*Experiencing Broadway Music* Kat Sherrell, 2016-09-29 *Experiencing Broadway Music: A Listener's Companion* explores approximately the last century of American musical theater, beginning with the early-twentieth-century shift from European influenced operettas and bawdy variety shows to sophisticated works of seamlessly integrated song and dance that became uniquely American. It concludes with an examination of current musical trends and practices on Broadway. As a musician who works on Broadway and in developmental musical theater, Kat Sherrell draws on her knowledge both as a historian of Broadway musical form and as a professional Broadway musician to offer an insider's perspective on the development and execution of the past and present Broadway scores. Despite its enormous breadth, and given the historical significance of the musical in modern popular culture, *Experiencing Broadway Music* provides listeners—whether they know musical theater well or not at all—with the tools and background necessary to gain an understanding of the highly variegated structure and character of the Broadway musical over the past century.

*Miss You* Kate Eberlen, 2017-04-04 If ever a couple was 'meant to be,' it's Tess and Gus. This is such a witty, poignant, and uplifting story of two lives crisscrossing over the years, with near miss after near miss. . . . I couldn't put it down. — Sophie Kinsella For fans of *One Day in December*, *The Flatshare*, and *This Time Next Year*, a wryly romantic debut novel that asks, what if you just walked by the love of your life, but didn't even know it? *TODAY IS THE FIRST DAY OF THE REST OF YOUR LIFE*. Tess can't get the motto from her mother's kitchen knickknack out of her head, even though she's in Florence on an idyllic vacation before starting university in London. Gus is also visiting Florence, on a holiday with his parents seven months after tragedy shattered their lives. Headed to medical school in London, he's trying to be a dutiful son but longs to escape and discover who he really is. A chance meeting brings these eighteen-year-olds together for a brief moment—the first of many times their paths will crisscross as time passes and their lives diverge from those they'd envisioned. Over the course of the next sixteen years, Tess and Gus will face very different challenges and choices. Separated by distance and circumstance, the possibility of these two connecting once more seems slight. But while fate can separate two people, it can also bring them back together again. . . .

*The Entertainment Marketing Revolution* Al Lieberman, Patricia Esgate, 2002 Entertainment is now a \$500 billion industry that reaches into every corner of human life. *The Entertainment Marketing Revolution: Bringing the Moguls, the Media, and*

the Magic to the World profiles that industry, from film to print, music to theme parks--and shows exactly how to find and reach your market in today's insanely competitive marketplace. **So Tell Me What You Want** Nicki Chapman,2024-08-29 1987. Armed with a Filofax, a brick of a mobile phone and steely determination, 20-year-old Nicki Chapman is walking through the seedy streets of Soho towards her first job in the music biz. But how did Nicki go from being a looked-over assistant running promo packages over to BBC Radio 1 to a judge on Pop Idol with 15 million viewers tuning in for the nail-biting moment Will Young triumphed over Gareth Gates? Everyone knows there were the kingmakers in the heady days of 90s British pop music, but this is a queen's side of the story; a down-to-earth, no-nonsense team player who fought to make it in an industry that was very much a man's world. Empowering, entertaining and sprinkled with stardust, Nicki's inspirational behind-the-scenes story takes in the rocketing highs and heart-breaking lows of promoting, managing and touring with the Spice Girls, Amy Winehouse, David Bowie, Take That, Billie Piper, Phil Collins and S Club 7, all whilst confronting chauvinism and smashing through the career glass ceiling.

*Classic CD.* ,1999

**Insights in Sound** David Baker,Lucy Green,2017-03-27 Music has long been a way in which visually impaired people could gain financial independence, excel at a highly-valued skill, or simply enjoy musical participation. Yet there has been relatively little sociological research bringing together the views and experiences of visually impaired musicians themselves throughout the life-course. Insights in Sound cuts across a range of contexts - from amateur to professional, classical to popular, performance to composition - aiming to discover, analyse and share a rich range of insights into the lives and learning of these musicians.

**Classroom Management** Martin Henley,2006 Classroom Management: A Proactive Approach is based on three basic principles - classrooms should be learning communities; many behaviors can be prevented; and teacher interventions should promote positive change in classroom behavior. This comprehensive text: provides teachers with practical strategies in managing classroom behavior based on theories of human behavior; discusses contemporary topics on diversity, social skill instruction, and positive behavior support; and encourages teachers to reflect on their assumptions and look for causes and solutions when students misbehave.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. 12 Brain/Mind Learning Principles in Action Renate Nummela Caine,2005 From the Foreword by Arthur L Costa  
`Connecting research from the neurosciences, sound constructivist pedagogical practices and the National Teaching Standards, the authors produced a treasure of brain-based classroom practices to enhance learning. Educators wishing to harmonize their educational practices with research on brain functioning will find this fieldbook indispensable' - Arthur L Costa, Emeritus Professor of Education, California State University, Sacramento Renate and Geoffrey Caine, known world-wide for clarifying for educators how to apply brain research to teaching and learning, make the bridge from research to classrooms more practical than ever in this newest work. A stand-alone guide for both new and familiar readers, this Fieldbook, with new co-authors, for Making Connections, Teaching, and the Human Brain, applies their widely recognized 12 Principles of Brain/Mind Learning to today's learning context. New research from neurosciences, education and related disciplines, particularly the important findings about the brain's executive function; combine here with years of experience of working with schools internationally to put brain research to work in the classroom. The 12 Principles, with tools for application in teaching, cluster here around three critical elements of learning: climate; instruction processing.
