After the Dance, the Drums are Heavy Rebecca Dirksen, 2020 Richly ethnographic and a compelling read, *After the Dance, the Drums Are Heavy* is a study of carnival, politics, and the musical engagement of ordinary citizens and celebrity musicians in contemporary Haiti. The book explores how the self-declared president of konpa Sweet Micky (Michel Martelly) rose to the nation's highest office while methodically crafting a political product inherently entangled with his musical product. It offers deep historical perspective on the characteristics of carnivalesque verbal play and the performative skillset of the artist (Sweet Micky) who dominated carnival for more than a decade—including vulgarities and polemics. Yet there has been profound resistance to this brand of politics led by many other high-profile artists, including Matyas and Jody Brothers Posse, Boukman Ekspéryans, and RAM. These groups have each released popular carnival songs that have contributed to the public's discussions on what civic participation and citizenship in Haiti can and should be. Drawing on more than a decade and a half of ethnographic research, Rebecca Dirksen presents an in-depth consideration of politically and socially engaged music and what these expressions mean for the Haitian population in the face of challenging political and economic circumstances. *After the Dance, the Drums Are Heavy* centers the voices of Haitian musicians and regular citizens by extensively sharing interviews and detailed analyses of musical performance in the context of contemporary events well beyond the musical realm.

After Taste Slavko Kacunko, 2021-06-03 *After Taste* is an inquiry into a field of study dedicated to the reconsideration, reconstruction and rehabilitation of the concept of Taste. Taste is the category, whose systematic, historical and actual dimensions have traditionally been located in a variety of disciplines. The actuality and potential of the study is based on a variety of collected facts from readings and experiences, which materialize in the following features: One concept (figurative Taste), two thinking traditions (analytic and synthetic/continental) and three interrelated dimensions (systematic, historic and actual) are presented in three parts or volumes. As such, the study presents a salient comprehensive companion for wider readership of humanities approaching conceptions of Taste for the first time. Moreover, *After Taste* is intended for anyone who hopes to make a further contribution to the subject. Since its appearance and apparently short triumph some 250 years ago, the concept of non-literary Taste remained the linchpin of aesthetic theory and practice, but also a category outreaching aesthetics. Taste as the personal unity of the production, theory and criticism of art and literature, which was still largely taken as a given in the eighteenth century, has meanwhile given way to a highly-differentiated art world, in which aesthetic discourse is placed in such a way that it can seemingly no longer have a conceptual or linguistic effect on general opinion making. *After Taste* fills the gaps of systematic research by a comprehensive tracing of the emergence of the doctrines, discourses and disciplinary dimensions of Taste up to the peak of its systematic and historical trajectory in the eighteenth century and onwards into the present day. The guiding goal is a post-disciplinary rehabilitation of the contested category as a preparation for its productive usage in emerging academic and popular contexts. It shows how the category of Taste became the foundation, legitimation and the catalyst for the emerging division of labour, faculties and disciplines, confirming the hypothesis of the immense impact and actuality of Taste in the contemporary world.

The Orion Center Bibliography of the Dead Sea Scrolls and Associated Literature (2000-2006) Ruth Clements, Nadav Sharon, 2007-12-31 *The Orion Center Bibliography of the Dead Sea Scrolls and Associated Literature (2000-2006)* is the fifth official Scrolls bibliography, following volumes covering the periods 1948-1957 (W. S. LaSor), 1958-1969 (B. Jongeling), 1970-1995 (F. García Martínez and D. W. Parry), and 1995-2000 (A. Pinnick). The interdisciplinary cast of the Bibliography reflects the current emphasis in Scrolls scholarship on integrating the knowledge gained from the Qumran corpus into the larger picture of Second Temple Judaism. The volume contains over 4100 entries, including approximately 850 reviews; source, subject, and language indices facilitate its use by scholars and students within and outside the field. This work is based on the On-Line Bibliography maintained by the Orion Center for the Study of the Dead Sea Scrolls, Jerusalem.

The Interplay between European and National Competition Law after Regulation 1/2003 Lúcio Tomé Feteira, 2015-12-08 If we can speak of the European Community's 'economic constitution', we can assert that competition rules, together with free movement rules, form its core. Notably, implementation of the competition rules enshrined in Articles 81 and 82 EC

changed radically with the enactment of Regulation 1/2003, which in effect dispensed with mandatory prior notifications and allowed national authorities to apply Article 101(3) TFEU directly. Given that national legislations perceive certain types of unilateral conduct, even if adopted by a non-dominant undertaking, as a potential source of anticompetitive effects, an important question concerns the leeway enjoyed by national authorities under the exception to the convergence rule in Article 3(2) of Regulation 1/2003, and the consequent effect on both legal practice and policy issues. In this lucidly argued book, focusing on national competition provisions in Germany, France, Italy, and the United Kingdom that deal with such conduct, the author provides a detailed examination of how such considerations as the following are affected by Regulation 1/2003: - prohibition of abuse of economic dependence or superior bargaining power; - the particular susceptibility of long-term contracts; - prohibition of resale at a loss or below cost; - prohibition of boycott, unlawful pressures, threats, and other coercive tactics adopted by undertakings; and - the role of unfair competition law. The analysis follows a functional method of comparative legal analysis, reviewing the most relevant norms in the selected jurisdictions, particularly in what concerns their goals and function in the context of their respective legal systems. Special attention is paid to two specific sectors – the motor-vehicle and the retailing industries – which have most often triggered relevant legislation and case law in the jurisdictions covered. Legal scholarship in the field is also drawn upon. In its clarification of the meaning of Regulation 1/2003, this book allows practitioners to fully grasp its scope. The author's thorough, masterful analysis of the statutory framework of Article 3 of the regulation also reveals the variety of reasons why different Member States have different competition policies on the scope of the exception to the rule of convergence, and in this way provides lawyers, policymakers, and academics with welcome insights on how major EU jurisdictions apply European competition law.
