Handbook of Early Intervention for Autism Spectrum Disorders Dennis R. Dixon, Peter Sturmey, Johnny L. Matson, 2024-11-26 The Second Edition of this handbook provides significantly updated and expanded content and coverage, including new chapters on the changing epidemiology of autism spectrum disorder (ASD), measurement and assessment of problem behaviors, value-based care for ASD, conceptual foundations of evidence-based practices, the use of technology, and functional behavior assessment in ASD treatment. This unique volume addresses basic questions in salient detail, from epidemiology and diagnosis to guiding treatment decisions. In addition, it examines treatment delivery systems and new technologies to support individuals with ASD. Key areas of coverage include: History of the evolving diagnostic criteria for ASD. Early screening and diagnostic measures and practices. Ethics and economics of early intervention. Detailed descriptions of evidence-based practices in treating the behavioral deficits and excesses associated with ASD. Interdisciplinary collaboration to address co-occurring conditions and treat the whole patient. Caregiver collaboration to foster treatment integrity and consistency to improve outcomes. The Second Edition of the Handbook of Early Intervention

for Autism Spectrum Disorders is a must-have comprehensive reference for researchers, professors, and graduate students as well as clinicians and other scientist-practitioners in clinical child, developmental, and school psychology, child and adolescent psychiatry, social work, public health, pediatric medicine, rehabilitation, and special education.

Coaching Parents of Young Children with Autism Sally J. Rogers, Laurie A. Vismara, Geraldine Dawson, 2021-04-20 A growing body of evidence supports the benefits of high-quality parent interventions for building social and communication skills in 0- to 5-year-olds with autism spectrum disorder (ASD). How can clinicians coach parents to effectively incorporate learning opportunities into daily routines at home? From preeminent experts, this practical book explores the role of the coach and reviews the whats, whys, and how-tos of successful collaboration with parents. Topics include structuring coaching sessions, identifying children's needs, facilitating playful engagement, and deepening parents' understanding of how they can boost skills development during everyday activities. Seventeen reproducible handouts and forms include the multipage P-ESDM Infant-Toddler Curriculum Checklist, ideal for use in telehealth assessments. Purchasers get access to a webpage where they can download and print the reproducible materials in a convenient 8 1/2 x 11 size.

Implementing the Group-Based Early Start Denver Model for Preschoolers with Autism Giacomo Vivanti, Ed Duncan, Geraldine Dawson, Sally J. Rogers, 2016-12-16 This book examines a group-based adaptation of the Early Start Denver Model (ESDM) designed for use with preschoolers with autism spectrum disorder (ASD). It describes the principles and procedures of the Group-Based Early Start Denver Model (G-ESDM) and provides practical and empirical guidelines for implementing effective, affordable programs across public healthcare and educational settings. Chapters offer rationales and strategies for designing and evaluating interventions, building interdisciplinary teams, and organizing learning spaces to engage student interest. Examples discuss the social interactions in groups that provide opportunities for learning, improving interpersonal skills, and reducing problem behaviors. In addition, the book offers ideas for retooling teaching strategies when an individual child lags behind the rest of the group. Featured topics include: Creating treatment objectives in the G-ESDM. Setting up the G-ESDM team and learning environment. Development of the G-ESDM classroom curriculum. Practical tools such as decision-making trees, teaching templates, and fidelity systems. Facilitating learning through peer interactions and social participation. Implementing the Group-Based Early Start Denver Model for Preschoolers with Autism is a must-have resource for clinicians and practitioners as well as researchers, professors, and graduate students in the fields of child and school psychology, behavioral therapy, and social work along with psychiatry, pediatrics, and educational and healthcare policy.

Early Start Denver Model for Young Autistic Children Sally J. Rogers, Geraldine Dawson, 2025-12-16 Used worldwide, this trusted resource is now in a thoroughly revised second edition, reflecting key advances in early intervention research and practice. The Early Start Denver Model (ESDM) is the first comprehensive, naturalistic,

developmental-behavioral, empirically tested intervention specifically designed for infants displaying early signs of autism and young autistic children. Leading experts Sally J. Rogers and Geraldine Dawson guide practitioners to assess and support all aspects of children's development—including social communication, language, cognition, imitation, and play—using enjoyable, interactive routines in everyday settings. The manual is grounded in state-of-the art findings from the developmental, clinical, and learning sciences. The companion website provides details about the ESDM Fidelity Rating System and a summary of key intervention strategies. New to This Edition Chapters on what to do when a child's progress is concerning, partnering with families, and implementation of ESDM in different countries and cultures. Significant new research on brain development and how it differs in autism. Updated and comprehensive approach to promoting language development, with increased attention to alternative and augmentative communication strategies. New and revised decision trees and expanded efficacy research. Focus on promoting autistic children's development from a neurodiversity-affirming perspective. Establishing individualized teaching objectives and plans for each child requires the use of the Early Start Denver Model Curriculum Checklist for Infants and Young Autistic Children, Second Edition, sold separately in sets of 15 ready-to-use booklets.

Social and Communicative Functioning in Populations with Intellectual Disability: Rethinking Measurement, 2023-10-12 Social and Communicative Functioning in Populations with Intellectual Disability: A Developmental Perspective, Volume 65 in the International Review of Research in Developmental Disabilities series, focuses on social and communicative functioning with a particular emphasis on people with intellectual disability. The volume brings together international researchers across disciplines to highlight innovative approaches to holistically describe social and communicative abilities in this population including teleassessment, self-report, and community-engaged research designs. Through a lifespan approach, key issues are raised related to social and communicative functioning across a range of communication modalities from infancy through adulthood. Additional chapters cover Adaptation of in-person tools for remote assessment of infants and toddlers with social communication concerns in community-based settings, Measuring social communication in people with ID who use minimal speech: Differences across the lifespan, and Social Inclusion of Adults with IDD: Toward Belonging, Building a Life: Examining the advocacy and social experiences of students with IDD in inclusive postsecondary education. - Focuses on social and communicative functioning in people with intellectual disability - Provides a holistic perspective to describing social and communicative abilities - Includes a lifespan approach from infancy through adulthood

Autism Spectrum Disorder in the First Years of Life Katarzyna Chawarska, Fred R. Volkmar, 2020-08-24 Synthesizing an explosion of recent research, this book presents dramatic advances in understanding and treating autism spectrum disorder (ASD) in very young children. Leading authorities describe the innovative tools and methods that are enabling clinicians to more effectively identify 0- to 5-year-olds with the disorder and those at risk for related problems. Chapters

discuss the early core symptoms and co-occurring characteristics of ASD, the best diagnostic instruments, and lessons learned from large-scale screening and surveillance, including sibling studies. The book reviews evidence-based interventions and explores practical issues in treatment of young children and their families.

An Early Start for Your Child with Autism Sally J. Rogers, Geraldine Dawson, Laurie A. Vismara, 2012-05-15 Cutting-edge research reveals that parents can play a huge role in helping toddlers and preschoolers with autism spectrum disorder (ASD) connect with others and live up to their potential. This encouraging guide from the developers of a groundbreaking early intervention program provides doable, practical strategies you can use every day. Nearly all young kids—including those with ASD—have an amazing capacity to learn. Drs. Sally Rogers, Geraldine Dawson, and Laurie Vismara make it surprisingly simple to turn daily routines like breakfast or bath time into fun and rewarding learning experiences that target crucial developmental skills. Vivid examples illustrate proven techniques for promoting play, language, and engagement. Get an early start—and give your child the tools to explore and enjoy the world. Preschool Education Programs for Children with Autism Jan S. Handleman, Sandra L. Harris, 2008 Since the first two additions of *Preschool Education Programs* (1994, 2001), more exciting advances, particularly the Applied Behavior Analysis (ABA), have arisen to benefit the special education of youngsters in school. Contributing to this 12-chapter edition are 11 scholar programs (Alpine Learning Center; ASCENT; Autism Center at the University of Washington; CABAS Program; Children's Unit at SUNY Binghamton; Douglass Developmental Disabilities Center; Groden Center; LEAP Program; Summit Academy Sussex Consortium; and Valley Program), answering a common set of questions concerning the treatment of very young children with Autism Spectrum Disorders, using a range of ABA technology. This book addresses educational settings including public, private and university-based programs in America. It is an especially valuable resource for parents, professionals and administrators who are in the process of developing programs for the preschool student. Topics discussed include: * Addressing problem behaviors, social skills, and play * Teaching speech and language through verbal behavior framework, visual supports, sign language, and other augmentative/naturalistic methods * Measuring outcomes of students * Conducting transition to school age programs * Determining a child's eligibility for admission and the diagnostic materials used

Toward a Child-Centered, Neighborhood-Based Child Protection System Gary B. Melton, Ross A. Thompson, Mark A. Small, 2002 The current system of protecting society's children from abuse is failing miserably. In this volume, scholars affiliated with universities and professional associations nationwide pinpoint a better strategy. Their research spotlights neighborhood-based child protection systems and provides a comprehensive approach for creating procedures that meaningfully address child maltreatment. The volume discusses the challenges of moving toward such a system within the current legal, political, and cross-cultural contexts of child protection. Examples of promising applications of a community-based approach are cited. Also cited are the legal and practical structural steps to be taken in creating caring communities that effectively address child abuse and neglect.
