

The End Of The End Of History

David Kirk

The End of History and the Last Man Francis Fukuyama, 2006-03 Ever since its first publication in 1992, *The End of History and the Last Man* has provoked controversy and debate. Francis Fukuyama's prescient analysis of religious fundamentalism, politics, scientific progress, ethical codes, and war is as essential for a world fighting fundamentalist terrorists as it was for the end of the Cold War. Now updated with a new afterword, *The End of History and the Last Man* is a modern classic. After the End of History Samuel Cohen, 2009-10-01 In this bold book, Samuel Cohen asserts the literary and historical importance of the period between the fall of the Berlin wall and that of the Twin Towers in New York. With refreshing clarity, he examines six 1990s novels and two post-9/11 novels that explore the impact of the end of the Cold War: Pynchon's *Mason & Dixon*, Roth's *American Pastoral*, Morrison's *Paradise*, O'Brien's *In the Lake of the Woods*, Didion's *The Last Thing He Wanted*, Eugenides's *Middlesex*, Lethem's *Fortress of Solitude*, and DeLillo's *Underworld*. Cohen emphasizes how these works reconnect the past to a present that is ironically keen on denying that connection. Exploring the ways ideas about paradise and pastoral, difference and exclusion, innocence and righteousness, triumph and trauma deform the stories Americans tell themselves about their nation's past, *After the End of History* challenges us to reconsider these works in a new light, offering fresh, insightful readings of what are destined to be classic works of literature. At the same time, Cohen enters into the theoretical discussion about postmodern historical understanding. Throwing his hat in the ring with force and style, he confronts not only Francis Fukuyama's triumphalist response to the fall of the Soviet Union but also the other literary and political "end of history" claims put forth by such theorists as Fredric Jameson and Walter Benn Michaels. In a straightforward, affecting style, *After the End of History* offers us a new vision for the capabilities and confines of contemporary fiction.

The Lost Human and the Real End of History George Yerby, 2025-07-01 This book analyses the transformation in 16th- and 17th- century English economic life that overturned the traditional restraints of the medieval economy for the

commercial ethos that governs the modern world, and the resulting imbalance which opened the way to the environmental breakdown of today. On the open fields and commons, the smallholders had worked closely with the land as given, with minimal intervention in natural processes. The 16th century introduced a fundamental difference of approach as the inducement of exceptional profits encouraged manipulative exploitation of the land. "Freedom of trade" from arbitrary restraints and impositions became the new economic ethos, officially established by the mid-17th-century revolution and reinforced by other changes such as the emergence of the nationstate. The "rise of science" was associated with the agriculturalist adoption of empirical method for "improvement", and a new philosophy accorded humankind the right to degrade other species for its own ends. By focusing on the causes and effects of capitalism at its first appearance, this volume traces the environmental crisis back to the switch from an essentially universalist to a basically individualist world. This book will be of interest to scholars and students of Early Modern England, Economic Studies, and Environmental Studies.

Time and the Shape of History P. J. Corfield, 2007-01-01 In this lively comedy of love and money in sixteenth-century Venice, Bassanio wants to impress the wealthy heiress Portia, but lacks the necessary funds. He turns to his merchant friend, Antonio, who is forced to borrow from Shylock, a Jewish moneylender. When Antonio's business falters, repayment becomes impossible, and by the terms of the loan agreement, Shylock is able to demand a pound of Antonio's flesh. Portia cleverly intervenes, and all ends well (except of course for Shylock).

The Concept of History Dmitri Nikulin, 2017-01-26 The Concept of History reflects on the presuppositions behind the contemporary understanding of history that often remain implicit and not spelled out. It is a critique of the modern understanding of history that presents it as universal and teleological, progressively moving forward to an end. Although few contemporary philosophers and historians maintain the view that there is strict universality and teleology in history, the remnants of these positions still affect our understanding of history. But if history is not universal and singular, evolving toward an objective universal end, it should be possible to admit of multiple histories, some of which we appropriate as our own. Another important aspect of this book is that it provides an account of history that is itself both historical and rooted in attempts to narrate and explain history from its inception in antiquity. The book seeks to establish features or constituents of history that might be found in any historical account and might themselves be considered historical invariants in history.

The Routledge Companion to Historical Theory Chiel van den Akker, 2021-11-15 This Companion provides a wide-ranging and up-to-date overview of the conceptual issues that history as a discipline and mode of thought gives rise to. The book offers both historical and systematic treatments of these issues, as well as addressing their contemporary relevance. Structured in three parts - Modes and Schools of Historical Thought, Epistemology and Metaphysics of History, and Issues and Challenges in Historical Theory - it offers the reader a wide scope and expert treatment of each topic in this vibrant field

that can be read in any order. An international team of experts both discuss the basis of their topic and present their own view, offering the reader a cutting-edge contribution while ensuring their chapters are of interest to both students and specialists in the field of historical theory and engaging with the very nature of historical thought, the metaphysics of historical existence, the politics of history-writing, and the intelligibility of the historical process. The volume is an indispensable companion to the study of history and essential reading for anyone interested in the reflection on the nature of history and our historical existence.

The End of the End of History Alex Hochuli, George Hoare, 2021-06-25 'It's been a long time since a text was so useful in helping me think through our present moment and my role within it. The End of The End of History is a clear, powerful and panoramic analysis of our world at the dawn of the 2020s.' Vincent Bevins, author, *The Jakarta Method* The "End of History" is over. The idea that Western liberal democracy was the "final form of human government" has been exposed as bluster: the old order is crumbling before our eyes. Angry anti-politics have arisen to threaten political establishments across the world. Elites have fallen into hysteria, blaming voters, "populism", Putin, Facebook... anyone but themselves. They are suffering from Neoliberal Order Breakdown Syndrome. Emerging from four years of interviews and debates on the popular global politics podcast *Aufhebunga Bunga*, *The End of the End of History* examines how the political consequences of the 2008 financial crisis have come home to roost. If Trump and Brexit shattered the liberal-democratic consensus in 2016, then the global pandemic of 2020 put a final end to the "End of History". Politics is back, but it's stranger than ever.
