Only the Dead Bear F. Braumoeller, 2019-07-25 In *Only the Dead*, Bear Braumoeller assesses the claim that armed conflict is in decline and finds it wanting. In the course of his assessment, he also develops a powerful explanation for trends in warfare over time. His central finding is that, although there has been a drop in the rate of international conflict following the end of the Cold War, that drop followed nearly two centuries of steady increases in the rate of conflict initiation.

'And I quote...' Elizabeth Knowles, 2018-09-19 Quotations are an essential part of the fabric of the language. In *And I quote*, Elizabeth Knowles draws on her experience editing the Oxford Dictionary of Quotations and employs a wide repertoire of examples, ranging from the classical canon to contemporary popular culture, to illuminate just how and why we quote. Her investigation focuses on how we find, choose, and use quotations in 21st century English, but it also leads her back in time to follow the journeys taken by individual quotes, as their meaning changes subtly - and sometimes not so subtly - over the decades and in many cases the centuries. In following the often-surprising stories of individual quotations, we gain an understanding of how they establish themselves, and to what degree they can develop a life independent of their original coinage. Everyone has their own quotations 'vocabulary', and each reader of the book will think of further items that they would use and wish to explore, but the journeys mapped here illuminate the many fascinating ways in which quotations have embedded themselves in the language, from the earliest dictionaries of quotations to the online world we experience today.

The Best 100 Songs That You Never Heard Jeffrey Brian Romeo,2023-06-29 This book is a collection of songs and poems that Jeff wrote in his life. Most were written between 2020 and 2023 but some go back to his college days in the early 1990s. Some songs will be very specific about certain events or girls in his life, which may cause some people to guess who it is about and other songs will be total exaggeration. Good luck trying to figure it out.

Jesus Revealed in the End Times Dr. Robert Jeffress,2025-03-04 Most books about the end times focus on the events described in biblical prophecy--wars, natural disasters, economic turmoil, and more--rather than the One who is revealed in those events. The result? God's people end up fearful about what is to come rather than hopeful about Who is to come. But the Bible's prophecies of the last days can fill us with joy and peace as we anticipate the return and reign of our beloved savior, Jesus Christ. In Jesus Revealed in the End Times, bestselling author Dr. Robert Jeffress takes a radically different approach to prophecy, helping you see the end times through the lens of Jesus Christ. You'll stop fretting about future events as you start to know Jesus more deeply, see him more clearly, and praise him more joyfully. By the time you finish this book, you'll not only have a greater understanding of God's plan for the future but also have a greater sense of calm and courage in the face of what is to come because you've come to know the One who controls the future.

Pragmatic Fashions John J. Stuhr,2015-11-10 John J. Stuhr, a leading voice in American philosophy, sets forth a view of pragmatism as a personal work of art or fashion. Stuhr develops his pragmatism by putting pluralism forward, setting aside absolutism and nihilism, opening new perspectives on democracy, and focusing on love. He creates a space for a philosophy

that is liable to failure and that is experimental, pluralist, relativist, radically empirical, radically democratic, and absurd. Full color illustrations enhance this lyrical commitment to a new version of pragmatism.

Why We War Al Smith, 2006-11-01 Why We War begins a new dialog about war and the social organization of peace. This book re-orientes the thinking about war from a preoccupation with a war, to an investigation into the phenomenon of war itself. There is an unequal investment in war that has historically damaged the ability of social systems to perform adequately for all members of society. The result is ongoing strife, warfare, and poverty. War emerges as the disease of civilization and the bane of human rights.

Forged by War Gina Lennox, 2005 In Forged By War, Australian veterans and their families reveal the experience of combat and how it has changed their lives. These stark first-hand accounts describe the reality of military action and its personal consequences in every major conflict and peacemaking mission since World War II, including the invasion of Iraq. Sometimes the reader is in lockstep with a soldier on patrol, watching as a land mine explodes, or a local militiaman points an AK andndash;47 at Australian peacemakers. Other times, the reader is inside a returned veteran's head, feeling their superfluous adrenalin, their need to control their environment, even at home. With accounts from Peter and Lynne Cosgrove, Graham Edwards, Frank Hunt (I Was Only Nineteen), other veterans of Vietnam, Glenda Humes (daughter of Capt Reginald Saunders), peacemakers and an SAS trooper, this compelling investigation by Gina Lennox is underpinned by the question: where does family fit in a soldier's life?

Psycho-political Aspects of Suicide Warriors, Terrorism, and Martyrdom Jamshid A. Marvasti,2008 In this book there is no intention to bury or to praise suicide bombers. Instead, the text explores the controversy regarding the double standards, prejudice, and distortion with the concepts of suicide bombers/warriors, terrorism and martyrdom. Frequently, the eyes of the beholders and the political/religious orientation and loyalties to one's tribe color what someone perceives. For example, if you carry a bomb in your hand, you are called a terrorist, but if an F-16 carries bombs and kills civilians, the pilot could be labeled a war hero or freedom fighter. The contributors of this volume explore the controversial definitions of war crimes and terrorism from both sides; eventually declaring that although news and history are written by both the victor and the loser, the victor's media has more influence and dominance. Major motivational elements for suicide bombers are identified as: occupation/invasion of the homeland, psychic trauma and dissociation, religion, poverty, perceived injustice, shame and despair, rage and revenge, and cultural support. The contributors further explore state-sponsored terrorism, the limiting of civil liberties, and the psychological impact of war and terrorism on civilians, Israeli and Palestinian children, and western leaders. A psychological autopsy of suicide bombers and the uniqueness of female participants as well as the failure of counterterrorism are discussed. Research on the characteristics of homegrown worriers and warriors in the western Muslim population is presented. Finally, the inclusion of treatment methods of psychopharmacology and psychotherapy for traumatized victims of violence help give the reader a broad perspective of the future impact of this very complex topic.
