Coup Linda, Farthing, Thomas Becker, 2021-11-30 In three dramatic weeks in October and November 2019, the fourteen years of progressive change that Evo Morales' pink tide government had worked to implement in Bolivia and beyond came to a screeching halt. President Morales was forced to resign after protests against his re-election to a fourth term in allegedly fraudulent elections erupted among the urban middle classes, anti-indigenous racists, and prominent conservative politicians. The country's far right used the ensuing crisis to orchestrate a successful coup, with military and police backing, paving the way for a repressive "transition" government led by Jeanine Áñez to take power. The Áñez government quelled popular protests with lethal force, shut down critical media outlets, and targeted members of Morales' political party, the Movimiento al Socialismo (MAS). Despite postponing elections three times, the Áñez government was eventually forced to call elections in October 2020. The MAS swept back into power, winning elections with 55% of the vote and returning democracy to the country. This book tells the story of this year of upheaval in Bolivia, providing a critical analysis of the 14 years of the MAS government that preceded it as well as the MAS return to power in 2020. It includes personal stories and commentary from women and men on the streets, leaders in social movements, members of the MAS party and government, survivors of Áñez's abuses, and intellectuals.

Climate Change and National Security Daniel Moran, 2011-03-22 In this unique and innovative contribution to environmental security, an international team of scholars explore and estimate the intermediate-term security risks that climate change may pose for the United States, its allies and partners, and for regional and global order through the year 2030. In profiles of forty-two key countries and regions, each contributor considers the problems that climate change will pose for existing institutions and practices. By focusing on the conduct of individual states or groups of nations, the results add new precision to our understanding of the way environmental stress may be translated into political, social, economic, and military challenges in the future. Countries and regions covered in the book include China, Vietnam, The Philippines, Indonesia, India, Pakistan, Bangladesh, Central Asia, the European Union, the Persian Gulf, Egypt, Turkey, the Maghreb, West Africa, Southern Africa, the Northern Andes, and Brazil.

Educational Assessment in a Changing World Isabel Nisbet, Stuart Shaw, 2024-10-21 This timely book takes stock of the wide range of developments in society, education and assessment and offers conclusions and strategies that are

necessary for the future of educational assessment. Drawing on examples from the UK, Europe and USA, the book will dissect cultural, political, psychological and ideological ideas on society, education and assessment and foreground pressing issues relating to artificial intelligence, social justice and climate change. Acknowledging its predominantly Western perspective and providing context on the evolution of educational assessment, the book will bridge the gap between theory and practice to progress debate and discourse on creating a culture of assessment fit for the future and rethinking strategies for the path ahead. Ultimately, the book will provide insights and key takeaways for the field of educational assessment along with an evidence-based agenda that will be relevant for education professionals, the assessment industry and policymakers interested in higher education, international and comparative education and testing.

América Latina y Asia : desafíos y oportunidades en tiempos de postpandemia y transformaciones globales De Miranda Parrondo, Mauricio, Barrón Soto, María Cristina, Malca Guaylupo, Oscar, 2025-10-23 El libro América Latina y Asia: desafíos y oportunidades en tiempos de postpandemia y transformaciones globales ofrece un análisis integral de la evolución, características y desafíos de los vínculos entre América Latina y Asia en el marco de la globalización contemporánea y en el escenario posterior a la crisis provocada por la pandemia de COVID-19. Desde sus primeras páginas, recalca la importancia de comprender estas relaciones no solo desde la perspectiva económica y comercial, sino también desde las dimensiones política, cultural, tecnológica y estratégica. A lo largo de sus capítulos, se profundiza en el papel de los actores estatales y no estatales, las dinámicas de poder, los acuerdos de cooperación y los retos que enfrentan los países latinoamericanos para insertarse en los procesos de integración y en las cadenas globales lideradas por Asia. El texto revela que, aunque América Latina ha diversificado sus vínculos con la región asiática, aún existe una fuerte dependencia de la exportación de materias primas, lo cual evidencia la necesidad de impulsar estrategias orientadas al valor agregado y a la transferencia de conocimiento. Cada capítulo aborda un aspecto particular de esta compleja relación: desde el impacto de China como socio comercial clave, la influencia de Japón, Corea y el Sudeste Asiático, hasta el rol de organismos multilaterales y la interacción cultural. Se exploran temas como las inversiones en infraestructura, la cooperación en ciencia y tecnología, y los efectos de la crisis sanitaria en los flujos comerciales, las cadenas de suministro y el auge de la sinofobia. Asimismo, se analiza cómo la región latinoamericana puede fortalecer sus capacidades institucionales y negociadoras para no quedar subordinada a un esquema de dependencia asimétrica. En conjunto, el libro constituye una obra de referencia para académicos, responsables de políticas públicas y actores económicos, orientada a iluminar caminos hacia un relacionamiento más equilibrado, estratégico y sostenible entre ambas regiones.

Democracy and Security in Latin America Gabriel Marcella, Orlando J. Pérez, Brian Fonseca, 2021-11-04 The COVID-19 pandemic has highlighted the need for governments to generate the necessary capacity to address important security and institutional challenges; this volume deepens our understanding of the nature and extent of state governance in Latin

America. State capacity is multidimensional, with all elements interacting to produce stable governance and security. As such, a collection of scholars and practitioners use an explicit interdisciplinary approach, drawing on the contributions of history, political science, economics, public policy, military studies, and other fields to gain a rounded understanding of the link between security and democracy. *Democracy and Security in Latin America* is divided in two sections: Part 1 focuses on the challenges to governance and key institutions such as police, courts, armed forces, and the prison system. Part 2 features country case studies that illustrate particularly important security challenges and various means by which the state has confronted them. *Democracy and Security in Latin America* should appeal not only to those seeking to learn more about the capacity of the democratic state in Latin America to effectively provide public security in times of stress, but to all those curious about the reality that a democracy must have security to function.

Chile and Australia Irene Strodthoff, 2014-11-26 Exploring bilateral narratives of identity at a socio-discursive level from 1990 onwards, this book provides a new approach to understanding how Chile and Australia imagine and discursively construct each other in light of the bilateral Free Trade Agreement signed in 2008.

Researching Crime and Violence in Medellín, Colombia Caroline Doyle, 2024-03-06 Researching Crime and Violence in Medellín, Colombia: Truth versus Truths questions categories, assumptions and labels around interpretations of criminal actors and violence in Latin America and the Caribbean. Drawing from her experiences conducting fieldwork in Medellín, Colombia, Caroline Doyle provides readers with a unique window into the complex reality of crime and violence in the city. She reflects on her journey to try and make sense of the crime and violence and challenges she faced in the field, such as navigating her identity, accessing participants, perceived and real danger, and the almost impossible task of cross-checking data to find a “truth.” Doyle provides readers with a unique insight into the complexity of these issues throughout the region and some of the challenges researchers and authorities can face while measuring and ultimately addressing crime and violence.

The Feeding of the Nine Billion Alex Evans, 2009 Global food prices have eased significantly from their record highs in the first part of 2008. As a worldwide economic downturn has gathered pace, commodity markets have weakened significantly. By October 2008, the UN Food and Agriculture Organization's Food Price Index stood at 164, the same level as in August 2007, and 25% lower than the Index's high of 219 in June 2008. However, this does not mean that policy-makers around the world can start to breathe a sigh of relief. For one thing, even at their somewhat diminished levels current prices remain acutely problematic for low-income import-dependent countries and for poor people all over the world. The World Bank estimates that higher food prices have increased the number of undernourished people by as much as 100 million from its pre-price-spike level of 850 million.

The Catcher in the Rye Jerome David Salinger, 1964 Story of Holden Caulfield with his idiosyncrasies, penetrating insight, confusion, sensitivity and negativism.

El Cazador Oculito Jerome David Salinger, 2001-07-31 Since its first publication in 1951, the critically acclaimed story of *The Catcher in the Rye* has stood as one of the definitive emblems of disillusioned adolescence. Through the words of Holden Caulfield, *The Catcher in the Rye* shows the anguish of a generation, one that receives its sentimental education in the postwar era and has to confront the absurdities of a conformist and rigidly conventional society. Holden is one of the most memorable and universally recognized characters of twentieth century literature.

O apanhador no campo de centeio J. D. Salinger, 2020-05-08 Um dos romances mais revolucionários do século XX, é a representação definitiva da juventude na literatura. Com mais de 70 milhões de cópias vendidas desde seu lançamento em 1951, o livro influenciou e marcou gerações com sua visão crua da adolescência, sua prosa ágil e desbocada e seu humor

feroz e anárquico. Se você quer mesmo ouvir a história toda, a primeira coisa que você deve querer saber é onde eu nasci, e como que foi a porcaria da minha infância, e o que os meus pais faziam antes de eu nascer e tal, e essa merda toda meio David Copperfield, mas eu não estou a fim de entrar nessa, se você quer saber a verdade. É Natal, e Holden Caulfield conseguiu ser expulso de mais uma escola. Com uns trocados e seu indefectível boné vermelho de caçador, o jovem traça um plano incerto: vagar três dias por Nova York, adiando a volta à casa dos pais. Seus dias e noites serão marcados por encontros confusos, e ocasionalmente comoventes, brigas e dúvidas que irão consumi-lo. Acima de tudo, paira a inimitável voz de Holden, o adolescente raivoso e idealista que quer desbancar o mundo dos fajutos, num turbilhão de ressentimento, humor, frases lapidares, insegurança, bravatas e rebeldia juvenil. Esta edição brasileira tem tradução de Caetano W. Galindo e, pela primeira vez, traz a capa original de seu lançamento.
