A BRIEF HISTORY OF MALAYSIA: TEXTS AND MATERIALS HASBOLLAH BIN MAT SAAD, 2020-05-07
Compilation Series: A Brief History of Malaysia: Texts and Materials is a solid, application-oriented text for students taking law subjects. Many new features make this edition a richer and stronger learning resource for students. Several factors motivated the authors to write this book. After having the experience in legal field and teaching for more than 17 years, it became clear that there was a definite need for more detail materials in this area. In addition, there was need for a book which would give full recognition to an easier method and the authors felt it was time for a text which would develop the ideas and methods with this in mind. This book covers a thorough discussion of the development of law in Malaysia; beginning from the establishment of the Melaka Empire until the recent issues. A major audience for the book will be students studying the law subjects. The order of topics, however, provides a degree of flexibility, so that the book can be of interest to different readers through basic concepts until the advanced concepts (i.e. the discussion of the cases). The purpose of this book is to take the readers on an introduction to Malaysian legal history journey, by which, the meaning of such subject at basic level is better understood. Hopefully, this book can be benefited by the readers in their journey to success.

A History of Malaysia Barbara Watson Andaya, Leonard Y. Andaya, 2017-09-16
First published in 1982, this text is widely regarded as a leading general history of the country. This new and revised edition brings the story of this fascinating country up to date, incorporating the latest scholarship on every period of Malaysian history, including recent research into pre-modern times. This text thus provides a historical framework that helps explain the roots of the issues dominating Malaysian life today, and the difficulties of creating a multicultural state where resources are equitably shared and the rights of all citizens are acknowledged. This book is a key text for courses on Southeast Asian history and politics. Covering a range of disciplinary subjects in the humanities and social sciences, it is also useful for anyone interested in the assessment of young, modernizing nations. New to this Edition: - A new chapter provides insights into Malaysian history of the last 15 years, including the growing influence of the internet and social media in the political sphere - Greater attention is paid to the strengthening of civil society movements that have arisen in light of perceived government failures - Fresh analysis of Islam's historical role in the Malay world and how it links with the growing Islamization of Malaysia today

New Perspectives and Research on Malaysian History Boon Kheng Cheah, 2007 This book deals with the current research interests, methods, thinking and trend in Malaysian historical writing. The individual essays focus not only on new historical sources and methodologies, but also on debates between different schools of Malaysian historians on conceptual issues and on ways to reconstruct the Malaysian past. For a long time the primary object of Malaysian historical studies has been the nation-state, but some of the historians in this volume now argue that local history, social history, economic history and the role of women, minorities and marginalized groups like trishaw riders are equally important concerns within Malaysia's socially diverse and multi-ethnic society. The essays also discuss challenges Malaysian historians face from new movements like post-modernism in representing historical truth and objectivity.
