Foreign policy annual Mahendra Gaur, 2007 (In Fourteen Volumes) Foreign Policy Annual is the first publication of its type that provides a reliable chronicle of events in contemporary Indian Foreign Policy on a day-to-day basis. It covers India's participation in the deliberations of international organizations, and relations with her neighbours, regional and super powers; also contains chronicle of world events in which India reacted in defence of its national interests. The events deal with India's political, economic and strategic relations as well as unofficial opinion on world affairs. During all these eventful years as an independent nation, there has been phenomenal growth in our foreign contacts so much so that diplomatic relations have been established with almost all the countries of the world. Besides as a member of hundreds of international organizations, India has to participate in their periodic deliberations. The VIP visits and those numerous other groups have become common occurrences of the day. Hardly any country has the opportunity to extend hospitality in one single year to so

many distinguished visits which are not merely acts of diplomatic courtesy. Then due to the growth of the political consciousness among our people, interest in world developments has assumed a new dimension. Our countrymen have grown critical of our government's international activities than of its doings on the home front. The vigilant press kept watchful eye on every initiative that govt. took or the way it reacted to different issues that arose from time to time. All this underlines the very fact that in view of India's growing importance in world politics, its increasing activities in the international sphere need to be viewed and chronicled periodically. The publication as such was introduced first time in 2001 and it has been continuing pleased at its lofty and lasting utility proven to the Indian as well as people from the foreign lands. Published in two volumes every year, saliently featured, it contains the documents in the first volume while the events with all accuracy are chronicled in the second one. The events have taken place either on our own land or on the foreign. And the documents, really rare to the provision to the commonly reach of the people or organizations, will in actual sense be proved invaluable, at ease, and these comprise of various kinds of documents-such as, addresses, international reports, bilateral or multilateral treaties, conventions, international agreements etc. proving to be highly beneficial to the people having the characters, of economic, politic, sociatic, health and hygiene, environment etc. This publication will certainly prove to be a storehouse for knowledge, information and reference in many measures. The people will find it an easy access to the things which earlier either swam in air or rested in the books of the higher offices, meaning thereby beyond the complete reach.

The Oxford Companion to Pakistani History Ayesha Jalal, 2012 Insofar as history is constantly in the process of being reconfigured in the light of new processes and challenges, any Companion to the history of Pakistan cannot but be an ongoing, if not obviously an open-ended enterprise. The historiography of Pakistan has been missing such a comprehensive survey of not only sixty-five years of the country's existence but also of the movement preceding its creation. Pakistan possesses a rich and varied history, considering that it was carved out of the Indian subcontinent, one of the world's oldest civilizations -- hence the prevailing geographical, religious, ethnic, linguistic, and cultural diversities and complexities. 'The Oxford Companion to Pakistani History' has attempted to provide the reader with information on as colourful a spectrum of subjects as possible. This is the first time that all facets of Pakistani history have been covered in one encyclopaedic volume. A wide range of topics have been discussed: from the pre-Partition colonial period to post-Partition movements (religious, political, cultural, etc.), peoples and places, culture, architecture, politics, military, economics, linguistics, archaeology, judiciary, art, theatre, education, foreign relations, government, media, philanthropy, civil society and several others. The Companion differs from other encyclopaedias in the sense that all entries have been written in an analytical, unbiased style by well-known experts in the related field of the topic, paying the keenest attention to factual details. A system of cross-referencing is available through insertion of asterisks within the text linking the entry to another headword that may appear while reading a particular entry. Maps of Pakistan and the Indian subcontinent, along with a Subject Index, are provided at the end of the volume. All these steps have been taken to render the Companion as user-friendly as possible--Publisher's description, page [4] of dust jacket.

Book Review Digest ,2008**

The Kashmir Question Sumit Ganguly, 2004-03-01 India, which had been created as a civic polity, initially sought to hold on to this Muslim-majority state to demonstrate its secular credentials. Pakistan, in turn, had laid claim to Kashmir because it had been created as the homeland for the Muslims of South Asia. After the break-up of Pakistan in 1971 the Pakistani irredentist claim to Kashmir lost substantial ground. If Pakistan could not cohere on the basis of religion alone it had few moral claims on its co-religionists in Kashmir. Similarly, in the 1980s, as the practice of Indian secularism was eroded, India's claim to Kashmir on the grounds of secularism largely came apart. Today their respective claims to Kashmir are mostly on the basis of statecraft. This title provides a comprehensive assessment of a number of different facets of the on-going dispute over Kashmir between India and Pakistan. Among other matters, it examines the respective endgames of both states, the evolution of American policy toward the dispute, the dangers of nuclear escalation in the region and the state of the insurgency in the Indian-controlled portion of the disputed state.
