**No Surrender!** George Alfred Henty, 1900

No Right Turn David T. Courtwright, 2011-02-01 Few question the "right turn" America took after 1966, when liberal political power began to wane. But if they did, No Right Turn suggests, they might discover that all was not really "right" with the conservative golden age. A provocative overview of a half century of American politics, the book takes a hard look at the counterrevolutionary dreams of liberalism's enemies—to overturn people's reliance on expanding government, reverse the moral and sexual revolutions, and win the Culture War—and finds them largely unfulfilled. David Courtwright deftly profiles celebrated and controversial figures, from Clare Boothe Luce, Barry Goldwater, and the Kennedy brothers to Jerry Falwell, David Stockman, and Lee Atwater. He shows us Richard Nixon's keen talent for turning popular anxieties about morality and federal meddling to Republican advantage—and his inability to translate this advantage into reactionary policies. Corporate interests, boomer lifestyles, and the media weighed heavily against Nixon and his successors, who placated their base with high-profile attacks on crime, drugs, and welfare dependency. Meanwhile, religious conservatives floundered on abortion and school prayer, obscenity, gay rights, and legalized vices like gambling, and fiscal conservatives watched in dismay as the bills mounted. We see how President Reagan's mélange of big government, strong defense, lower taxes, higher deficits, mass imprisonment, and patriotic symbolism proved an illusory form of conservatism. Ultimately, conservatives themselves rebelled against George W. Bush's profligate brand of Reaganism. Courtwright's account is both surprising and compelling, a bracing argument against some of our most cherished clichés about recent American history.

American and Chinese-Language Cinemas Lisa Funnell, Man-Fung Yip, 2014-09-19 Critics frequently describe the influence of America, through Hollywood and other cultural industries, as a form of cultural imperialism. This unidirectional model of interaction does not address, however, the counter-flows of Chinese-language films into the American film market or the influence of Chinese filmmakers, film stars, and aesthetics in Hollywood. The aim of this collection is to (re)consider the complex dynamics of transnational cultural flows between American and Chinese-language film industries. The goal is to bring a more historical perspective to the subject, focusing as much on the Hollywood influence on early Shanghai or postwar Hong Kong films as on the intensifying flows between American and Chinese-language cinemas in recent decades. Contributors emphasize the processes of appropriation and reception involved in transnational cultural practices, examining film production, distribution, and reception.

**The Hole In The Middle** Kate Hilton, 2013-08-06 I Don't Know How She Does It for the This Is 40 generation Sophie Whelan is the epitome of the modern superwoman. When she operates at peak performance, she can cajole balky employees, soothe her cranky children, troubleshoot career disasters, throw a dinner party for ten and draft an upbeat Christmas letter—all in the same day. But as Sophie's fortieth birthday looms, her seamless life reveals disturbing web-like fractures. Conflict with her boss, blossoming jealousy of her husband's femme fatale business partner and her feelings of hopeless inadequacy as a mother and daughter are cracking the edifice of her life. Rescue may be at hand when Lillian Parker, a wealthy widow who befriended Sophie during her university days, makes Sophie an irresistible offer. Why, then, does Sophie hesitate? The answer is the reappearance of Lillian's nephew, Will Shannon, the great unresolved love of Sophie's life. As she remembers the vivid drama of their college romance, Sophie confronts the choices she has made in life and in love and looks for the answer to a question that has always troubled her: What does she really want? *The Hole in the Middle* is a heartbreaking love story, a laugh-out-loud portrayal of the twin demands of work and family and a fresh take on the hot debate about having it all. It is not to be missed.

The author, a motion picture industry executive, fills this excellent book with detailed summaries of Vietnam films, from the obscure to the best known. Devine tells his tale chronologically. In addition to his detailed plot summaries, he offers brief analyses, focusing on how the various films relate to historical events at the time they were released. **The New Economy and the Modern South** Michael Dennis, 2009 Proponents of the New Economy argued that in order

for companies to fully exploit the new technology, they had to strip away the hierarchical arrangements of an earlier business model. Corporate bureaucracies had to be replaced by adaptability and innovation. Instead of peaceful coexistence with businesses in the same field, companies had to be aggressively competitive. Instead of attachment to old product lines, companies had to be prepared to change gears quickly.
