

Native Funk And Flash

Wenbin Ji

Native Funk & Flash Alexandra Jacopetti, 1974

Native Funk & Flash Alexandra Jacopetti Hart, 2013-05 This delightful 1974 classic is replete with new images, updates on favorite artists, and a thoughtful afterword by the author that reflects on what was at the heart of the '60s counterculture. *Native Funk and Flash* sits alongside treasured costume and fashion bibles on the shelves of the great designers of our times. Many artists, now in their prime, credit their early encounter with it for their own choice of career and inspiration. Within these pages hand-embroidered and hand-painted imagery enhance dear old shirts and jeans, serving the dual purpose of extending their usefulness and emblazoning the wearer with messages of love, psychedelic daydreams, and mysticism for all to see. The ethos of a generation is captured here: the scenes, sound, smell, look, politics, spirit, and most of all, the love is expressed in this moment in time when people cared so deeply for one another and the future that they wore it on their sleeves. Carved wooden doors, chairs, handmade fanciful shoes, beads, leather, incredible jewelry, a playground, patched upholstery—everything was fair game for inventive self-expression, whether one was a skilled adept or a beginner with a dream. No craft or design collection should be without this book.

Native Funk & Flash Alexandra Jacopetti, 1974

Mystical Stitches Christi Johnson, 2021-06-22 Explore personal transformation through the stitching of dreams and intentions. Anything but ordinary, *Mystical Stitches* combines the beloved and accessible craft of embroidery with a spiritual element, introducing a rich treasury of 200 magical symbols you can use to set an intention and create personal icons to wear or embellish items in the home. Christi Johnson offers unique patterns inspired by botanicals, animals, numbers, the cosmos, earth elements, zodiac signs, and mythical beasts, for novice or well-practiced crafters to combine into talismans with personal meaning. Johnson's folk art style is vibrant and unintimidating and provides a framework for bringing spiritual elements into physical form.

Fray Julia Bryan-Wilson, 2021-02 In 1974, women in a feminist consciousness-raising group in Eugene, Oregon, formed a mock organization called the Ladies Sewing Circle and Terrorist Society. Emblazoning its logo onto t-shirts, the group wryly envisioned female collective textile making as a practice that could upend conventions, threaten state structures, and wreak political havoc. Elaborating on this example as a prehistory to the more recent phenomenon of “craftivism”—the politics and

social practices associated with handmaking—Fray explores textiles and their role at the forefront of debates about process, materiality, gender, and race in times of economic upheaval. Closely examining how amateurs and fine artists in the United States and Chile turned to sewing, braiding, knotting, and quilting amid the rise of global manufacturing, Julia Bryan-Wilson argues that textiles unravel the high/low divide and urges us to think flexibly about what the politics of textiles might be. Her case studies from the 1970s through the 1990s—including the improvised costumes of the theater troupe the Cockettes, the braided rag rugs of US artist Harmony Hammond, the thread-based sculptures of Chilean artist Cecilia Vicuña, the small hand-sewn tapestries depicting Pinochet's torture, and the NAMES Project AIDS Memorial Quilt—are often taken as evidence of the inherently progressive nature of handcrafted textiles. Fray, however, shows that such methods are recruited to often ambivalent ends, leaving textiles very much “in the fray” of debates about feminized labor, protest cultures, and queer identities; the malleability of cloth and fiber means that textiles can be activated, or stretched, in many ideological directions. The first contemporary art history book to discuss both fine art and amateur registers of handmaking at such an expansive scale, Fray unveils crucial insights into how textiles inhabit the broad space between artistic and political poles—high and low, untrained and highly skilled, conformist and disobedient, craft and art.

West of Center Elissa Auther, Adam Lerner, 2012 Recovering the art and lifestyle of the counterculture in the American West in the 1960s and '70s

The Kimono Inspiration Textile Museum (Washington, D.C.), 1996 The book explores the use and meaning of the kimono in America and traces the transformation of the garment from its ethnic origins, through its many appearances in fine art, costume, and high fashion, to its role in the contemporary Art-to-Wear Movement. It explores the American use of the kimono as a garment, as a symbol, and as an art form.

Daughters of Aquarius Gretchen Lemke-Santangelo, 2009 The first book to focus specifically on the women of the counterculture movement reveals how hippie women launched a subtle rebellion by rejecting their mothers' suburban domesticity in favor of their grandmothers' agrarian ideals, which assigned greater value to women's contributions.
