Sample Insights: 1) Stop waiting for things to happen. Take matters into your own hands and begin working on achieving your goals. Waiting is often a sign of lack of creativity and discipline. The same applies to your woman: she will not magically change one day, so start adapting to how she is. 2) Manifest your emotions and intelligence spontaneously when confronted with situations that may hurt or anger you. To do so, relax and open your body. Feel the situation with your whole body and connect with your and the other person's emotions. A closed body fails to react to such situations.

ON THE WISDOM OF CHINA FU-CHUN PENG,2021-08-04 Truthfully and accurately, this book attempts to elucidate the nature and forms of China's ancient wisdom and reinterpret its ideological significance, thereby activating its inherent vitality and promoting the construction of contemporary Chinese thought. The wisdom of China, with its own discourse system, gives unique stipulations to existence, thought and language. Confucianism, Taoism and Chan Buddhism, as the historical manifestations of Chinese wisdom, respectively express the thoughts between man and man, between man and nature, and between man and mind. In fact, these three aspects exactly constitute the whole of man's life world. The thoughts of Confucianism, Taoism and Chan Buddhism are mainly and respectively represented in The Four Books and Five Classics, Lao-Zi and Zhuang-Zi, and Tan-Jing (The Sutra of Hui Neng). The wisdom of China, different from the non-natural wisdom of the West, is fundamentally a natural wisdom, according to which nature is the basis of human existence, thought and language. However, in early modern times, the natural history of China was confronted with an unprecedented crisis. Ever since then, China has entered the post natural era. The coexistence of Heaven and man, as the new wisdom of China, can be created in the age of globalization through preserving the living elements and eliminating the dead parts in the traditional Chinese wisdom.

These thinkers founded or influenced the Confucian, Daoist, Mohist and Legalist schools of thought, and their ideas continue to guide China's thinking and behaviour today. He shows how these thinkers addressed the key question of how philosophical thinking can serve humanity and society. Chang systematically presents their different solutions and evaluates them according to reason and experience, helping you to understand the philosophical roots of law and Chinese law in particular.
