The Invention of the Jewish People Shlomo Sand, 2010-06-14 The bestselling analysis of Jewish history, by a leading Israeli historian.

INVENTION OF THE JEWISH PEOPLE. SHLOMO. SAND, 2025

The Invention of the Land of Israel Shlomo Sand, 2012-11-20 This groundbreaking work deconstructs the age-old legends surrounding the 'Holy Land' of Israel—and the prejudices that continue to suffocate it. What is a homeland, and when does it become a national territory? Why have so many people been willing to die for them throughout the 20th century? What is the essence of the Promised Land? Following the acclaimed and controversial *Invention of the Jewish People*, Shlomo Sand examines the mysterious sacred land that has become the site of the longest running national struggle of the 20th century. Sand's account dissects the concept of 'historical right' and tracks the invention of the modern geopolitical concept of the 'Land of Israel' by 19th-century Evangelical Protestants and Jewish Zionists. This invention, he argues, not only facilitated the colonization of the Middle East and the establishment of the State of Israel; it is also what is threatening the existence of the Jewish state today.

How I Stopped Being a Jew Shlomo Sand, 2014-10-07 Shlomo Sand was born in 1946, in a displaced person's camp in Austria, to Jewish parents; the family later migrated to Palestine. As a young man, Sand came to question his Jewish identity, even that of a secular Jew. With this meditative and thoughtful mixture of essay and personal recollection, he articulates the problems at the center of modern Jewish identity. *How I Stopped Being a Jew* discusses the negative effects of the Israeli exploitation of the chosen people myth and its holocaust industry. Sand criticizes the fact that, in the current context, what Jewish means is, above all, not being Arab and reflects on the possibility of a secular, non-exclusive Israeli identity, beyond the legends of Zionism.

Zionism: The Real Enemy of the Jews, Volume 1 Alan Hart, 2010-08-13 *The False Messiah* is Volume I of a monumental history of the Israel-Palestine conflict, *Zionism: The Real Enemy of the Jews*, by a seasoned reporter with a vast first-hand knowledge of the Middle East. It is the first book to put the struggle for Palestine into its global context—to show how all the pieces of a complicated jigsaw puzzle fit together. It's also the first ever account of events to address the motives, needs, and dilemmas faced by all sides: diaspora Jews' real fear of Holocaust II; the Palestinian right to justice and self-determination;

the legitimate anger of the Arab masses at American support for Zionism right or wrong; and the inevitable corruption and repression of the regimes of the existing Arab Order who, fearing harsher Israeli assaults, have tried to contain them. From the beginning, the conflict pitted a well-financed First World nation of European colonialists who held the upper hand in terms of military hardware, air power and capability against an essentially feudal Third World Arab nation. The False Messiah sheds new light on: · The early Zionist relations with UK, German and US governments. · Zionism's contribution to bringing the US into World War I. · Zionism's role (and that of domestic non-Zionist Jews) in the diversion of Jewish refugees, first from Russia, then from Germany, to Palestine rather than to the US, UK or elsewhere, sabotaging, inter alia, Truman's efforts to provide visas to the US for 100,000 Jewish immigrants. · Truman's belabored decision-making processes leading to his recognition of the State of Israel, against the advice of 3 US Secretaries of State and his Secretary of Defense who all asserted the US' best interest was alignment with the Arab world. · The expansion of the Israeli state beyond its UN-recognized borders immediately upon its creation, and how it was made possible by Israel's military superiority even from its pre-creation. At no point throughout its history, Hart contends, has Israel ever faced an "existential threat" to its existence. As a former BBC Panorama and ITN Middle East correspondent, Alan Hart knew and interviewed most of the main players in the Israel-Palestine conflict (Golda Meir, Moshe Dayan, Shimon Peres, Yasser Arafat and other PLO leaders, George Habash, Nasser, King Hussein of Jordan, King Feisal of Saudi Arabia, and many others). He also exhibits a wealth of research into a full spectrum of viewpoints.

English Origins, Jewish Discourse, and the Nineteenth-century British Novel Heidi Kaufman, 2009 Examines the embedding of Jewish history and culture in depictions of English racial and national identity in nineteenth-century novels.

The Promise of Israel Daniel Gordis, 2012-07-17 Why Israel's greatest weakness is its greatest strength, and what its supporters and enemies can learn from its success Israel's critics in the West insist that no country founded on a single religion or culture can stay democratic and prosperous?but they're wrong. In *The Promise of Israel*, Daniel Gordis points out that Israel has defied that conventional wisdom. It has provided its citizens infinitely greater liberty and prosperity than anyone expected, faring far better than any other young nation. Israel's magic is a unique blend of democracy and tradition, of unabashed particularism coupled to intellectual and cultural openness. Given Israel's success, it would make sense for many other countries, from Rwanda to Afghanistan and even Iran, to look at how they've done it. In fact, rather than seeking to destroy Israel, the Palestinians would serve their own best interests by trying to copy it. Takes many of the most compelling arguments against Israel and turns them completely on their heads, undoing liberals with a more liberal argument and the religious with a more devout argument Puts forth an idea that is as convincing as it is shocking?that Iran's clerics and the Taliban should want to be more like Israel Written by Daniel Gordis, the author of the National Jewish Book Award winner, *Saving Israel* Daniel Gordis has been called one of Israel's most thoughtful observers (Alan Dershowitz) and a

writer whose reflections are consistently as intellectually impressive as they are moving (Cynthia Ozick) Certain to generate controversy and debate, *The Promise of Israel* is one of the most interesting and original books about Israel in years.

White Christianity Is Fraudulent Dr. Robinson A. Milwood, 2015-06-10 The heinous transatlantic chattel slave trade in African bodies was executed by a presidium syndication of royals, Quakers, churches, theologians, philosophers of religion, historians, intellectuals, anthropologists, scientists, European invented Jews (*The Jews and the Expansion of Europe to the West. 1450-1800*, edited by Paolo Bernardini and Norman Fiering) The Society for the Propagation of the Gospel in Foreign parts and Intellectuals. The slave trade was a nefarious system and institution based on cultural racism, avariciousness, inveterate mendacities, economic rapacity for empire building and political hegemony of Britain in Europe and the world. There was no sodality or encomium in the slave trade. Rather, it was the most egregious and unparalleled holocaust-genocide, racial- war in mans chronological history. The syndication of peoples and institutions used the apparition of an invented Caucasian Jesus Christ as Redeemer of the world without any historical evidence to brutally enslaved and murdered Africans that they had kidnapped into forceful displacement, deracination, morcellation and enslavement. Africans were deracinated (forcefully displaced) (brutally uprooted without any regard for the community, customs, traditions, religious customs- practices) with morcellation that truncated gregarious African families, societies institutions, kingdoms and communities. Reparations were made by Britain at the end of the slave trade to the planters and nothing to the African slaves. (20,000.000). (Nicholas Draper-*The Price of Emancipation Slave-ownership, Compensation and British Society at the End of Slavery*). African slaves were left in a state of penury, facing systems and institutions of racism, inverse-development, abandonment and destitution. The legacy and impact of the profligate slave trade on Africa is pandemic in Africa today with the psychological and theological impact on Africans confidence, self-determination, economic empowerment, heuristic critical theological liberation and technological advancement are at a point of paralysis throughout Africa and it is horrendous to experience it in the twenty first century.

Western European and British Barbarity, Savagery, and Brutality in the Transatlantic Chattel Slave Trade Dr. Robinson A. Milwood PhD, 2013-06-14 Man makes history, in a fashion, and history also makes man. As with other men, the historical experience of the African over the centuries has had a profound effect on his self-image as well as on his perception of the external world. Perhaps more than other men, the African in pre-colonial times developed a strong historical tradition, and his perception of himself and his world came to depend very much on his view of the past. European colonialism, brief as it was, produced a traumatic effect largely because it tried to impose on the African a gross distortion of his historical tradition.

Twilight of History Shlomo Sand,2017-04-04 On its publication in 2009, Shlomo Sand's book *The Invention of the Jewish People* met with a storm of controversy. His demystifying approach to nationalist and Zionist historiography provoked much criticism from other professional historians, as well as praise. The furore gave him a privileged position to consider his academic discipline, which he reflects on here in *Twilight of History*. Drawing on four decades in the field, Sand takes a wider view and interrogates the study of history, whose origin lay in the need for a national ideology. Over the last few decades, traditional history has begun to fragment, yet only to give rise to a new role for historians as priests of official memory. Working in Israel has sharpened Sand's perspective, since the role of history as national myth is particularly salient in a country where the Bible is treated as a source of historical fact. He asks such questions as: Is every historical narrative ideologically marked? Do political requirements and state power weigh down inordinately on historical research and teaching? And, in such conditions, can there be a morally neutral and scientific truth? Despite his trenchant criticism of academic history, Sand would still like to believe that the past can be understood without myth, and finds reasons for hope in the work of Max Weber and Georges Sorel.

Judaism and the Origins of Christianity David Flusser,1988 For more than three decades, Professor David Flusser of the Hebrew University in Jerusalem has pioneered new understandings of the Jewish background of early Christianity. Many have been fascinated by his unique monograph on Jesus, translated into several languages. Most of his scholarly articles in English, including some new contributions as well as many published in not easily accessible journals, have been collected in this one volume. A must for New Testament scholars, and students of early Judaism, it will also be welcomed by the many lay persons for whom Professor Flusser has provided illumination on the origins of Christian faith.
