Appunti per un naufragio Davide Enia, 2017-05-18T00:00:00+02:00 Un padre e un figlio guardano la storia svolgersi davanti a loro, nel mare di Lampedusa. «'Appunti per un naufragio' è un romanzo. Racconta ciò che sta accadendo nel Mediterraneo - le traversate, i soccorsi, gli approdi, le morti - parla del rapporto tra me e mio padre e affronta la malattia di mio zio, suo fratello».

Notes on a Shipwreck Davide Enia, 2019-02-19 A moving firsthand account of migrant landings on the island of Lampedusa that gives voice to refugees, locals, and volunteers while also exploring a deeply personal father-son relationship. On the island of Lampedusa, the southernmost part of Italy, between Africa and Europe, Davide Enia looks in the faces of those who arrive and those who wait, and tells the story of an individual and collective shipwreck. On one side, a multitude in motion, crossing entire nations and then the Mediterranean Sea under conditions beyond any imagination. On the other, a handful of men and women on the border of an era and a continent, trying to welcome the newcomers. In the middle is the author himself, telling of what actually happens at sea and on land, and the failure of words in the attempt to understand the present paradoxes. Enia reveals the emotional consequences of this touching and disconcerting reality, especially in his relationship with his father, a recently retired doctor who agrees to travel with him to Lampedusa. Witnessing together the public pain of those who land and those who save them from death, alongside the private pain of his uncle's illness, pushes them to reinvent their relationship, to forge a new and unprecedented dialogue that replaces the silences of the past.

Moral Seascapes Jonathan Stafford, Henning Trüper, Burkhardt Wolf, 2024-11-20 We are no strangers today to visual representations of human suffering at sea: the refugee crisis that continues to play out in the seascape between Europe and Africa (and not only there) yields an ever-growing archive of humanitarian tragedy. As both a visual backdrop and a lethal medium of unequal mobility, maritime space and landscape play a significant role in mediating the ethical demands of this crisis. Yet, there has been little exploration of the longer history of morality's role in our understanding of aesthetic representations of the sea. The diverse contributions in *Moral Seascapes* explore the various symbolic forms through which these shifting moral norms and values have been manifested, contributing to debates concerning the place of the sea in visual and literary cultures and the history of morality and emotion, as well as the emergence of modern subjectivity. Drawing on a range of interdisciplinary perspectives such as visual culture, experimental art history, literary studies, history

and philosophy, *Moral Seascapes* develops distinctive new insights into the relationship between the moral cultures of modernity and the image of the sea.

The Theater of Narration Juliet Guzzetta, 2021-08-15 Honorable Mention, Aldo and Jeanne Scaglione Publication Award for a Manuscript in Italian Literary Studies This book examines the theater of narration, an Italian performance genre and aesthetic that revisits historical events of national importance from local perspectives, drawing on the rich relationship between personal experiences and historical accounts. Incorporating original research from the private archives of leading narrators—artists who write and perform their work—Juliet Guzzetta argues that the practice teaches audiences how ordinary people aren't simply witnesses to history but participants in its creation. The theater of narration emerged in Italy during the labor and student protests, domestic terrorism, and social progress of the 1970s. Developing Dario Fo and Franca Rame's style of political theater, influenced by Jerzy Grotowski and Bertolt Brecht, and following in the freewheeling actor-author traditions of the *commedia dell'arte*, narrators created a new form of popular theater that grew in prominence in the 1990s and continues to gain recognition. Guzzetta traces the history of the theater of narration, contextualizing its origins—both political and intellectual—and centers the contributions of Teatro Settimo, a performance group overlooked in previous studies. She also examines the genre's experiments in television and media. The first full-length book in English on the subject, *The Theater of Narration* leverages close readings and a wealth of primary sources to examine the techniques used by narrators to remake history—a process that reveals the ways in which history itself is a theater of narration.

Re-embodiment and Rethinking Greek and Roman Drama in Modern Times, 2025-01-20 Rooted in a range of approaches to the reception of classical drama, the chapters in this book reflect, in one way or another, that Greek and Roman drama in performance is an ongoing dialogue between the culture(s) of the original and the target culture of its translation/adaptation/performance. The individual case studies highlight the various ways in which the tradition of Greek and Roman plays in performance has been extremely productive, but also the ways in which it has engaged, at times dangerously, in political and social discourse.

Theatre Responds to Social Trauma Ellen W. Kaplan, 2024-04-23 This book is a collection of chapters by playwrights, directors, devisers, scholars, and educators whose praxis involves representing, theorizing, and performing social trauma. Chapters explore how psychic catastrophes and ruptures are often embedded in social systems of oppression and forged in zones of conflict within and across national borders. Through multiple lenses and diverse approaches, the authors examine the connections between collective trauma, social identity, and personal struggle. We look at the generational transmission of trauma, socially induced pathologies, and societal re-inscriptions of trauma, from mass incarceration to war-induced psychoses, from gendered violence through racist practices. Collective trauma may shape, protect, and preserve group

identity, promoting a sense of cohesion and meaning, even as it shakes individuals through pain. Engaging with communities under significant stress through artistic practice offers a path towards reconstructing the meaning(s) of social trauma, making sense of the past, understanding the present, and re-visioning the future. The chapters combine theoretical and practical work, exploring the conceptual foundations and the artists' processes as they interrogate the intersections of personal grief and communal mourning, through drama, poetry, and embodied performance.
