**Alan W. Watts**

*The Book* Alan Watts, 2011-09-28 A revelatory primer on what it means to be human and a mind-opening manual of initiation into the central mystery of existence, by “perhaps the foremost interpreter of Eastern disciplines for the contemporary West (Los Angeles Times). At the root of human conflict is our fundamental misunderstanding of who we are. The illusion that we are isolated beings, unconnected to the rest of the universe, has led us to view the “outside” world with hostility, and has fueled our misuse of technology and our violent and hostile subjugation of the natural world. To help us understand that the self is in fact the root and ground of the universe, Alan Watts provides us with a much-needed answer to the problem of personal identity, distilling and adapting the Hindu philosophy of Vedanta.

A Study of the Sources of Alan W. Watts' *The Book on the Taboo Against Knowing who You are* Lawrence J. Knapp, 1971

*The Cosmic Game* Stanislav Grof, 1998-01-01 *The Cosmic Game* discusses the broadest philosophical, metaphysical and spiritual insights gleaned in Grof's research concerning human nature and reality, addressing the most fundamental questions human beings have asked about the nature of existence since time immemorial. Insights from research into nonordinary states of consciousness portray existence as an astonishing play of the cosmic creative principle that transcends time, space, linear causality, and polarities of every kind and suggest an identity of the individual psyche in its furthest reaches with the universal creative principle and the totality of existence. This identity of the human being with the Divine is the ultimate secret that lies at the core of all great spiritual traditions.

*From Self to Self* Leo Hartong, 2005-09-18 A compilation of expressions, questions and answers that came about in response to Leo's highly praised first book *Awakening to the Dream*. Leo writes with characteristic insight and uses metaphor to illuminate the paradoxical and apparently confusing nature of non-dual reality. His original writing is reinforced by a vast knowledge of non-duality in other spiritual traditions and he weaves these together with his own direct path to present clear pointers to contemporary seekers. An appropriately chosen quotation taken from various sources appears at the end of each short chapter. Also included at the end of the book is the full text of the Hsin-hsin Ming by the third Chan

patriarch Seng-ts'an. "The words in this book repeatedly point to the essence which knows the reading as it takes place. Rather than an encouragement to follow a lengthy path, it is an invitation to step off the path. It does not point to 'your' awareness, but to Awareness itself in which the idea of 'you' appears. It does not point to 'your' beingness, but to the undeniable Beingness that appears as you."

Healing, Rebirth and the Work of Michael Eigen Ken Fuchsman, Keri S. Cohen, 2021-03-08 This important book features collected essays on the distinguished psychoanalyst Dr Michael Eigen, who is an influential innovator within and beyond psychoanalysis. Drawing on the ideas of Bion, Winnicott, Kabbalah, and artists, Eigen's work is noted for fusing spirituality with psychoanalysis and his extraordinary creativity. The book begins with Dr Eigen's new essay Rebirth: It's been around a long time. The other essays feature a rich array of subjects and reflections, with many clinical examples and applications to domains beyond psychotherapy and include such titles as Healing longing in the midst of damage: Eigen's psychoanalytic vision and Breakdown and recovery: Going Berserk and other rhythmic concerns. Dr Eigen is one of the most influential psychoanalysts of the current era and this collection of essays provides insightful discussion on his ideas. This celebration of Michael Eigen will fascinate any psychoanalyst interested in his work.

**Man, Woman, and God** Christopher Alan Anderson, 2012-09-13 This writing presents to man find a new conception and definition of God based on man and woman balance (procreative love). It includes four separate works: The Community of Man and Woman; The Eternal Marriage; I Carry the Cross, too: The Completion of the Message of Jesus Christ; and Man, Woman, and God. The new theology of creative balance presents us with a new Trinity. The new Trinity is comprised of God the Father and God the Mother, their interaction (love) together creating the holy (pure) child. It is balanced. We leave behind the old Trinity of God the Father, God the Son, and God the Holy Spirit. We leave it behind because it did not place male and female in the position of co-creator with their other half. Man, Woman, and God: Four Collected Works Author Bio: Christopher Alan Anderson (1950 - ) received the basis of his education from the University of Science and Philosophy, Swannanoa, Waynesboro, Virginia. He resides in the transcendental/romantic tradition, that vein of spiritual creativity of the philosopher and poet. His quest has been to define and express an eternal romantic reality from which a man and a woman could together stand in their difference and create a living universe of procreative love. Mr. Anderson began these writings in 1971. The first writings were published in 1985. On a personal note, when Mr. Anderson was asked to describe the writings and what he felt their message was he responded, Spiritual procreation. Mankind has yet to distinguish the two sexes on the spiritual level. In this failure lies the root of our problems and why we cannot yet touch the eternal together. The message of man and woman balance brings each of us together in love with our eternal other half right now. keywords: Theology, Creative Balance, God, Trinity, Father And Mother, Holy Spirit, Procreative Love...
