Leadership Practices in Speech and Debate Coaches Barry J. Regan, 2022-06-06 Intercollegiate forensics is an extracurricular activity venerated in American higher education for producing influential thought leaders, public servants, and highly trained professionals. In spite of its sterling reputation, financial support for and student participation on intercollegiate forensics teams is in an alarming state of decline. The author argues that intercollegiate forensics coaches, in the face of enormous challenges which threaten the continued vitality of competitive speech and debate at institutions across the United States, must chart a strategic pathway forward for current and existing intercollegiate forensics teams. This book advocates for the application of empirically validated leadership frameworks to the nuances of leading speech and debate programs. The author explores the use of innovative pedagogical methods and coaching strategies rooted in modern perspectives of competitive access and inclusion to boost team participation from individuals and groups historically excluded from the activity. Through the recommendations laid out in this book, the author offers a framework for intercollegiate forensics coaches to use in navigating an uncertain future.

Speech & Debate Stephen Karam, 2017 In this deliciously zany dark comedy, three misfit high school students form an unconventional debate club, complete with a musical version of *The Crucible*, an unusual podcast, and a ploy to take down the corrupt drama teacher. Together, Diwata, Solomon, and Howie uncover real truths amid fantasy in this incisive play about sexuality, loneliness, and identity.

The Politics of International Law and Compliance Nikolas M. Rajkovic, 2012-01-30 Leading the debate on the domestic effect of the growing influence of international adjudication, this invaluable text examines Serbia and Croatia's erratic record of compliance with the International Criminal Tribunal for the Former Yugoslavia (ICTY). Since the demise of the Milosevic and Tudjman regimes, Serbian and Croatian governments have been inconsistent in cooperating with the ICTY, despite the conditions of EU membership and US financial incentives. This study reconstructs events before, during and after extradition to build up a picture of the complex politics involved in ICTY relations, and provides a conceptual framework to study compliance in international relations and law. Through this analysis, a historical tracing of varied factors of political influence and a conceptualization of compliance is provided, resulting in a rich interdisciplinary work embracing political science, international relations and social theory. By scrutinizing the social meanings and political practices which become attached

to prescribed norms in compliance processes, this book provides a highly-relevant insight into contemporary meanings of 'compliance'. Politics of International Law and Compliance will be of interest to students and scholars of politics, international relations and international law, and European politics.

Free Speech Timothy Garton Ash, 2016-01-01 One of the great political writers of our time offers a manifesto for global free speech in the digital age Never in human history was there such a chance for freedom of expression. If we have Internet access, any one of us can publish almost anything we like and potentially reach an audience of millions. Never was there a time when the evils of unlimited speech flowed so easily across frontiers: violent intimidation, gross violations of privacy, tidal waves of abuse. A pastor burns a Koran in Florida and UN officials die in Afghanistan. Drawing on a lifetime of writing about dictatorships and dissidents, Timothy Garton Ash argues that in this connected world that he calls cosmopolis, the way to combine freedom and diversity is to have more but also better free speech. Across all cultural divides we must strive to agree on how we disagree. He draws on a thirteen-language global online project--freespeechdebate.com--conducted out of Oxford University and devoted to doing just that. With vivid examples, from his personal experience of China's Orwellian censorship apparatus to the controversy around Charlie Hebdo to a very English court case involving food writer Nigella Lawson, he proposes a framework for civilized conflict in a world where we are all becoming neighbors.

The Routledge Companion to Freedom of Expression and Censorship John Steel, Julian Petley, 2023-12-11 The Routledge Companion to Freedom of Expression and Censorship offers a thorough exploration of the debates surrounding this contentious topic, considering the importance placed upon it in democratic societies and the reasons frequently proposed for limiting and constraining it. This volume addresses the various historical, philosophical, political and cultural parameters of censorship and freedom of expression as well as current debates involving technology, journalism and media regulation. Geographically, temporally and culturally diverse accounts of censorship and freedom of expression are discussed through a broad range of perspectives and case studies. This Companion covers core principles and concerns in addition to more specialist and controversial debates, including those surrounding hate speech, holocaust denial, pornography and so-called "cancel culture". The collection pays particular attention to the role of the media in both facilitating and suppressing freedom of expression. Comprehensive, original and timely, The Routledge Companion to Freedom of Expression and Censorship is a go-to resource for scholars and advanced students of media, communication and journalism studies.

Better Mental Health in Schools Alison Woolf, 2022-09-20 Better Mental Health in Schools recognises the value of school staff in supporting mental health in children and young people and introduces new skills for enhancing the therapeutic benefits of environments and relationships in schools. This book discusses and links to provision in schools and to supporting good mental health in pupils across four key areas for enhancing mental health and wellbeing — Cognition, Compassion, Containment, and Connection. Based in relevant and timely research it provides an accessible insight into practical ways to

change practice. Rather than prescribe one programme, or suggest one curriculum design, the book shows how strengthening knowledge and understanding of some basic underpinnings of good mental health will scaffold the development of better mental health in schools and offers illustrations of how that could look in everyday practice. Written for practitioners and based on many years of experience in classrooms across a variety of education provisions, this book reflects the lived, experiential perspective of a teacher and school therapist. Through paying attention to these four key areas of daily life in school, staff can create an environment that supports mental wellbeing, while not depleting their own mental health.

The Sicarii in Josephus's Judean War Mark Andrew Brighton,2009 This book offers a comprehensive study of the Sicarii in Josephus's Judean War. Detailed rhetorical analyses are provided not only for the Masada narrative, where Josephus tells how the Sicarii famously committed suicide, but also for all other places in War where their activities are described or must be inferred from the context. The study shows how Josephus adopted the Sicarii in his narrative to develop and bring to a resolution several major themes in War. In a departure from the classical proposal that the Sicarii were an armed and fanatical off-shoot of the Zealots, this work concludes that from a historical perspective, Sicarii was a somewhat fluid term used to describe Jews of the Judean revolt who were associated with acts of violence against their own people for religious/political ends.
