Food in the Movies, 2d ed. Steve Zimmerman,2010-07-28 Although food has been part of motion pictures since the silent era, for the most part it has been treated with about as much respect as movie extras: it's always been there on the screen but seldom noticed. For the most part filmmakers have settled on three basic ways to treat food: as a prop in which the food is usually obscured from sight or ignored by the actors; as a transition device to compress time and help advance the plot; as a symbol or metaphor, or in some other meaningful way, to make a dramatic point or to reveal an aspect of an actor's character, mood or thought process. This hugely expanded and revised edition details 400 food scenes, in addition to the 400 films reviewed for the first edition, and an introduction tracing the technical, artistic and cultural forces that contributed to the emergence of food films as a new genre--originated by such films as Tampopo, Babette's Feast and more recently by films like Mostly Martha, No Reservations and Ratatouille. A filmography is included as an appendix.

Literary Nevada Cheryll Glotfelty, 2016-06-01 Over 200 writings about Nevada with selections from Native American tales to contemporary writings on urban experience and environmental concerns. The state of Nevada embodies paradox and contradiction—home to one of the fastest-growing cities in the nation and to isolated ranches scattered across a sparsely populated backcountry. Nevada is a place where the lust for sudden wealth has prompted both wild mining booms and glittering casinos, and where forbidding atomic test sites coexist with alluring tourist meccas. The variety and distinctiveness of Nevada's landscape and peoples have inspired writers from the beginning of immigrant contact with the region. This contact has produced abundant literary wealth that includes the rich oral traditions of Native American peoples and an amazing spectrum of contemporary voices. *Literary Nevada* is the first comprehensive literary anthology of Nevada. It contains over 200 selections ranging from traditional Native American tales, explorers' and emigrants' accounts, and writing from the Comstock Lode and other mining boomtowns, as well as compelling fiction, poetry, and essays from throughout the state's history. There is work by well-known Nevada writers such as Sarah Winnemucca, Mark Twain, and Robert Laxalt, by established and emerging writers from all parts of the state, and by some nonresident authors whose work illuminates important facets of the Nevada experience. The book includes cowboy poetry, travel writing, accounts of nuclear Nevada, narratives about rural life and urban life in Las Vegas and Reno, poetry and fiction from the state's best contemporary writers, and accounts of the special beauty of wild Nevada's mountains and deserts. Editor Cheryll Glotfelty provides insightful introductions to each section and author. The book also includes a photo gallery of selected Nevada writers and a generous list of suggested further readings. Nevada has inspired an exceptionally rich panorama of fine writing and a dazzling array of literary voices. The selections in *Literary Nevada* will engage and delight readers while revealing the complex and exciting diversity of the state's history, people, and life.

Violence in America Ted Robert Gurr,1989-06 An excellent companion to *Violence in America: The History of Crime*, this volume provides fascinating insight into recently developed theories on the sources of recurring conflict in American society. With their main focus on traumatic issues that have generated group violence and continue to do so, the contributors

discuss the most intractable source of social and political conflict in our history--the resistance of Black Americans to their inferior status, and the efforts of White Americans to keep them there. Other intriguing topics include the emergence and decline of political terrorism and the continuation of violent threats from right-wing extremists, such as the Klan, the Order, and the Aryan nations. The basic assumption underlying all interpretations is that group violence grows out of the dynamics of social change and political contention. The idea presented is that the origins, processes, and outcomes of group violence, like the causes and consequences of crime, must be understood and dealt with in their social contexts. This volume is essential reading for students and professionals in history, criminology, victimology, political science, and other related areas. SEE QUOTE W/ VOLUME ONE
