The Guitar in American Banjo, Mandolin and Guitar Periodicals, 1882-1933 Jeffrey Noonan, 2009-01-01 In the early years of the twentieth century, O.G. Sonneck, the father of American musicology, decried the state of musical bibliography in this country, encouraging musical scholars to dedicate themselves to preserving, cataloging, and promoting the use of America's musical ephemera, especially newspapers and magazines. Despite his century-old calls, much work in this area remains undone. This volume responds to Sonneck's call for action by creating a bibliography of periodicals that document the use and place of the guitar in a little-known segment of America's musical culture in the final decades of the nineteenth century through the first third of the twentieth century. Between 1880 and the mid-1930s, a unique musical movement grew and flourished in this country. Focused on the promotion of so-called "plectral instruments," this movement promoted the banjo, the mandolin, and the guitar as cultivated instruments on a par with the classical violin or piano. The Banjo, Mandolin and Guitar (BMG) community consisted of instrument manufacturers, music publishers, professional teachers and composers, and amateur students. While some professional soloists achieved national recognition, the performing focus of the movement was ensemble work, with bands of banjos, mandolins and guitars ranging from quartets and quintets (modeled on the violin-family string ensembles) to festival orchestras of up to 400 players (mimicking the late romantic symphony orchestra). The repertoire of most ensembles included popular dances of the day as well as light classics, but more ambitious ensembles tackled Mozart, Haydn, Beethoven, and even Wagner. Although this movement straddled both popular and cultivated (classical) music-making, its elitist pretensions contributed to its demise in the wake of the explosive growth of modern American popular music linked to Tin Pan Alley or the blues. While the movement's heyday spanned the early years of audio recording, only a handful of active BMG performers made recordings. As a result few musical scholars are aware of the BMG movement and its contribution to American musical culture, especially its influence on the physical and technical development of America's instrument, the guitar. The movement did, however, leave extensive traces of itself in periodicals produced by manufacturing and publishing concerns. Beginning in 1882, the leadership of the BMG movement fell to the publishers, editors, and contributors from these promotional journals, which were dedicated to the "interests of Banjoists, Mandolinists and Guitarists." While advertising dominated the pages of most of these periodicals, nearly all offered product and publication reviews, historical surveys, biographical sketches, and technical advice. In addition, the BMG magazines not

only documented performances with reviews and program lists but also contained musical scores for solo instruments and plucked-string ensembles. These magazines are the primary sources which document this vibrant expression of America's musical life. While one or two of the BMG magazines have been known by guitar scholars, most have not seen the light of day in decades. Similarly, a few of the leading guitar figures of the BMG movement—principally William Foden, Vahdah Olcott-Bickford, and George C. Krick—have been acknowledged and documented but many more remain completely anonymous. This bibliography offers access to the periodicals which help document the story of the guitar in America's progressive era—a story of tradition and transformation—as lived and told by the guitar's players, teachers, manufacturers, composers, and fans in the BMG movement. The bibliography consists of two large sections. The first contains a chronological list of articles, news items, advertisements, illustrations, and photographs as well as a list of musical works for guitar published in the BMG magazines. The second section of the bibliography is a series of indices which link names and subjects to the lists. With nearly 5500 entries and over 100 pages of indices, this bibliography offers researchers access to a musical world that has been locked away on library shelves for the past century.

Guitarist's Treasury of Classic Themes David Coe, 2010-10-07 This collection presents 99 popular classical themes arranged as single-note melodies for guitar with chord accompaniment. Each piece is presented in standard notation and tablature followed by chord diagrams and a suggested strumming pattern. This book will serve as an introduction to the classics for the beginning guitarist as well as a good source for the more advanced player who needs to supplement his or her repertoire with fake book style arrangements of well-known classical themes. The songs range from easy to quite challenging, and represent a wide variety of styles.

Martin Guitar Masterpieces Dick Boak, 2003 A fascinating look at more than 100 of the Martin Guitar Company's custom guitars, created for the world's most famous musicians, including Sting, Eric Clapton, and Elvis—along with the inside stories behind each design. From the infamous 'Elvi' guitar owned by Elvis Presley (his original D-18 missing the 's' from his name) to customized instruments belonging to Bob Dylan, Willie Nelson, Joan Baez, Sting, and Eric Clapton, the Martin Guitar company has made a guitar for nearly every notable musician who's ever held a six-string. Now, MARTIN GUITAR MASTERPIECES revisits more than 100 of the company's most desirable guitars, ranging from those belonging to Stephen Stills, David Crosby, Paul Simon, and Johnny Cash to guitars owned by newer artists like Beck, Babyface, and Jonny Lang. Dick Boak, head of Artist Relations and Publicity at C. F. Martin, acts as the artist liaison in these collaborations and now, for the first time, enthusiastically outlines his experiences. Readers also get a sneak preview of Martin's millionth instrument, due in 2004.
