same time that the individual lives provide us with a glimpse of the rewards that make sports so compelling to audiences and athletes across America.

From Orphan to Police Officer Duane McNeill,2020-01-08 Duane was one of six siblings, one of two sets of twins, that were all abandoned when he was a child. He then became a ward of the Memphis, Tennessee, Juvenile Court System. As a child, he lived in a number of institutional settings: foster, group and children's homes, shelters, and detention facilities. In the ninth and tenth grades, he attended predominantly black schools and lived at a children's shelter. During this time of his life, while he was not a minority, he lived as one. At the age of sixteen, his Aunt Mary McNeill became his legal guardian, which kept him from being sent to a reform school. Duane and his Aunt Mary lived in Gulfport, Mississippi. Duane attended Gulfport High School and played on the football team as a center. His senior year of high school the team was undefeated and won the state championship. Duane attended Mississippi State University on a football scholarship. He played on the offensive line and spent one year as a graduate assistant coach. He graduated with a degree in social work and a certificate

in corrections. Duane spent thirty-two years in law enforcement. Most of Duane's law enforcement career was with the Austin Police Department in Austin, Texas. This book is about his life's journey from being an orphan to becoming a police officer. The book was written with thanks to others in law enforcement, with hopes that they too, one day, will share their experiences with others in an effort to be sources of encouragement to each other.

A Sociology of the Total Organization Mikaela Sundberg, 2016-03-09 Examining the organization of everyday life inside the regiments of the French Foreign Legion, this book takes its theoretical point of departure in the notion of the voluntary total organization; that is to say, an institution that constitutes a geographically delimited place of residence and work in which inmates are voluntarily separated from the outside world, leading an enclosed, formally administered life. Informed by a modified version of Goffman's original concept of the total institution, *A Sociology of the Total Organization* untangles the Foreign Legion and the ways in which different kinds of social orders interplay there. With a focus on regimental life, the author characterizes the armed forces not only as a total organization, but also as a greedy one, seeking undivided loyalty and the incorporation of all social roles within its bounds. Against this understanding, the book draws on rich ethnographic work to develop the notion of atomistic unity, the ideal relational condition that exists in the military, in which individuals commit to a unit and articulate ties with individuals on an impersonal basis, grounded in the belief in a greater whole. A detailed and empirically grounded study of the mechanisms in which the Foreign Legion not only cuts members' ties to people outside the organization, but also restricts the creation and maintenance of ties among its members, this book shows how atomistic unity is not limited to greedy organizations such as the military, but applies to a variety of collectivist settings. As such, it will appeal to scholars of sociology and anthropology with interests in military life, social relations, social theory and the work of Goffman.
