

Incident At Devils Den

Ernest Jones

Incident at Devils Den: A True Story, by Terry Lovelace, Esq Terry Lovelace,2019-12-02 A true story of the 1977 alien abduction as told by a former Assistant Attorney General and USAF veteran. He and a friend were taken while remote camping in an Arkansas State Park. Includes the 2012 x-rays of an alien implant discovered on a routine x-ray. It was the catalyst to tell the story he had to retire before he could tell.

Devils Den Terry Lovelace,Terry Lovelace Esq,2020-11-30 Additional chapters to Incident at Devils Den, a true story, plus previously untold stories submitted for research and review.

UFOs Karl Svozil,2023-08-01 Unidentified phenomena in space, in the Earth's atmosphere, and in waters are too important to leave their exploration to the military and scientific laypersons. Their proper scientific study is important for a variety of reasons; in particular, scientists and the public at large need to know the basic facts, to be informed about the way evidence is recorded, and to understand the difference between reliable evidence and fiction, as well as between plausible explanations and fantasy. With this objective, the book surveys the history of UFO observations, the variety of recorded phenomena, and recounts the efforts of investigative commissions and their published findings. Although wild rumors are demystified in the process, this is not an exercise in rumor-bashing. An open and at the same time critical mindset is the key. Many narratives and hypothesis appear implausible relative to our present state of knowledge; but this alone should not lead to their outright exclusion. Thus the author also pays attention to UFO sightings that have so far eluded explanation in terms of known physics or meteorology. Here the reader will encounter some of the more speculative but scientifically tenable proposals, for example, relating to sudden zigzag motion without apparent inertia or recognizable propulsion, yet always with a clear guide to their plausibility. Last but not least, the book outlines plans and suggestions for future research capable of revealing the existence and intentions of extraterrestrial intelligences, outer-space engineers, or technologies so far known only from science fiction.

The Extraterrestrial Model Dr. Michael P. Masters,2022-05-24 In The Extraterrestrial Model, Dr. Michael P. Masters posits that UFOs and Aliens are our future human descendants, coming back through time to visit and study their own hominin evolutionary past. As a professor of anthropology, Masters uses an abductive approach to logically infer the best explanation. He examines well-documented abductee experiences in the context of this time travel model, and considers

other theories put forth to elucidate this complex and mysterious phenomenon. While no single model can account for all aspects of these encounters, in considering various contact cases across the world and through time, recurrent patterns emerge that may offer insight into what these objects are, who is inside, and from where—or potentially when—they are coming.

Free Fall, Terry Lovelace,2023-03 The story of a fourteen year-old girl who drowned in a Kansas Swimming pool in 1989. Without a heartbeat for 32 minutes, she was resuscitated in a hospital ER, and had an amazing near-death-experience. At age 48, she's sharing her story here for the first time. She describes her NDE as a transformative journey. She tells of her out-of-body experience, a timeless visit to the other side where she saw her deceased father and a holy man, before being told she had to return because it was not her time.

Ghosts of Gettysburg Dave Oester,Sharon Oester,2007-05 Ghosts of Gettysburg: Walking on Hallowed Ground is a keep-you-up-all-night book from real life master ghost hunters, Drs. Dave and Sharon Oester, cofounders of the International Ghost Hunters Society, the largest ghost research society on the Internet. Drs. Dave and Sharon Oester spend their time traveling the back roads of America, investigating some of its most haunted places. Over a six-year period, they explored and recorded the amazing ghostly experiences of visitors to the Gettysburg battlefield. One year they devoted a full month for battlefield investigations and drove over 1,000 miles on the battlefield gathering data for this book. Drs. Dave and Sharon Oester were the first to hold ghost conferences in Gettysburg teaching about ghost photography and electronic voice phenomena known as EVP. Their annual ghost conferences started the ghost hunting movement in Gettysburg. Drs. Dave and Sharon Oester share 40 haunted sites on the battlefield, not according to folklore, but from their own personal investigations using scientific tools to validate the existence of ghosts. Each haunted site contains a short history of its part in this three-day battle. Read about the ten most haunted Civil War hospitals sites that can be visited by the reader.
