**A Bibliography of Modern Arthuriana (1500-2000)** Ann F. Howey,Stephen Ray Reimer,2006 Annotated bibliography of the Arthurian legend in modern English-language fiction, not only in literary texts, but in television, music, and art.The legend of Arthur has been a source of fascination for writers and artists in English since the fifteenth century, when Thomas Malory drew together for the first time in English a variety of Arthurian stories from a number of sources to form the Morte Darthur. It increased in popularity during the Victorian era, when after Tennyson's treatment of the legend, not only authors and dramatists, but painters, musicians, and film-makers found a source of inspiration in the Arthurian material. This interdisciplinary, annotated bibliography lists the Arthurian legend in modern English-language fiction, from 1500 to 2000, including literary texts, film, television, music, visual art, and games. It will prove an invaluable source of reference for students of literary and visual arts, general readers, collectors, librarians, and cultural historians--indeed, by anyone interested in the history of the ways in which Camelot has figured in post-medieval English-speaking cultures. ANN F. HOWEY is Assistant Professor at Brock University, Canada; STEPHEN R. REIMER is Associate Professor at the University of Alberta, Canada

*Encyclopedia of Cryptozoology* Michael Newton,2016-10-05 On every continent and in every nation, animals unrecognized by modern science are reported on a daily basis. People passionately pursue these creatures--the name given to their field of study is cryptozoology. Coined in the 1950s, the term literally means the science of hidden animals. When the International Society of Cryptozoology (ISC) was formed in 1982, the founders declared that the branch of science is also concerned with the possible existence of known animals in areas where they are not supposed to occur (either now or in the past) as well as the unknown persistence of presumed extinct animals to the present time or to the recent past...what makes an animal of interest to cryptology is that it is unexpected. This reference work presents a flesh and blood view of cryptozoology. Here, 2,744 entries are listed, the majority of which each describe one specific creature or type of creature.

Other entries cover 742 places where unnamed cryptids are said to appear; profiles of 77 groups and 112 individuals who have contributed to the field; descriptions of objects and events important to the subject; and essays on cryptotourism and hoaxes, for example. Appendices offer a timeline of zoological discoveries, annotated lists of movies and television series with cryptozoological themes, a list of crypto-fiction titles and a list of Internet websites devoted to cryptozoology.

*The Celtic Breeze* Heather McNeil,2001-10-15 Delve into a world of kelpies, mermaids, selkies, ghosts, warlords, and fairies. This collection gives you Celtic tales, previously unrecorded or only found in obscure compilations. Mostly collected by the author on her ancestral home of the Isle of Barra in the Hebrides, these lesser-known tales from Scotland, Ireland, and Wales are supported by a brief history of the Celts, a glossary of the Gaelic integrated in the stories, an appendix of superstitions about fairy protection, and bibliographies that reflect the author's extensive research. Seventeen ballads collected almost one hundred years ago and excerpts from the author's journal of travels in Scotland make this book a unique and valuable resource for anyone who tells stories.
