Women and Religion: Texts, rituals, and authoritative knowledge Pamela Edith Klassen,Shari Golberg,Danielle Lefebvre,2009 This collection is an essential research tool for all students specializing in religion and women's studies, and is equally useful to those working in related fields such as anthropology, cultural studies, history, literary studies, philosophy, political science, psychology, and theology. By tracing the evolution of the topic, from the beginnings of feminist research on religion to more contemporary debates about categorizations of gender in the study of religion, this four-volume collection serves the needs of both specialist and generalist users. Women and Religion includes essays treating a broad range of religious traditions, while focusing on particular methodological and theoretical concerns common to the study of women and religion. Organized thematically, each volume includes the most formative theoretical contributions to the field, grouped

together with articles that explore a particular set of issues from a range of traditions, with the use of methodologies drawn from anthropology, history, sociology, textual criticism, and religious studies.
