

Legacy From The Stars

Dolores Cannon

Legacy from the Stars Dolores Cannon,1996 We are children of the stars. This is our legacy and our heritage. In the history of the cosmos, Earth is a young planet. Our souls, on the other hand, have been around forever and will continue to be around forever. Thus Earth is not our only home. We have lived many lives in unusual environments before deciding to journey here and learn the lessons of Earth. After our schooling is completed on this planet, we will journey onward to discover new worlds to explore. The memories of these soul journeys are recorded in our subconscious, and in *Legacy from the Stars* hypnotherapist Dolores Cannon shows that they can be retrieved through regressive hypnosis. She reports dramatic cases where the subjects relived other lifetimes in strange environments -- inhabitants of other planets. After reading her latest book, you may agree that we are all extraterrestrials, and Earth is merely a stop-over in our long adventure.

Legacy from the Stars Dolores Cannon,1996-01-01 Argues that we lived many lives in unusual environments before deciding to journey to Earth and learn its lessons. After our schooling is complete, we will leave Earth for new worlds. The text shows that the memories of our soul journeys can be retrieved through regressive hypnosis.

The Legacy of Rome Cyril Bailey,1923 This book is an endeavour to trace in many fields the extent of the inheritance which the modern world owes to Ancient Rome. The chapters have been written independently, and it will be seen that they are not all on the same plan. Some writers have described the contribution of Rome to civilization, and have left it to the reader to infer the extent of the legacy; others have traced the steps by which the legacy has come to us, and to this subject Professor Foligno has devoted a valuable chapter. - Editor's note.
