Think Big With Think Alouds, Grades K-5 Molly Ness, 2017-07-13 A think-aloud process that comes close to bottling magic. Grab a pencil, and you are on your way to dynamic lessons using Molly's three-step planning process. Read Once: Go wild, putting a flurry of sticky notes on spots that strike you. Read Twice: Whittle your notes down to the juiciest stopping points. Read Three Times: Jot down what you will say so there's no need to wing it in front of the kids. Molly helps you focus on just five strategies: asking questions, making inferences, synthesizing, understanding the author's purpose, and monitoring and clarifying. Includes more than 20 ready-made think aloud scripts, activities, templates, and more.

Think Big with Think Alouds Molly Ness, 2017-07-13 I'm guessing that those two are planning a surprise. . . . The author keeps mentioning the storm because she wants us to think that the character's upset. . . . Wait—yikes, I gotta go back and reread because I'm not getting this part. . . . These are the flickering thoughts of a strategic reader. If only we could bottle all these mental moves and pour them into the minds of our students, then readers' achievement would grow exponentially. In *Think Big With Think Alouds*, Molly Ness delivers a process that comes close to bottling that magic. Molly spent a year researching teachers' think alouds, and she uses these findings to help you know just what to do. The big time-saver? You focus on just these five strategies: asking questions, making inferences, synthesizing, understanding the author's purpose, and monitoring and clarifying. Select the one or two strategies that align to your text, and get ready with a stack of sticky notes! Grab a pencil, and you are on your way to dynamic lessons using Molly's three-step planning process: Read Once: Go wild, putting a flurry of sticky notes on spots that strike you. Read Twice: Whittle your notes down to the juiciest stopping points. Read Three Times: Jot down what you will say so there's no need to wing it in front of the kids. Other practical tools include More than 20 ready-made think aloud scripts for favorite texts by Sandra Cisneros, Seymour Simon, Shel Silverstein, and many others, to use for think alouds for fiction, informational text, and poetry. Fun small group and partner activities to gradually transfer comprehension strategies to your students. Downloads on the companion website, including spinner and

dice templates, planning forms, and think aloud scripts Molly Ness is an associate professor at Fordham University's Graduate School of Education. She graduated Phi Beta Kappa from Johns Hopkins University and earned her PhD in reading education from the University of Virginia. A former Teach For America corps member, she is an experienced classroom teacher and reading clinician. Her numerous books and articles focus on reading comprehension, the instructional decisions of teachers, and the assessment and diagnosis of struggling readers.

Doing What Works Judy Tilton Brunner, 2013-01-12 *Doing What Works: Literacy Strategies for the Next Level* will assist educators as they support students in the mastery of vocabulary, comprehension, and study skills required by the Common Core State Standards. All strategies have been carefully selected based on their ease of use, utility in terms of scaffolding, differentiation, and simplicity of format. Judy Tilton Brunner designed this key sourcebook for educators who need or want to cultivate their students' vocabulary development, reading comprehension, note taking, and general study skills. *Doing What Works* provides practical, effective, and research-based strategies to help students remember and understand what they read at the highest levels of cognition: layering of texts, close reading, collaborating, using a variety of sources, teaching uncommon vocabulary, and posing text-dependent. By incorporating these teaching strategies into classroom instruction, educators will teach with purpose, and students will learn with independence.

Reading in the Digital Age: Young Children's Experiences with E-books Ji Eun Kim, Brenna Hassinger-Das, 2019-07-23 This edited book focuses on affordances and limitations of e-books for early language and literacy, features and design of e-books for early language and literacy, print versus e-books in early language and literacy development, and uses of and guidelines for how to use e-books in school and home literacy practices. Uniquely, this book includes critical reviews of diverse aspects of e-books (e.g., features) and e-book uses (e.g., independent reading) for early literacy as well as multiple examinations of e-books in home and school contexts using a variety of research methods and/or theoretical frames. The studies of children's engagement with diverse types of e-books in different social contexts provide readers with a contemporary and comprehensive understanding of this topic. Research has demonstrated that ever-increasing numbers of children use digital devices as part of their daily routine. Yet, despite children's frequent use of e-books from an early age, there is a limited understanding regarding how those e-books are actually being used at home and school. As more e-books become available, it is important to examine the educational benefits and limitations of different types of e-books for children. So far, studies on the topic have presented inconsistent findings regarding potential benefits and limitations of e-books for early literacy activities (e.g., independent reading, shared reading). The studies in this book aim to fill such gaps in the literature.

Early Literacy Instruction John A. Smith,Sylvia Read,2009 Early Literacy Instruction: Teaching Reading and Writing in Today's Primary Grades, 2/e Different from many other books on the market, this introduction to early childhood literacy provides rudimentary and specific aspects of early literacy assessment and develops meaningful strategies for catching struggling young readers before they fall through the cracks. KEY TOPICS: Replete with authentic, first-person classroom descriptions, this introduction to emergent childhood literacy is built upon a five-part literacy instruction framework that is both comprehensive and practical. Each of the five components of the framework--teacher read-alouds, word study instruction, independent reading practice, guided reading instruction and writing workshop--is thoroughly developed in separate chapter discussions. MARKET: For pre-service and practicing elementary school and early childhood educators and literacy counselors.
