Wacky Aphorisms, What the Web Says about All Cats Have Asperger Syndrome Sarah Kemp, 2013-04 In this book, we have hand-picked the most sophisticated, unanticipated, absorbing (if not at times crackpot!), original and musing book reviews of All Cats Have Asperger Syndrome. Don't say we didn't warn you: these reviews are known to shock with their unconventionality or intimacy. Some may be startled by their biting sincerity; others may be spellbound by their unbridled flights of fantasy. Don't buy this book if: 1. You don't have nerves of steel. 2. You expect to get pregnant in the next five minutes. 3. You've heard it all.

Spectrum Women—Autism and Parenting Renata Jurkevityhz, Maura Campbell, Lisa Morgan, 2020-08-21 This book looks at what it feels like to be an autistic parent, offering valuable insights, knowledge and wisdom on parenting autistic and non-

autistic children. Three mothers reflect on their experiences of growing up as undiagnosed autistics, venturing into and embracing motherhood, and connecting with their children in a unique and powerful way. They offer advice on overcoming the challenges of parenting when you are autistic, such as socialising with other parents or sensory issues that come with excessive touch. Reflecting on their own experiences, they also emphasize the positives of being an autistic parent to an autistic child, such as understanding of why their child is struggling or the open-mindedness that can come from not being constrained by societal norms. They also explain how out-of-the-box thinking leads to creative parenting of non-autistic children, forming strong and loving bonds. Full of wit and warm advice, this book empowers autistic parents and reassures them that autism is a strength in raising their children with love, knowledge and experience, while also giving non-autistic parents and professionals a fresh perspective on helping autistic children to thrive.

Disability and Mothering Cynthia Lewiecki-Wilson, Jen Cellio-Miller, 2011-09-14 Editors Lewiecki-Wilson and Cellio have put together the first book to focus on the intersecting spaces, both cultural and personal, of disability and mothering. Derived from the Latin for threshold, the word liminal calls attention to the book's focus on the transitional moments and spaces where the personal and social, inside and outside, self and other converge. The volume features twenty-one previously unpublished essays by new as well as established scholars and community activists. Contributors, some of whom are themselves disabled or mothers of children with disabilities, present moving personal accounts and accessible scholarship grounded in historical study, experiential and retrospective analysis, interviews, social research, and feminist and disability studies theories. In their introduction, the editors survey the theoretical frameworks of feminism and disability studies, locating the points of overlap crucial to a study of disability and mothering. Organized in five sections, the book engages questions about reproductive technologies; diagnoses and cultural scripts; the ability to rewrite narratives of mothering and disability; political activism; and the tensions formed by the overlapping identities of race, class, nation, and disability. The essays speak to a broad audience—from undergraduate and graduate students in women's studies and disability studies, to therapeutic and health care professionals, to anyone grappling with issues such as genetic testing and counseling, raising a child with a disability, or being disabled and contemplating starting a family.

When I Grow Up I Want to Be a Cat Madeleine Levy, 2021-10-31 Madeleine Levy was diagnosed with Asperger's syndrome at the age of eight. This is a book about her life growing up and the education system as she experienced it. When she was asked by her nursery school teacher what she wanted to be when she grew up, Madeleine's reply was very different to all the other children's: she wanted to be a cat. Later she was bullied for being different - for being bi-sexual, for having autism, or just for being, as she puts it, a weird goth kid. When I Grow Up I Want to Be a Cat is not just a brilliantly frank memoir but also in part a supportive guide for youngsters with autism and their parents or carers, and in part a critique of the education system whose standardised support Madeleine found lacking. It is a book that genuinely gives the perspective from someone on the autistic spectrum - and not just Madeleine's own voice but the voices of nine other individuals with autism spectrum disorder whom she has interviewed for the book. Whatever your interest in autism or whatever your reason for reading it, When I Grow Up I Want to Be a Cat is an unforgettable read in which Madeleine addresses the highs and the

lows of her life with compelling honesty, and which ultimately carries a hugely positive message for anyone who is facing struggles in life just for being different.

It's Raining Cats and Dogs Michael Barton,2012 Offers insight into an autistic person's mind through classic figures of speech that contain confusing or contradictory wording, drawings that show what he believes the expressions mean, and their actual meanings.

Dasha's Journal T. O. Daria,2008 Just a few weeks old, Dasha the cat found herself in a family with an autistic child. The feline perspective provides a new outlook on autism conditions, challenging long established stereotypes and analysing controversies in the field with an unbiased attitude and humour.
