**The Off-Grid Herbal Survival Bible** Amanda Adams, 2025-07-01 What if modern medicine vanished overnight? What if the grid went down, stores ran empty, and doctors were days—or weeks—away? Would you know how to survive? This isn't a book about trendy health fads or overpriced supplements. This is about ancient plant wisdom, field-tested survival remedies, and life-saving knowledge our ancestors once knew—and most people have long forgotten. The Secret? Survival Synergies. Sure, you've heard of herbs like garlic, echinacea, or peppermint... But do you know which one repels infection better than antibiotics when combined with honey and oak bark? Or which wild plant root can stop internal bleeding faster than gauze? Most herbal books teach you what each plant does. This book teaches you how to survive when you're completely on your own. Inside *The Off-Grid Herbal Survival Bible*, You'll Discover: □ 72 powerful plants you can forage, grow, or store for total off-grid survival □ How to make wound-sealing poultices, anti-infection tinctures, and inflammation-fighting salves—fast □ The 3-plant combination that creates a natural antibiotic with zero side effects □ How to build a portable, long-lasting herbal medicine chest that could save your life □ Time-tested knowledge from Native healers, wilderness medics, and frontier doctors □ No fluff, no filler—just clear survival strategies, backed by science and tradition Why This Book Works When Others Fail Most guides talk about nice-to-have herbs. This is about need-to-know plants when your life is on the line. You won't just learn what each plant does. You'll master how to use them together, when to harvest them, how to store them for years, and how to prepare them in real emergencies. □ *Nature Is Your Pharmacy*. But only if you know where to look—and what to do. □ Click Add to Cart and unlock the ancient herbal survival skills that could one day save your life. When there's no doctor, you are the medicine

**101 Skills You Need to Survive in the Woods** Kevin Estela, 2019-04-16 The Foundation of All Survival Skills is “Feeder” Mind-Set “Feeder” mind-set means being in control of a situation, proactive rather than reactive. It is an optimistic outlook that reframes any situation as a learning experience. Kevin Estela teaches survival skills from this feeder-based perspective, which is what separates his teaching style from other wilderness instructors. Kevin has written the quintessential guide for an outdoor enthusiast’s “bucket list” of skills—how to make a fire, build a shelter, gather food, find water, use a knife correctly and make cordage. These skills will keep you safe and better prepare you to deal with emergencies in the field, when you’ll need the additional skills of signaling and communication, navigation and crisis first aid taught in this book. Each chapter concludes with more advanced techniques to build your skills in various challenging situations, with tips that even seasoned survival enthusiasts haven’t thought of. 101 Skills You Need to Survive in the Woods is not a onetime read but a lifetime reference you will turn to over and over again. It will become the first thing you pack for any adventure and just might save your— or someone else’s—life. Kevin Estela, a bushcraft and survival expert, is an avid world traveler and martial arts instructor.
