Great Webinars Cynthia Clay,2012-02-07 Great Webinars Great Webinars provides a profoundly practical and easy-to-follow template for creating and facilitating stimulating webinars that engage learners as active participants, while creating the kind of energetic 'buzz' that is the hallmark of successful learning experiences. The book is sure to benefit both seasoned instructors and subject matter experts who are new to teaching. I sure wish this book had existed when I began conducting webinars back in the mid 1990s. Carol Willett, former chief learning officer, US Government Accountability Office Not only

has Cindy Clay put the adult learning principles into practice, she has created an approach to the design, development and delivery of a virtual workshop that is potentially more engaging than being face-to-face. Great Webinars captures all the essentials to creating a great on-line learning experience. . . . Thanks to the lessons learned in this book, we can now move full speed ahead with our e-learning strategy and I can now feel confident we will be teaching versus simply reaching our customers. Karen Pacent, director, Learning and Leadership Development, United States Tennis Association Great Webinars is written in a smart, authentic, practical, sassy, and easy-to-follow way. It reminds us to bring our participants' experience front and center if we want them to be enthralled, and the learning environment to be enriched. Cynthia Clay lets her own students tell us what is wrong with the current use of webinars and then proceeds to teach us how to build 'em better. It's like having her sit beside you saying, 'Don't worry . . . I'll get you there.' And she does. Improving Maternity Services Denis Walsh, Sheila Kitzinger, Norman Ellis, 2017-11-22 This title includes Foreword by Sheila Kitzinger, Writer, Researcher, Activist and Honorary Professor, Wolfson School of Health Sciences, Thames Valley University. Birth centres are suitable for every woman whose birth is straightforward, which accounts for around 75 per cent of all women. This inspirational guide shows how small scale maternity provision has a profound clinical and organisational advantage over large scale hospital provision, including saving of time and money by reducing intervention rates. It presents the thoughts and feelings of midwives and patients and how both enjoy the humane and compassionate care of the birth centre ethos. The book is invaluable for midwives, obstetricians, doulas, maternity care assistants and maternity service planners and managers. It also provides enlightening information for general practitioners and other health and social care professionals, maternity service users groups and academics with an interest in midwifery and health services. What birth centres do best is simply providing humane childbirth care. There are no high tech gadgetry, doctors or dramatic stories of childbirth rescues that make it into the media. Yet 'miracles' happen inside their walls every day as women have their babies after normal labours and births. Until now, there have been very few books detailing what happens in birth centres so that women and childbirth professionals can be introduced to an alternative beyond the large hospital model. This book provides a window in on the birth centre model and there are some exciting things to find there about childbirth care in the 21st century. - Denis Walsh, in the Preface. Denis Walsh has one of the most incisive, analytical and brilliant minds in nursing and midwifery research today. He demonstrates the difference between a quality environment for birth where a woman can create her own 'nest', and a technocratic, bureaucratically controlled, highly medicalised and risk-oriented birth culture dominated by the clock, which is most women's experience today. - Sheila Kitzinger, in the Foreword.
