Folktales and Fairy Tales Anne E. Duggan Ph.D., Donald Haase Ph.D., Helen J. Callow, 2016-02-12 Encyclopedic in its coverage, this one-of-a-kind reference is ideal for students, scholars, and others who need reliable, up-to-date information on folk and fairy tales, past and present. Folktales and fairy tales have long played an important role in cultures around the world. They pass customs and lore from generation to generation, provide insights into the peoples who created them, and offer inspiration to creative artists working in media that now include television, film, manga, photography, and computer games. This second, expanded edition of an award-winning reference will help students and teachers as well as storytellers, writers, and creative artists delve into this enchanting world and keep pace with its past and its many new facets. Alphabetically organized and global in scope, the work is the only multivolume reference in English to offer encyclopedic coverage of this subject matter. The four-volume collection covers national, cultural, regional, and linguistic traditions from around the world as well as motifs, themes, characters, and tale types. Writers and illustrators are included as are filmmakers and composers—and, of course, the tales themselves. The expert entries within volumes 1 through 3 are based on the latest research and developments while the contents of volume 4 comprises tales and texts. While most books either present readers with tales from certain countries or cultures or with thematic entries, this encyclopedia stands alone in that it does both, making it a truly unique, one-stop resource.

William Morris Tiles Richard Myers, Hilary Myers, 1996 This is the first comprehensive survey of the colourful ceramic tiles produced by Morris & Company. From the earliest examples made for Red House to the tiles produced in the twentieth century, all the many different designs are illustrated and discussed in detail. Richard and Hilary Myers are proud to include a previously unrecorded tile panel among the many little-known examples described in this book. Found in a Sussex church, the panel takes its place with such masterpieces as the overmantel at Queens' College, Cambridge, and the Membrand panels. All Morris & Co.'s tile designs are analysed and linked to related stained-glass, textile or graphic work produced by the Firm. The authors reveal the various contributions of individual designers, including Edward Burne-Jones, D. G. Rossetti, Ford Madox Brown, Kate Faulkner and William Morris himself. Morris & Co.'s connections with the Dutch tileries, William de Morgan, Murray Marks and Barnard, Bishop & Barnard, and the roles they played in the production and distribution of the tiles, are all thoroughly examined.
