*Summary of Al-Anon Family Groups's How Al-Anon Works* Everest Media, 2022-03-23T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 I had so much to be grateful for, but something about my life wasn't right. I couldn't put my finger on it, but I knew I wasn't happy. I felt like there must be some secret to happiness, but I couldn't figure it out. #2 Al-Anon is for people who have been affected by someone else's drinking problem. We may not realize it, but we all have been affected by someone else's alcoholism. #3 We who have been affected by someone else's drinking find ourselves inexplicably haunted by insecurity, fear, guilt, obsession with others, or an overwhelming need to control everything we encounter. We know something is wrong, but we can't figure out what it is.

**Families Affected by Addiction** Gallus Bischof, Richard Velleman, Jim Orford, Abhijit Nadkarni, Marcela Tiburcio, 2025-05-06 This Open Access book sheds new light on the wide range of Affected Family Members' experiences. At a conservative estimate, there are at least 100 million adults across the globe who are affected by their relatives' addiction problems. These Affected Family Members (AFMs) experience multiple stresses, coping dilemmas, and a lack of information and support, and are at heightened risk for ill-health. The results are very costly, both from the personal and from the public services point of view. The volume elaborates on the barriers to providing effective help, including political neglect, under-

representation in both policy and service delivery models, the lack of involvement and encouragement from health and social care professionals, the stigmatisation and bias as barriers to care, and the range of evidence-based interventions. It also explores the similarities and differences of all of these areas depending on the type of addiction problem that the family is affected by – alcohol, illicit drugs, gambling, etc. While covering the more commonly reported work in high-income countries, the contributions put strong emphasis on the experience of AFMs in low- and middle-income countries. Given its truly global approach, the book will be a key resource for practitioners, policymakers, and researchers alike.

*Principles of Addiction Medicine* Richard K. Ries, Shannon C. Miller, David A. Fiellin, 2009 This respected text from the American Society of Addiction Medicine is valuable for all physicians and mental-health personnel who specialize in addiction medicine and who treat patients with addiction disorders. The chapters blend scientific principles underlying addiction with the practical essentials of clinical addiction medicine. Many of the contributors are affiliated with leading government agencies that study addiction and its science, such as the National Institute on Alcohol Abuse and Alcoholism and the National Institute on Drug Abuse. The book will appeal to a wide and interdisciplinary range of professionals, especially those with interest or duties relating to addiction-related disorders, and in particular physicians seeking certification status via either the American Board of Addiction Medicine or the American Board of Psychiatry and Neurology. A companion Website will offer the fully searchable text.

**Al-Anon Narratives** Grazyna Zajdow, 2002-08-30 According to the author, in Australia, men drink alcohol as a mark of masculinity, and women take care of drinking men as a part of normative femininity. And while research on alcoholics and alcoholism is common, very few studies consider the lives of the women who are married to alcoholics. Here, Zajdow details and explores the lives of such women who belong to Al-Anon, where they may share their experiences and offer their stories in a nonthreatening and supportive environment. The author presents the narratives of these women in the context of her analysis of the self-help group to demonstrate how people construct and reconstruct their lives as coherent stories about themselves, and to show how these self-stories can be changed and reconceptualized within the context of the group. Unique in its examination of self-stories offered within a self-help group, this book challenges sociological knowledge about the way these mutual-aid groups operate as communities of interest and help. Zajdow begins by laying the groundwork through a discussion of the professional and lay discourses on women's relationships to alcoholic men. She then provides the basis for using self-stories to examine a group of people, the individuals in the group, and the behavior of the group in general. A history of Al-Anon as a self-help group is also detailed, and the author compares the Australian meetings to meetings in other parts of the world. The stories themselves are then examined and discussed in terms of how they relate to group processes and individual change through Al-Anon. Tracing the way that these women move from a place of despair to one of hope and meaningful change, this also represents a sociological exploration of gender, families, and communities.

**One Day at a Time in Al-Anon** Al-Anon Family Group Headquarters, Inc,1972 Alcoholism is a family illness, and changed attitudes can aid recovery.
