Handbook of Conspiracy Theory and Contemporary Religion Asbjørn Dyrendal, David G. Robertson, Egil

Asprem, 2018-10-02 Conspiracy theories are a ubiquitous feature of our times. The Handbook of Conspiracy Theories and Contemporary Religion is the first reference work to offer a comprehensive, transnational overview of this phenomenon along with in-depth discussions of how conspiracy theories relate to religion(s). Bringing together experts from a wide range of disciplines, from psychology and philosophy to political science and the history of religions, the book sets the standard for the interdisciplinary study of religion and conspiracy theories.

Foundations of Atlantis, Ancient Astronauts and Other Alternative Pasts Jason Colavito, 2015-03-06 Did aliens visit ancient civilizations? Could Jesus have fathered a dynasty? Did people of the ancient world visit the Americas centuries before Columbus? The public enjoys such questions, which have spawned countless books, movies and television series, but very rarely is any actual evidence produced. According to many eager writers and television hosts, evidence for long-ago astronauts or early transatlantic voyages can be found in ancient texts. But too often sources remain obscure and some writers have altered or fabricated texts to make their case for extraterrestrials and lost civilizations. This book examines more than 130 very old texts used to make the case for Atlantis, aliens, fallen angels, the Great Flood, giants, transatlantic voyagers, ancient high technology and many other mysteries. English translations are presented with explanatory notes showing how these texts have been used and abused to make entertaining claims about prehistory.

UFOs in Wartime Mack Maloney, 2011-12-06 UFOs do exist. They are found in Renaissance art, on ancient coins, etched on cave walls—and even reported in the Bible. Even more surprising is where they are documented most: in times of armed conflict.... Accounts of hovering objects, when war is imminent, reach as far back as 312 A.D. when seen by Roman Emperor Constantine I as he led his troops to battle. They supposedly aided George Washington in winning the American Revolution. UFOs were also reported flying over Normandy on D-Day, and were dubbed “foo fighters” by World War II pilots. In Vietnam, an Air Force commander said they were “plagued” by UFOs. Even today, the reports continue to pour in, as noiseless objects are seen darting over the battlegrounds of the Middle East. These sightings, as inconceivable as they may seem, are made by high ranking officials, soldiers and news reporters. Why do these reports spike so drastically during wartime? Could it be

mistaken aircraft? Or is someone, or something, looking in on us.... Includes incredible photographs of UFOs

UFOs the Final Answer? David Barclay, Therese Marie Barclay, 1997

Chariots of Gods or Demons? James Edward Gilmer, 2002-08-01 Chariots of Gods or Demons flies galaxies beyond traditional books on UFO's and extraterrestrials. It addresses the many puzzling issues relating to extraterrestrial visitors in a clear, enlightening and even inspiring manner. Instead of simply listing UFO sightings, posing the usual questions and suggesting unsupported answers it poses the tough questions, delivers the answers and back them up with solid evidence - Where do UFO's come from? Why are they here? Where are their bases? These are just a few of the questions answered by this book. Chariots of Gods or Demons reveals little-known facts about extraterrestrials, the universe around us and mankind itself. Our origin and development as a species, our relationship with extraterrestrials and attitudes that limit our growth are among the topics discussed. Chariots of Gods or Demons is must reading for beginners or experts the curious or die-hard enthusiasts. No other book offers such a fountain of facts and revelations on this topic. And finally, no other such book can change your attitudes about life the way this one can.

UFOs Rowan Wilson, 1997 While any unidentified flying object loosely qualifies as a UFO, some are more mysterious than others--and more likely to have extraterrestrial origins. Among the most persuasive cases: the Texas Airship mystery, when a craft metallic and...tremendous in size appeared; the abduction of an entire combat unit at Gallipoli; and, of course, the

infamous Roswell crash. Also takes on the issues of possible governmental cover-ups...and the legendary men in black.

The Magic of Our Universe Kent Davis Moberg,1999 This fascinating journey into the anomalies pervading our universe appeals to paranormal enthusiasts, scholars, or anyone interested in the meaning of life.

UFOs and the Alien Agenda Bob Larson,1997 This is an index of all that is strange and mysterious, and what God's Word has to say about it.

UFOs John Duncan,1999 Is there really a Loch Ness monster? Does the Bermuda Triangle actually exist? Remarkable photography and detailed research explaining the science behind each monster will intrigue even your most reluctant readers.

The UFO Phenomenon ,1997

The Alien Agenda Clifford Wilson,1988

Almanac of Alien Encounters Eric Elfman,2001 A historical overview of alien encounters, from Archbishop Agobard of Lyons's ninth-century encounter with the occupants of a cloudship through a January 2000 UFO sighting in Illinois. Includes both the skeptics' and the true believers' points of view.

The God Hypothesis Joe Lewels,1997 The God Hypothesis offers a bold look at the alien abduction phenomena and challenges not only commonly accepted UFO theories, but also the modern theological and scientific consensus views of reality. By thoroughly examining evidence from various scientific disciplines, Dr. Lewels presents a compelling case for the reality of UFOs and their connection to the major religions of the world. In so doing, he causes us to re-examine our own spiritual and religious beliefs and to see the Bible through modern, scientific eyes a view that demystifies the ancient texts and reveals the true origins of the human race and its proper place in the hierarchy of intelligent life in the universe. Lewels sees the UFO enigma as part of the process of human evolution, in the physical sense as well as in the spiritual. He proposes a solution that crosses the line between the physical, material world and that spiritual dimension where quantum physics tells us that time and space cease to exist.
