The Bible and Jews in Medieval Spain Norman Roth, 2021-03-29 The Bible and Jews in Medieval Spain examines the grammatical, exegetical, philosophical and mystical interpretations of the Bible that took place in Spain during the medieval period. The Bible was the foundation of Jewish culture in medieval Spain. Following the scientific analysis of Hebrew grammar which emerged in al-Andalus in the ninth and tenth centuries, biblical exegesis broke free of homiletic interpretation and explored the text on grammatical and contextual terms. While some of the earliest commentary was in Arabic, scholars began using Hebrew more regularly during this period. The first complete biblical commentaries in Hebrew were written by Abraham Ibn 'Ezra, and this set the standard for the generations that followed. This book analyses the approach and unique contributions of these commentaries, moving on to those of later Christian Spain, including the Qimhi family, Nahmanides and his followers and the esoteric-mystical tradition. Major topics in the commentaries are compared and contrasted. Thus, a unified picture of the whole fabric of Hebrew commentary in medieval Spain emerges. In addition, the book describes the many Spanish Jewish biblical manuscripts that have remained and details the history of printed editions and Spanish translations (for Jews and Christians) by medieval Spanish Jews. This book will appeal to scholars and students of medieval Spain, as well as those interested in the history of religion and cultural history.

Two Mediterranean Worlds Yassine Essid, William D. Coleman, 2012-04-01 Globalization includes complex processes, easy to identify but difficult to explain. Why, for instance, are globalizing processes so unevenly distributed between poor and wealthy countries? What effect does this uneven distribution have on the everyday lives of ordinary people? The contributors to this volume find answers to these questions in the Mediterranean, a region divided between the people of the north shore, who are engaged with Europe and modernized, and their poorer neighbours to the south, who struggle daily to attain the same standards of living and modes of governance as their more Westernized neighbours. In these two regions' divergent histories, economies, cultural and linguistic backgrounds, education systems, and political structures lead to explanations not only for uneven globalization but also for the wave of demonstrations for political and cultural autonomy that sparked the Arab Spring in North Africa and the Near East.

Trinidad, tolerancia e inclusión Varios Autores, 2021-06-25 Los trinitarios -hombres y mujeres- siguen abriendo

caminos de redención, carismáticos y proféticos; en los últimos años, sus opciones institucionales se dirigen a las personas que más sufren la intolerancia y la exclusión, tanto en la sociedad como dentro de la misma Iglesia, y cuentan con una tradición y unos medios que, a partir de la experiencia de Dios como Trinidad, trasladan cerca de donde se juega la vida, la misericordia y la justicia, como signos claros de la presencia de Dios. Sin embargo, no es posible adentrarse en esos espacios de liberación sin un pensamiento teológico que sustente la praxis y afiance la misión. El XI Congreso trinitario 'Trinidad, tolerancia e inclusión', celebrado en noviembre de 2018 en el marco de la Facultad de Teología de Granada y organizado por la Provincia trinitaria del Espíritu Santo, trazó una línea de compromiso pastoral y reflexión teológica inédita en la tradición carismática y espiritual de la orden. En aquellas jornadas participaron personalidades de la talla de Rafael Aguirre, Juan Antonio Estrada, Ianire Angulo, Olga Consuelo Vélez o Sebastián Mora, entre muchos otros. Su participación queda recogida en este libro, coordinado por Juan Pablo García Maestro, para retomar así los objetivos de aquel Congreso. Estas páginas recogen la reflexión sobre la condición trinitaria e inclusiva de Dios, la incorporación de la mirada teológica femenina, la voz de los descartados por la sociedad, la integración de quienes piensan diferente, pero construyen con nosotros codo con codo la toma de conciencia sobre las violencias ejercidas en tiempos pasados y las que, todavía ahora, pretenden imponer un absolutismo totalizante de la religión

Primeros escritos judíos Eileen Schuller, Marie-Theres Wacker, 2021-11-25 Esta colección de artículos trata cuestiones relacionadas con las mujeres y las relaciones de género en el judaísmo temprano (durante los imperios persa, griego y romano). Unos ensayos se centran en escritos específicos: la versión griega (Septuaginta) de Ester, Judit, José y Asenet y la Carta de Jeremías. Otros artículos exploran cómo se reinterpretan ciertos textos bíblicos: Eva en la Vida de Adán y Eva; la unión sexual de los hijos de Dios con las hijas de los hombres en Gn 6,1-4; la princesa en la narración del nacimiento de Moisés (Ex 2,1-10); cómo Josefo vuelve a contar las historias bíblicas. También se exploran contextos sociales específicos: las opiniones de Filón sobre las mujeres en el Imperio romano, los rollos del mar Muerto y las mujeres filósofas, las terapeutas, en la Alejandría egipcia.

Deux méditerranées Yassine Essid,William D. Coleman,2011-10-06T00:00:00-04:00 En prenant la Méditerranée du Sud comme référence privilégiée pour une étude sur la mondialisation et l'autonomie, nous nous retrouvons face à des États qui ont connu la modernisation, mais pas la modernité : absence de société civile, attachement aux intérêts nationaux, permanence de l'idée de souveraineté et de frontières, survivance de gouvernement détenant le monopole de la violence rendue légitime. Ces pays se trouvent aujourd'hui tiraillés entre la recherche d'une plus grande autonomie, surtout culturelle, l'établissement d'une stratégie d'ancrage à une Europe de plus en plus frileuse et les effets dissolvants de la mondialisation. Il existe donc bien une problématique méditerranéenne opposant le Nord et le Sud par rapport à la mondialisation et à l'autonomie et c'est tout l'intérêt de cette contribution pluridisciplinaire. De nombreux spécialistes représentant divers pays méditerranéens et différents domaines du savoir livrent leur analyse sur la question : économie, histoire, littérature, science politique, musicologie, anthropologie alimentaire, islamologie et psychanalyse.
