*The Financial Crisis Inquiry Report, Authorized Edition* Financial Crisis Inquiry Commission,2011-01-27 The definitive report on what caused America's economic meltdown and who was responsible. The financial and economic crisis has touched the lives of millions of Americans who have lost their jobs and their homes, but many have little understanding of how it happened. Now, in this very accessible report, readers can get the facts. Formed in May 2009, the Financial Crisis Inquiry Commission (FCIC) is a panel of 10 commissioners with experience in business, regulations, economics, and housing, chosen by Congress to explain what happened and why it happened. This panel has had subpoena power that enabled them to interview people and examine documents that no reporter had access to. The FCIC has reviewed millions of pages of documents, and interviewed more than 600 leaders, experts, and participants in the financial markets and government regulatory agencies, as well as individuals and businesses affected by the crisis. In the tradition of The 9/11 Commission Report, The Financial Crisis Inquiry Report will be a comprehensive book for the lay reader, complete with a glossary, charts, and easy-to-read diagrams, and a timeline that includes important events. It will be read by policy makers, corporate executives, regulators, government agencies, and the American people.

**The Financial Crisis Inquiry Report** Financial Crisis Inquiry Commission,2011-05-01 The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to examine the causes, domestic and global, of the current financial and economic crisis in the United States. It was established as part of the Fraud Enforcement and Recovery

Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government. News Dissector DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film *In Debt We Trust* warned of the economic meltdown in 2006. He has since written three books on the subject including *Plunder: Investigating Our Economic Calamity* (Cosimo Books, 2008), and *The Crime Of Our Time: Why Wall Street Is Not Too Big to Jail* (Disinfo Books, 2011), a companion to his latest film *Plunder The Crime Of Our Time*. Financial Crisis Inquiry Commission, 2010 and the use of credit ratings in the securitization markets; lending practices and securitization, including the originate-to-distribute model for extending credit and transferring risk; affiliations between insured depository institutions and securities, insurance, and other types of nonbanking companies; the concept that certain institutions are 'too-big-to-fail' and its impact on market expectations; corporate governance, including the impact of company conversions from partnerships to corporations; compensation structures; changes in compensation for employees of financial companies, as compared to compensation for others with similar skill sets in the labor market; the legal and regulatory structure of the United States housing market; derivatives and unregulated financial products and practices, including credit default swaps; short-selling; financial institution reliance on numerical models,

**Financial Crisis Inquiry Report** Phil Angelides, 2011-03 The Financial Crisis Inquiry Commission was created to examine the causes of the current financial and economic crisis in the U.S. In this report, the Commission presents the results of its examination and its conclusions as to the causes of the crisis. More than two years after the worst of the financial crisis, our economy continues to experience the aftershocks. Millions of Americans have lost their jobs and their homes, and the economy is still struggling to rebound. This report is intended to provide a historical accounting of what brought our financial system and economy to a precipice and to help policy makers and the public better understand how this calamity came to be.
