Science Fiction, Fantasy and Horror Film Sequels, Series and Remakes Kim R. Holston, Tom Winchester, 2018-01-12

Science fiction, fantasy and horror movies have spawned more sequels and remakes than any other film genre. Following Volume I, which covered 400 films made 1931-1995, Volume II analyzes 334 releases from 1996 through 2016. The traditional cinematic monsters are represented--Dracula, Frankenstein, the Wolf Man, a new Mummy. A new wave of popular series inspired by comics and video games, as well as The Lord of the Rings trilogy, could never have been credibly produced without the advances in special effects technology. Audiences follow the exploits of superheroes like Captain America, Iron Man, Spider-Man and Thor, and such heroines as the vampire Selene, zombie killer Alice, dystopian rebels Katniss Everdeen and Imperator Furiosa, and Soviet spy turned American agent Black Widow. The continuing depredations of Jason Voorhees, Freddy Krueger and Michael Myers are described. Pre-1996 movies that have since been remade are included. Entries features cast and credits, detailed synopsis, critics' reviews, and original analysis.

The Delaneys of Cambria Series: The Complete Four-Book Set Linda Seed, 2022-08-01 Now, you can read the entire four-book Delaneys of Cambria series in one place, at one price. A Long, Cool Rain: Colin Delaney's wealthy family has been a Central Coast fixture for generations. When the family is rocked by the sudden death of Redmond Delaney, Colin's uncle and a major shareholder in the family fortune, Colin learns something that puts all he thought he knew about the man into question. Julia McCray knows that her brother, Drew, has been hiding something that's been tearing him apart. The day Colin turns up on Julia's doorstep, he reveals a secret that will throw both her family and his into turmoil. The Promise of Lightning: Megan Scott's relationship with California rancher Liam Delaney started off well, but lately it's been going too far too fast—and it's beginning to feel like a trap she doesn't know how to escape. Drew McCray has been embroiled in a feud with his cousin Liam for years, but so far, he's managed to keep his distance. Now, a wedding in which they're both groomsmen is forcing the two of them together, for better or worse. Considering that Drew is falling hard for Liam's girl, it's probably going to be worse. Loving the Storm: Rancher Liam Delaney's still suffering from the triple blow of his beloved uncle's death, his breakup from a woman he'd wanted to marry, and an accident that left him with an injury that still hasn't fully healed. When he meets artist Aria Howard, he starts to feel things he hasn't felt in a long time—like optimism and hope for the future. But Aria's history—one she's trying to hide from him—has taught her that love is dangerous and that forever is

nothing but a fairy tale. If Liam's going to earn her trust, he's going to have to give her the one elusive thing she's always longed for. Searching for Sunshine: Breanna Delaney is a devoted mother, a loyal sister, and a grieving widow who always thinks of others before herself. But lately, she's been wanting more. If she can just restore her ramshackle beach house to its former glory, it will be a big step toward taking care of her own needs for a change. Jake Travis, battered by a recent divorce, goes into his job as Breanna's contractor expecting nothing more than a paycheck. Sure, she's attractive as hell, but she's way out of his league. But the more closely he works with her, the more he thinks maybe he has the tools to repair both of their lives.

Media Marathonning Lisa Glebatis Perks, 2014-12-11 Media Marathonning: Immersions in Morality is a scholarly study of the intense relationship between reader and story world, analyzing the way audiences become absorbed in a fictive text and dedicate many hours to exploring its narrative contours. Rather than view these media experiences as mindless indulgences, "media marathonning" connotes a conjoined triumph of commitment and stamina. Compared to more traditional, slower-paced media engagement patterns, media marathonning affords readers greater depth of story world engagement, maximizing the emotional and cognitive rewards of the media experience. Through immersive marathonning experiences, audiences can seriously engage with mediated questions about human nature and society, refining our orientation toward morality through internal dialogue about the story and communication with other readers as we process the meaningful journey. As digital technologies facilitate easier, user-centered access to media texts, narratives increase in complexity, and more readers seek immersive story world experiences, marathonning looks to be the new normal of media engagement. Drawing from qualitative studies of book, film, and television marathoners, along with textual analysis of commonly marathoned stories, Media Marathonning presents a holistic look at marathonning's cultural impact.

The Harry Potter book series has been received enthusiastically by very many children, boys and girls alike, but has also been constructed in popular and media discourses as a children's, particularly a boys', literacy saviour. *Children's Literacy Practices and Preferences: Harry Potter and Beyond* provides empirical evidence of young people's reported literacy practices and views on reading, and of how they see how the Harry Potter series as having impacted their own literacy. The volume explores and debunks some of the myths surrounding Harry Potter and literacy, and contextualizes these within children's wider reading.
