*Routledge International Handbook of Food Studies* Ken Albala, 2013-05-07 Over the past decade there has been a remarkable flowering of interest in food and nutrition, both within the popular media and in academia. Scholars are increasingly using foodways, food systems and eating habits as a new unit of analysis within their own disciplines, and students are rushing into classes and formal degree programs focused on food. Introduced by the editor and including original articles by over thirty leading food scholars from around the world, the Routledge International Handbook of Food Studies offers students, scholars and all those interested in food-related research a one-stop, easy-to-use reference guide. Each article includes a brief history of food research within a discipline or on a particular topic, a discussion of research methodologies and ideological or theoretical positions, resources for research, including archives, grants and fellowship opportunities, as well as suggestions for further study. Each entry also explains the logistics of succeeding as a student and professional in food studies. This clear, direct Handbook will appeal to those hoping to start a career in academic food studies as well as those hoping to shift their research to a food-related project. Strongly interdisciplinary, this work will be of interest to students and scholars throughout the social sciences and humanities.

**Media and Male Identity** J. Macnamara, 2006-08-11 This book presents a landmark in-depth study of how mass media contributes to the making and remaking of male identity. It concludes that, unless addressed, the effects of negative discourse on the self-identity and self-esteem of men, are potentially devastating and that the longer-term and wider social implications will also be costly.

**Food, Masculinities, and Home** Michelle Szabo, Shelley Koch, 2017-05-18 Long-held associations between women, home, food, and cooking are beginning to unravel as, in a growing number of households, men are taking on food and cooking responsibilities. At the same time, men's public foodwork continues to gain attention in the media and popular culture. The first of its kind, *Food, Masculinities and Home* focuses specifically on food in relation to how homemaking practices shape masculine identities and transform meanings of 'home'. The international, multidisciplinary contributors explore questions including how food practices shape masculinity and notions of home, and vice versa; the extent to which this gender shift challenges existing gender hierarchies; and how masculinities are being reshaped by the growing presence of men in kitchens and food-focused spaces. With ever-growing interest in both food and gender studies, this is a must-read

for students and researchers in food studies, gender studies, cultural studies, sociology, geography, anthropology, and related fields.

**The Tastes and Politics of Inter-Cultural Food in Australia** Sukhmani Khorana, 2018-03-13 In the 21st century, an accelerated pace of global movements of people, goods, capital, technology and ideas has led to ambivalence regarding cultural identity for individuals, as well as collectives like neighbourhoods and cities. While the preparation, availability and consumption of diverse foods have become symbolic of the very openness of a place, there are concerns that this is only reflective of a superficial and consumerist form of middle class cosmopolitanism. Using food-oriented case studies centred on Australian cities and media, *Bonding Over Food* argues for a processual understanding of cosmopolitanism. Such an approach helps us understand various kinds of social bonds formed over food as 'convivial' practices that are potentially ethical and/or reflexive as opposed to being driven by 'othering' discourses.

**Smart Living** Tania Lewis, 2008 What do the Fab Five from *Queer Eye for the Straight Guy*, the *Supernanny* and celebrity chef Jamie Oliver all have in common? Lifestyle gurus are increasingly intruding on everyday life, directing ordinary people to see themselves as «projects» that can be «made over» through embracing an ethos of relentless self-improvement. *Smart Living* argues that they represent a new form of popular expertise sweeping the world. Written in a lively and accessible manner, the book examines this cult of expertise across a range of media and cultural sites and offers the reader a range of critical tools for understanding the recent emergence of this popular international phenomenon. *Smart Living* is a must-read for anyone interested in the relationship between popular media culture and contemporary social life.

**Twentieth Century Words** John Ayto, 1999 In *Twentieth Century Words*, lexicographer John Ayto takes us on an exhilarating tour of our century, charting it decade by decade by way of the words we've coined to mark our passage through time. Ayto looks at some 5,000 words and meanings, from flapper to flower power to road rage. We learn the birth dates of words such as movie (1910s), barbecue (1930s), Beatlemania (1960s), and foodie (1980s). Ayto also treats us to many surprises as well. Did you know, for instance, that atomic energy was coined in the 1900s, rocket ship in the 1920s, hologram in the '40s, and modem in the '50s? And in addition to the main alphabetic sequence of entries, the book also offers boxed

features on topics of special interest, such as words arising from World War II (bazooka, jeep, bikini). With a thoughtful essay to introduce each decade, and thousands of evocative words and phrases, Twentieth Century Words will enthrall all word lovers as it opens a unique window on the last one hundred years.
