No Wonder You Wonder! Claude Phipps, 2015-10-05 This book explores and explains scientific mysteries and principles, leavened with tongue-in-cheek humor and an abundance of illustrations. Chapters are short, but give an understanding of technology and science not available elsewhere. Questions include: • What holds a satellite up while it goes around the Earth? • Why is the sky (made out of clear air!) blue instead of green, or just black as night like the sky that high altitude jumper Felix Baumgartner saw? • How is laser light different from “normal” light? • Did Columbus really discover that the Earth is round? • Which one invention will assuredly survive our civilization? • Why can’t you travel back in time? If you often feel embarrassed because you don’t have a clue about lasers, the difference between volts, amps and watts, or how jet planes really work – but you would like to understand the physical principles of our modern world, whether you’re a teen or a parent – this book is for you! To understand the basics of quantum mechanics, or of protons, neutrons and electrons, you don’t need algebra, calculus, or a lot of equations or technical buzzwords. Too many people have been soured on science by science teachers who have made simple concepts seem complex. This book is the antidote: all it requires is your curiosity. Advance praise for No Wonder You Wonder!: “From beginning to end, and with laugh after laugh, I enjoyed every single word of this remarkable book. Phipps is a hell of a good writer, and the kind of physics teacher that I would have loved as a young student. No Wonder You Wonder can be engrossing for anyone with a bit of curiosity, not just the scientific minded.” – Christophe Bonnal, Chief Engineer, CNES (French Space Agency) “No Wonder You Wonder is a fantastic book. Covering topics such as space, matter, and the energy within the universe, this book does an excellent job of clarifying these topics. It’s a great read for young scientists and aspiring physicists.” – August R., high school freshman

Observations of White Noise Marc M. Harrold, 2005 Observations of White Noise An Acid Test for the First Amendment examines the current state of the First Amendment, its scope and design, and its place in popular culture. Lawyer Marc M. Harrold candidly examines both mainstream and cutting-edge topics, including an overview of the First Amendment and its unique character in comparison with the other Amendments that comprise the Bill of Rights. In engaging fashion, he reveals the illogical reasoning behind the Supreme Court’s sex-only obscenity doctrine and the over-expansive insertion of the First Amendment into tort suits between private parties where the government is not directly involved. Advance Praise for Observations of White Noise- Observations of White Noise is a clear and provocative interpretation of the

present state of First Amendment law as it impacts our ever-evolving culture. Marc Harrold powerfully trumpets the importance of free speech and representative government in a democratic society. Professor Harrold offers deep insights by integrating critical analysis and perspective on how judicial interpretations of our beloved First Amendment shape our nation and its culture. -Hon. Kenneth W. Starr, Dean and Professor of Law, Pepperdine School of Law. Former Judge of the U.S. Court of Appeals, Solicitor General of the United States, Independent Counsel on the Whitewater matter, and author of *FIRST AMONG EQUALS: THE SUPREME COURT IN AMERICAN LIFE*. A timely and thoughtful exploration of the newest generation of challenges to our ongoing American debate over the meaning of the First Amendment, gracefully intertwining 'breaking news' with discussion of classic First Amendment conundrums. Rodney A. Smolla, Dean and Professor of Law, University of Richmond School of Law and author: *DELIBERATE INTENT, JERRY FALWELL V. LARRY FLYNT: THE FIRST AMENDMENT ON TRIAL*, and *FREE SPEECH IN AN OPEN SOCIETY*..

Suicides and domestic setting corpses Karen van den Hondel, 2022-11-29 This book describes how forensic doctors' registrations have been used to describe different types of deaths in the Netherlands. The book consists of two parts. Part 1 describes the gradual increase in the number of suicides where helium is used combined with an exit-bag since the publication of the book 'Uitweg' published in 2013 in Amsterdam and the rest of the Netherlands. It recounts which kind of individuals choose this method, as well as which individuals choose to use a barbiturate overdose. It also describes in which cases the forensic physician in the presence of the Crime Scene Technicians investigates a suicide. Part 2 describes which individuals had a risk of lying unnoticed dead in a home for more than two weeks ('domestic setting corpse') and how common this phenomenon is in the four largest cities in the Netherlands. In addition, it describes whether preventive measures against loneliness in both Amsterdam and Rotterdam, deployed after the media attention following the discovery of a 10-year-old housing corpse in Rotterdam, led to a decrease in the number of domestic setting corpses. This study shows that there is no difference in the number of domestic setting corpses before and after the implementation of the preventive measures.

Sometimes I Think About It Stephen Elliott, 2017-11-07 An essay collection by a writer who "may be writing under . . . the influence of genius" (Vanity Fair) In *Sometimes I Think About It*, Stephen Elliott gathers personal essays, reportage, and profiles written over fifteen years to tell a powerful story about outsiders and underdogs. Moving from the self to the civic, the book begins with a series of essays that trace Elliott's childhood with an abusive and erratic father, his life on the streets as a teenager, and his growing interest in cross-dressing and masochism. These stories, which range from a comic portrait of a week spent hosting his younger brother to a brutal depiction of depression, provide a context for the essays that follow. Stepping out into the world, Elliott tells of a man who loses his family in a rock slide in Southern California, explores the vexing realities of life in Palestine, and paints a chilling picture of a young man caught in the prison-industrial complex. The

last section, "The Business of America Is Business," shows Elliott's abiding interest in the spectacle of money in America, from pop music to pornography to publishing, and it concludes with an off-kilter account of the tech industry's assault on West Los Angeles. Building on the extraordinary storytelling that characterized his breakout book, *The Adderall Diaries*, Elliott's search for dignity and happiness leads him to tell with great sympathy the stories of those who are broken and seek to be whole.

Assisted Suicide Karen Balkin, 2005 According to a survey by the Heritage Foundation, only seven percent of parents are happy with the sex education curricula that is offered in America's schools. This book helps students get a sense of this issue and encourages critical thinking.

The Airship Ladyship Adventure Jonathan Gathorne-Hardy, 1977 Launched by mistake in a magnificent airship, a young girl embarks on some harrowing adventures.

The Chessmen of Mars Edgar Rice Burroughs, 1921 Held captive by grotesque bodiless heads, Princess Tara of Helium was rescued by a warrior who dared not reveal his name.

A Good Death Sandra Martin, 2016-04-12 Having a good death is our final human right, argues Sandra Martin in this updated and expanded version of her bestselling and award-winning social history of the right to die movement in Canada and around the world. Winner of the BC National Award for Canadian Non-Fiction, finalist for both the Donner Prize in Public Policy and the Dafoe Prize for History, *A Good Death* has a new chapter on Canada's Medical Assistance in Dying Law. The law allows mentally competent adults, who are suffering grievously from incurable conditions, to ask for a doctor's help in

ending their lives. Does the law go far enough? No, says Martin. She delivers compelling stories about the patients the law ignores: people with life-crushing diseases who are condemned to suffer because their natural deaths are not reasonably foreseeable. With a clear analytical eye, she exposes the law's shortcomings and outlines constitutional challenges, including the presumed right of publicly-funded faith-based institutions to deny suffering patients a legal medical service. Martin argues that Canada can set an example for the world if it can strike a balance between compassion for the suffering and protection of the vulnerable, between individual choice and social responsibility. A Good Death asks the tough question none of us can avoid: How do you want to die? The answer will change your life—and your death. "[An] excellent new book. . . .The timeliness is hard to overstate." —The Globe and Mail "What truly distinguishes this book is the reportage on individuals and families who have fought to arrange for a better death. . . . These first-hand experiences are the beating heart of a timely and powerful examination." —2017 BC National Award for Canadian Non-Fiction Jury Citation

Secrets of Death Stephen Booth, 2017-04-04 For fans of Broadchurch, Louise Penny, and Peter Robinson comes a spellbinding new novel from internationally bestselling author Stephen Booth Residents of the Peak District are used to tourists descending on its soaring hills and brooding valleys. However, this summer brings a different kind of visitor to the idyllic landscape, leaving behind bodies and secrets. A series of suicides throughout the Peaks throws Detective Inspector Ben Cooper and his team in Derbyshire's E Division into a race against time to find a connection to these seemingly random acts — with no way of predicting where the next body will turn up. Meanwhile, in Nottingham Detective Sergeant Diane Fry finds a key witness has vanished . . . But what are the mysterious Secrets of Death? And is there one victim whose fate wasn't suicide at all?
