

Lo Fotografico Rosalind Krauss

Juan ALBARRÁN DIEGO

La fotografía Rouillé, André, 2017-04-19 Más allá de la historia, la verdadera apuesta de este libro es poner -la fotografía al derecho-: pensarla como una técnica en continuo proceso de transformación, fluida y plural, inherentemente vinculada a la praxis económica y social. Lejos de concebir a la fotografía instrumentalmente como una herramienta para representar personas, cosas y acciones, Rouillé la entiende como una técnica productiva y reproductiva que opera dialécticamente en el seno de la cultura capitalista.

En Femenino Voces, Miradas, Territorios Montserrat Villarino Pérez, Ofelia Rey Castelao, Rocío Sánchez Ameijeiras, 2008 Abarca un rico espectro de temas y puntos de vista: características poblacionales y dinámicas de las sociedades rurales, historia social, militar y política de las épocas moderna y contemporánea, la representación del cuerpo femenino en el arte y la publicidad...

Fotografía de creación José Gómez Isla, 2008-07 Se analiza el uso heterogéneo y dispar que los creadores contemporáneos han venido haciendo con la fotografía en las últimas cuatro décadas, en las que resulta complejo delimitar la frontera entre la fotografía de creación y cualquier otro tipo de práctica fotográfica, pues buena parte de estos artistas han promovido la amateurización y el mestizaje del medio fotográfico como recurso estético, contraviniendo las tesis clásicas que defendían el virtuosismo o el profundo conocimiento técnico como condición indispensable para legitimar cualquier discurso genuino de autor.

Del fotoconceptualismo al fototableau Juan ALBARRÁN DIEGO, 2012-07-01 Interactions between photography and performance during a chronological period ranging from the so-called “nuevos comportamientos artísticos” (Spanish conceptual art) at the beginnings of 70s, to the definitive institutionalization of the “tableau form” in the 80s, are analyzed in this research. This is a complex and not lineal trip, with particular interest in the Spanish context, since some important changes affecting political and cultural life took place during this period, conditioning the process object of the present work. The work tries to discuss those performance theories that emphasize the “liveness”, and doing so, pushed the photography into the background. By putting those controversies in the scope of “nuevos comportamientos”, we have created a frame of reference to explain those activities near conceptual art, and then, we have looked for their continuity in certain works carried out during the 80s with neither media visibility, nor critical mediators. With the enthusiastic attitudes of the “movida”

as a background, photography becomes institutionalized whereas performance gets outside of the “official aesthetics”. The origin of a cultural identity projecting some festive stereotypes onto contemporary art, can be placed in the 80s, being those stereotypes the starting point for a relational Hispanic tradition empowered by the cultural policies in the 90s. By means of restructuring a complicated net of critical genealogies, we have tried to explore some interesting strains related to the legitimacy of the action in the institutional scene, located in the cross between photography and performance in that decade.

Lo fotográfico Rosalind Krauss, 2002 En 'Lo Fotográfico' - Por una teoría de los desplazamientos Rosalind Krauss analiza la fotografía. Este desplazamiento desde las artes plásticas a la fotografía provoca primero una comprobación negativa. Al oponerse a la práctica corriente determinada por el mercado, Rosalind Krauss demuestra que es erróneo querer pensar la fotografía a partir de los criterios históricos y taxonómicos que se utilizan en pintura (el universo de la fotografía es el del archivo, no el del museo, y resulta imposible entender la obra de Atget si antes no se tiene en cuenta este hecho).

El arte más allá de la estética Peter Osborne, 2010 Partiendo de una distinción polémica entre la estética y la filosofía del arte, el compendio de ensayos que componen este libro exploran la dinámica crítica de un arte que se sitúa, como el propio título indica, más allá de la estética. Los temas en los que Osborne indaga incluyen: el estatus ontológico del arte contemporáneo, la importancia duradera de la modernidad como lógica de lo nuevo, la relación del arte en la constitución de la obra de arte y las estructuras temporales características de la experiencia del arte contemporáneo. El libro concluye con lecturas críticas de obras individuales de artistas como Robert Barry, Victor Burgin, Jake and Dinos Chapman, Elmsgreen and Dragset, Tracey Emin, Matias Faldbakken, Douglas Huebler, y Gerhard Richter. (Fuente: CENDEAC).

Situaciones artísticas latinoamericanas Tamara Díaz Bringas, 2005 In 2004 and 2005 TEOR/tica developed a month-by-month conference program that included the participation of renowned historians, intellectuals, scholars, curators and art critics from all over Latin America and the Caribbean. The book is a compilation of 9 lectures given in 2004 on diverse aspects of visual art in Latin America.

De lo humano Ute Eskildsen, Alberto Martín, Centro Andaluz de Arte Contemporáneo (Seville, Spain), 2008 Originally published in 1977, this book brings together what is known about liberal feminist and socialist movements for the

emancipation of women all over the world in the nineteenth and early twentieth centuries. It deals not only with Britain and the United States but also with Australia, New Zealand, France, Germany, Russia, Austria-Hungary and the Scandinavian countries. The chapters trace the origins, development, and eventual collapse of these movements in relation to the changing social formations and political structures of Europe, America and Australasia in the era of bourgeois liberalism. The first part of the book discusses the origins of feminist movements and advances a model or 'ideal type' description of their development. The second part then takes a number of case studies of individual feminist movements to illustrate the main varieties of organised feminism and the differences from country to country. The third part looks at socialist women's movements and includes a study of the Socialist Women's International. A final part touches on the reason for the eclipse of women's emancipation movements in the half-century following the end of the First World War, before a general conclusion pulls together some of the arguments advanced in earlier chapters and attempts a comparison between these feminist movements of 1840-1920 and the Women's Liberation Movement.
