*Examining Speaking* Lynda Taylor, 2011-08-25 An up-to-date review of the relevant literature on assessing speaking.

**IELTS Collected Papers 2** Lynda B. Taylor, Lynda Taylor, Cyril J. Weir, 2012-02-23 This volume reports research that informs the development of reading and listening assessment in IELTS. This volume brings together a set of eight IELTS-related research studies - four on reading and four on listening - conducted between 2005 and 2010. Findings from these studies provide valuable evidence on the validity, reliability, impact and practicality of the IELTS test; they are also instrumental in highlighting aspects needing attention, and thus directly inform the continuing evolution of the IELTS reading and listening tests. The volume reviews and comments on the specific contribution of each study to the ongoing process of IELTS reading and listening test design and development.

**A Qualitative Approach to the Validation of Oral Language Tests** Anne Lazaraton, University of Cambridge Local Examinations Syndicate, 2002-07-18 This book aims to provide language testers with a background in the conversation analytic framework.

**The Future of Teacher Education** , 2023-05-25 Twenty-first century processes, such as globalization and digitization, pose various challenges for primary, secondary, and post-secondary teacher education at both the formal and informal education levels. These challenges are addressed by innovators in the field of teacher education, i.e. teacher educators, pre-service teachers, in-service teachers, scholars and policy-makers. This edited volume explores future trends in three different spheres of teacher education: 1) pedagogies (emotive, reflective, cognitive, and didactic practices), 2) technologies (digital competencies, artificial intelligence in teaching, and the transformative potential of digital tools in intercultural learning), and 3) societies (multilingualism, attitudes towards literacies, societal polarization, and teacher shortages). The suggested innovations aim to bridge the gap between theory and practice by drawing upon the critical evaluation of theoretical approaches as well as the discussion of best practice examples. The chapters are situated in various countries, such as Vietnam, Canada, Argentina, Spain, Germany, the USA, Switzerland, Sweden, Italy, and, as a transnational cooperation, Palestine and the UK. *The Future of Teacher Education: Innovations across Pedagogies, Technologies and Societies* considers various models of teacher education (e.g. reflective model, competency-based model, etc.) and applies a multitude of different research methods (e.g. didactic analysis of teaching material, thematic analysis of reflections, etc.).

They need to speak for about a minute, focusing on comparing both pictures and answering a question about them. Then, the other candidate is asked a follow-up question.
