There Is Life After A Death Rev. Cindy Phillips, 2025-05-15 As the title states: "There is LIFE after A DEATH. Learning from and Leaning into Life's Losses (including weight loss)". I'm not just talking about life after death when one goes to

heaven but about life after A death here on earth. I talk about all different kinds of deaths. This is not just a physical death. There are many other deaths or losses in our lives such as the death of a dream, health, marriage, empty nest, job, youth, finances, weight, divorce and unspeakable deaths just to highlight a few. I share with my readers the deaths I've experienced during my life time and how God has taken those experiences and used them for His glory. Each loss I experienced was a brick that formed a foundation for my biggest loss, the death of my husband of almost 45 years. In the chapters I include scriptures, stories to illustrate what we go through and practical applications. At the end of each chapter there will be a TAKEAWAY. This is an unusual book in that it is a conversation with my readers. It's real life, where the rubber meets the road.

To My Dear Child Apollonia Blumauer, Veronica Blumauer, 2024-01-27 To My Dear Child In Loving Memory is a collection of quotes born from the minds of some brilliant characters in the history of our world, both men and women who were able to convey through their words the true essence of what is really important in life. These quotes have been assembled in this volume by a mother with a simple purpose in mind: to pass and share the "basic things" she wishes her child to know about life. It's a wish of happiness as well as a reminder to never take for granted what we are and forget where we wish to go. Apollonia Blumauer (January 29, 1965) In 1988, she obtained the title of engineer of mathematics at the University of Ljubljana. For all her life, she has been captivated by Microsoft products and everything they've allowed people to do. Her work experience is primarily in the production and introduction of new technologies, although she is also interested in technologies that should not be introduced. She occasionally engages in political activity with her daughter, Veronica. Veronica Blumauer was born on September 15th, 2006, in Ljubljana. She achieved great success in her elementary school education, where teachers of English, music, engineering, and technology, as well as home economics, were particularly encouraged. She is currently in middle school and hopes to become a computer engineer. She is also passionate about space and cultivates the ambition to become an astronaut. Furthermore, she enjoys reading popular science books.
