**Morien,Owen Morgan**

**Signs of the Zodiac** Mary Ellen Snodgrass,1997-09-23 The zodiacal signs impact art, advertising, literature, history, mythology, psychology, health, and language with their evocative imagery, symbols and scientific and religious lore. This fact-filled reference guide pulls together applications of the zodiacal signs in those fields and others. Each sign is explicated in a separate chapter which discusses its origin and importance in diverse cultures, including its history, artistic applications, traditions, literary and religious interpretations, psychological significance, and application to notable historical and contemporary figures. An organized overview with cross-references and indexing allows the zodiac to be studied from numerous points of view. Artistic representations of each of the 12 houses accompany the text. Introductory chapters on the origins of the zodiacal signs, the historical foundation of astrology, the zodiac in the first millennium A.D., and the zodiac in the arts and sciences provide a thorough overview and comparative examination of the influence of the zodiac in human history and thought. A detailed timeline synchronizes discoveries and development of zodiacal associations and thought around the world. Appendices list planetary correspondences in jewels, metals, herbs, color, flavor, form, shapes, food preferences, and senses, and the symptoms and pathologies associated with birth signs. The work also contains an extensive bibliography and index.

**The Language of the Stars** Hermann Beckh,Rudolf Frieling,2020-11-16 'Astrology is a concern of the Christ and the work of Michael.' - Hermann Beckh During the brief window between the two World Wars, the Rev. Prof. Hermann Beckh led research at The Christian Community Seminary in Stuttgart. In those precious years he published on music, the gospels and the ancient Mysteries. By 1930, in his Contributions to the Priests' Newsletter, he had produced the most far-reaching account of the cosmic order ever written. The typescript of this great work was destined to gather dust in the Berlin Archiv, however, until it was discovered in recent years. Published here for the first time, it is the crowning masterpiece to Beckh's Collected Works. The translated and annotated text is accompanied by Rudolf Frieling's in-depth application of Beckh's principles of the cosmic starry order to the Creed of The Christian Community, and by a number of appreciations and relevant book reviews. Through ever-deepening meditation guided by Rudolf Steiner, and his vast knowledge of Tibetan, Sanskrit, Pali and Avestan sacred texts - scarcely to be equalled in Europe at the time - Beckh came to the first-hand realization that human and cosmic life was ordered. He perceived directly that this cosmic order was: good, as originating

from the World-Will; true, as from World-Thinking; and beautiful, as from World-Feeling. All three could be personally experienced in disciplined consciousness that could enter dream, sleep and pre-natal life. This, then, was Beckh's method and inspiration, as shown in this extraordinary work. 'The time will come when Beckh's "Christened" star-knowledge, which signifies a basic overturning of today's decadent astrology, will be appreciated for its significance.' - August Pauli
