Living a Feminist Life Sara Ahmed,2016-12-22 In *Living a Feminist Life* Sara Ahmed shows how feminist theory is generated from everyday life and the ordinary experiences of being a feminist at home and at work. Building on legacies of feminist of color scholarship in particular, Ahmed offers a poetic and personal meditation on how feminists become estranged from worlds they critique—often by naming and calling attention to problems—and how feminists learn about worlds from their efforts to transform them. Ahmed also provides her most sustained commentary on the figure of the feminist killjoy introduced in her earlier work while showing how feminists create inventive solutions—such as forming support systems—to survive the shattering experiences of facing the walls of racism and sexism. The killjoy survival kit and killjoy manifesto, with which the book concludes, supply practical tools for how to live a feminist life, thereby strengthening the ties between the inventive creation of feminist theory and living a life that sustains it.

Critique and Praxis Bernard E. Harcourt,2020-08-11 Critical philosophy has always challenged the division between theory and practice. At its best, it aims to turn contemplation into emancipation, seeking to transform society in pursuit of equality, autonomy, and human flourishing. Yet today's critical theory often seems to engage only in critique. These times of crisis demand more. Bernard E. Harcourt challenges us to move beyond decades of philosophical detours and to harness critical thought to the need for action. In a time of increasing awareness of economic and social inequality, Harcourt calls on us to make society more equal and just. Only critical theory can guide us toward a more self-reflexive pursuit of justice. Charting a vision for political action and social transformation, Harcourt argues that instead of posing the question, "What is to be done?" we must now turn it back onto ourselves and ask, and answer, "What more am I to do?" *Critique and Praxis* advocates for a new path forward that constantly challenges each and every one of us to ask what more we can do to realize a society based on equality and justice. Joining his decades of activism, social-justice litigation, and political engagement with his years of critical theory and philosophical work, Harcourt has written a magnum opus.

Feminism in Practice Karen A. Foss,Sonja K. Foss,Alena Amato Ruggerio,2021-09-23 *Feminism in Practice* uses feminism as a blueprint for exploring change strategies. It features twenty contemporary feminists from diverse arenas, including activists, comedians, musicians, politicians, poets, and showrunners. The women come to life through line

drawings, brief biographies, extensive quotations, their definitions of feminism, and the change strategies they employ. Questions for reflection encourage readers to think through their own relationship to feminism and change. Chapter 1 defines feminism, raising issues with the typical definition of feminism as the effort to achieve equality between women and men. It concludes with a description of over twenty types of feminism. Chapter 2 describes the triggering events, happening places, and key ideas of the four waves of feminism. The opening chapters provide a comprehensive understanding of the diversity and complexity of feminist movement. The book is organized around five primary objectives that animate contemporary change efforts—proclaiming identity, naming a problem, enriching a system, changing a system, and creating an alternative system. Each objective is developed through theoretical assumptions and twelve change strategies that show it at work in feminist movement. *Feminism in Practice* also serves as a practical handbook that readers can use to experiment with the strategies and expand their toolkits for creating change in their lives and worlds. The authors are uniquely qualified to explore issues of feminism and change. Karen Foss and Sonja Foss are second wave feminists who have written extensively on alternative change strategies, feminist communication, and feminist theory. Alena Ruggerio brings to the project the standpoint of a third wave feminist at home in pop culture. Her scholarship lies at the intersection of rhetoric, feminism, and religious studies. To learn more about *Feminism in Practice*, listen to the authors' October 2021 interview on The Jefferson Exchange.

Contemplative Democracy Shannon Lee Mariotti, 2025 In *Contemplative Democracy*, Shannon L. Mariotti explores how contemplative practices represent a form of world-building that is valuable for meaningful democracy and an overlooked form of ordinary political theory. Reimagining the work of political theory, employing feminist approaches, and with a focus on educational spaces and democratic modes of pedagogy, Mariotti examines contemplative practices as spaces where ordinary people do the work of democracy, creating new political imaginaries, finding new selves, and founding new states of being. Further, this book reveals how the larger body politic may be reshaped by the everyday work people do in their own bodies.

Buddhism and Whiteness Emily McRae, George Yancy, 2019-05-13 The motivation behind this important volume is to weave together two distinct, but we think complementary, traditions – the philosophical engagement with race/whiteness and Buddhist philosophy – in order to explore the ways in which these traditions can inform, correct, and improve each other. This exciting and critically informed volume will be the first of its kind to bring together essays that explicitly connect these two traditions and will mark a major step both in understanding race and whiteness (with the help of Buddhist philosophy) and in understanding Buddhist philosophy (with the help of philosophy of race and theorizations of whiteness). We expand upon a small, but growing, body of work that applies Buddhist philosophical analyses to whiteness and racial injustice in contemporary U.S. culture. Buddhist philosophy has much to contribute to furthering our understanding of whiteness and

racial identity, the mechanisms that create and maintain white supremacy, and the possibility of dismantling white supremacy. We are interested both in the possible insights that Buddhist metaphysical, epistemological, and ethical analyses can bring to understanding race and whiteness, as well as the potential limitations of such Buddhist-inspired approaches. In their chapters, contributors draw on Buddhist philosophical and contemplative traditions to offer fresh, insightful, and powerful perspectives on issues regarding racial identity and whiteness, including such themes as cultural appropriation, mechanisms of racial injustice and racial justice, phenomenology of racial oppression, epistemologies of racial ignorance, liberatory practices with regard to racism, Womanism, and the intersections of gender-based, raced-based, and sexuality-based oppressions. Authors make use of both contemporary and ancient Buddhist philosophical and contemplative traditions. These include various Asian traditions, including Theravada, Mahayana, Tantra, and Zen, as well as comparatively new American Buddhist traditions.

Acts of Transgression Catherine Boule, 2019-02-01 Fifteen writers explore the experimental, interdisciplinary and radically transgressive field of contemporary live art in South Africa, focusing on a wide range of perspectives, personalities and theoretical concerns Contemporary South African society is chronologically 'post' apartheid, but it continues to grapple with material redress, land redistribution and systemic racism. Acts of Transgression represents the complexity of this moment in the rich potential of a performative art form that transcends disciplinary boundaries and aesthetic conventions. The contributors, who are all significantly involved in the discipline of performance art, probe its intersection with crisis and socio-political turbulence, shifting notions of identity and belonging, embodied trauma and loss. Narratives of the past and visions for the future are interrogated through memory and the archive, thus destabilising entrenched colonial systems. Collectively analysing the work of more than 25 contemporary South African artists, including Athi-Patra Ruga, Mohau Modisakeng, Steven Cohen, Dean Hutton, Mikhael Subotzsky, Tracey Rose and Donna Kukama, among others, the analysis is accompanied by a visual record of more than 50 photographs. For those working in the fields of theatre, performance studies and art, this is a must-have collection of critical essays on a burgeoning and exciting field of contemporary South African research.

The Feminist Killjoy Handbook Sara Ahmed, 2023-10-03 A renowned feminist thinker argues we need to get in the way of happiness, our own and other people's, to build a more just world Do you refuse to laugh at offensive jokes? Have you ever been accused of ruining dinner by pointing out your companion's sexist comment? Are you often told to stop being so "woke"? If so, you might be a feminist killjoy—and this handbook is for you. In this book, feminist theorist Sara Ahmed shows how killing joy can be a radical world-making project. Presenting sharp analysis of literature, film, and influential feminist works, and drawing on her own experiences as a queer feminist scholar-activist of color, Ahmed reveals the invaluable lessons of the feminist killjoy, from the importance of asking questions to the power of the eye roll. The Feminist Killjoy

Handbook offers an outstretched hand to feminist killjoys everywhere and an essential intellectual guide to the transformative power of getting in the way.

Design Issues, 2019 The first American academic journal to examine design history, theory, and criticism, *Design Issues* provokes inquiry into the cultural and intellectual issues surrounding design. Regular features include theoretical and critical articles by professional and scholarly contributors, extensive book reviews, illustrations, and a section for reader response. Special issues concentrate on particular themes, such as artificial intelligence, product seminars, design in Asia, and design education.

Complaint! Sara Ahmed, 2021-08-09 In *Complaint!* Sara Ahmed examines what we can learn about power from those who complain about abuses of power. Drawing on oral and written testimonies from academics and students who have made complaints about harassment, bullying, and unequal working conditions at universities, Ahmed explores the gap between what is supposed to happen when complaints are made and what actually happens. To make complaints within institutions is to learn how they work and for whom they work: complaint as feminist pedagogy. Ahmed explores how complaints are made behind closed doors and how doors are often closed on those who complain. To open these doors---to get complaints through, keep them going, or keep them alive---Ahmed emphasizes, requires forming new kinds of collectives. This book offers a systematic analysis of the methods used to stop complaints and a powerful and poetic meditation on what complaints can be used to do. Following a long lineage of Black feminist and feminist of color critiques of the university, Ahmed delivers a timely consideration of how institutional change becomes possible and why it is necessary.

Feminist Collections, 2017

The Promise of Happiness Sara Ahmed, 2010-04-06 This provocative cultural critique of the imperative to be happy draws on the work of feminist, black, and queer critics showing how happiness is used to justify social oppression.

What's the Use? Sara Ahmed, 2019-10-25 In *What's the Use?* Sara Ahmed continues the work she began in *The Promise of Happiness* and *Willful Subjects* by taking up a single word—in this case, use—and following it around. She shows how use became associated with life and strength in nineteenth-century biological and social thought and considers how utilitarianism offered a set of educational techniques for shaping individuals by directing them toward useful ends. Ahmed also explores how spaces become restricted to some uses and users, with specific reference to universities. She notes, however, the potential for queer use: how things can be used in ways that were not intended or by those for whom they were not intended. Ahmed posits queer use as a way of reanimating the project of diversity work as the ordinary and painstaking task of opening up institutions to those who have historically been excluded.

Willful Subjects Sara Ahmed, 2014-08-25 In *Willful Subjects* Sara Ahmed explores willfulness as a charge often made by

some against others. One history of will is a history of attempts to eliminate willfulness from the will. Delving into philosophical and literary texts, Ahmed examines the relation between will and willfulness, ill will and good will, and the particular will and general will. Her reflections shed light on how will is embedded in a political and cultural landscape, how it is embodied, and how will and willfulness are socially mediated. Attentive to the wayward, the wandering, and the deviant, Ahmed considers how willfulness is taken up by those who have received its charge. Grounded in feminist, queer, and antiracist politics, her sui generis analysis of the willful subject, the figure who wills wrongly or wills too much, suggests that willfulness might be required to recover from the attempt at its elimination.

On Being Included Sara Ahmed, 2012-03-28 Ahmed argues that a commitment to diversity is frequently substituted for a commitment to actual change. She traces the work that diversity does, examining how the term is used and the way it serves to make questions about racism seem impertinent. Her study is based in universities and her research is primarily in the UK and Australia, but the argument is equally valid in North America and beyond.

Cultural Politics of Emotion Sara Ahmed, 2014-06-11 Emotions work to define who we are as well as shape what we do and this is no more powerfully at play than in the world of politics. Ahmed considers how emotions keep us invested in relationships of power, and also shows how this use of emotion could be crucial to areas such as feminist and queer politics. Debates on international terrorism, asylum and migration, as well as reconciliation and reparation, are explored through topical case studies. In this book the difficult issues are confronted head on. The Cultural Politics of Emotion is in dialogue with recent literature on emotions within gender studies, cultural studies, sociology, psychology and philosophy. Throughout the book, Ahmed develops a theory of how emotions work, and the effects they have on our day-to-day lives. New for this edition A substantial 15,000-word Afterword on 'Emotions and Their Objects' which provides an original contribution to the burgeoning field of affect studies A revised Bibliography Updated throughout.
