Anthony S. Fauci

At Freedom's Crossroads: Making Sense of Modern Slavery David Lohan, 2022-02-20 What is slavery? What does it mean to be a slave? Why does slavery exist today and why did it exist in the past? What can be done to end it? These are important questions, and this book aims to answer them. Across the world today, more than 40 million persons are living as modern slaves. Their number is equivalent to the enslavement of the entire population of several U.S. states. The plight of these individuals is imposed on them by the existence of modern slavery, a practice otherwise known as human trafficking. Yet slavery is not new to the world and the voices of the past have much to share. This book starts with an exploration of historical slavery in the antebellum United States. It draws upon the wisdom of former slaves such as Frederick Douglass, Harriet Ann Jacobs, and Solomon Northup; as well as abolitionists such as Harriet Beecher Stowe and Theodore Dwight Weld; and even slavery's past advocates such as Edmund Ruffin and David Christy; to present a single perspective of slavery and its slaves. This book then extends its range to incorporate present-day realities, before using what has been learned to challenge some governmental approaches. This book is written for citizen and legislator alike. It is written for those who are students and for those who are teachers. It will be of assistance to those who find themselves struggling amidst the debate over modern slavery and human trafficking, trying to reconcile seemingly irreconcilable claims. It strives to challenge ideas about slaves and their slavery, and to challenge some of the conditions that give rise to both. In as much as it aims to make sense of slavery it strives to empower the reader, and through empowerment it hopes the reader will come to find their own role in efforts to end it.

The Gunning of America Pamela Haag, 2016-04-19 Americans have always loved guns. This special bond was forged during the American Revolution and sanctified by the Second Amendment. It is because of this exceptional relationship that American civilians are more heavily armed than the citizens of any other nation. Or so we're told. In *The Gunning of America*, historian Pamela Haag overturns this conventional wisdom. American gun culture, she argues, developed not because the gun was exceptional, but precisely because it was not: guns proliferated in America because throughout most of the nation's history, they were perceived as an unexceptional commodity, no different than buttons or typewriters. Focusing on the history of the Winchester Repeating Arms Company, one of the most iconic arms manufacturers in America, Haag challenges many basic assumptions of how and when America became a gun culture. Under the leadership of Oliver Winchester and his

heirs, the company used aggressive, sometimes ingenious sales and marketing techniques to create new markets for their product. Guns have never sold themselves; rather, through advertising and innovative distribution campaigns, the gun industry did. Through the meticulous examination of gun industry archives, Haag challenges the myth of a primal bond between Americans and their firearms. Over the course of its 150 year history, the Winchester Repeating Arms Company sold over 8 million guns. But Oliver Winchester—a shirtmaker in his previous career—had no apparent qualms about a life spent arming America. His daughter-in-law Sarah Winchester was a different story. Legend holds that Sarah was haunted by what she considered a vast blood fortune, and became convinced that the ghosts of rifle victims were haunting her. She channeled much of her inheritance, and her conflicted conscience, into a monstrous estate now known as the Winchester Mystery House, where she sought refuge from this ever-expanding army of phantoms. In this provocative and deeply-researched work of narrative history, Haag fundamentally revises the history of arms in America, and in so doing explodes the cliché that have created and sustained our lethal gun culture.

The Greenwood Encyclopedia of Daily Life in America Randall M. Miller, 2008-12-30 The course of daily life in the United States has been a product of tradition, environment, and circumstance. How did the Civil War alter the lives of women, both white and black, left alone on southern farms? How did the Great Depression change the lives of working class families in eastern cities? How did the discovery of gold in California transform the lives of native American, Hispanic, and white communities in western territories? Organized by time period as spelled out in the National Standards for U.S. History, these four volumes effectively analyze the diverse whole of American experience, examining the domestic, economic, intellectual, material, political, recreational, and religious life of the American people between 1763 and 2005. Working under the editorial direction of general editor Randall M. Miller, professor of history at St. Joseph's University, a group of expert volume editors carefully integrate material drawn from volumes in Greenwood's highly successful *Daily Life Through History* series with new material researched and written by themselves and other scholars. The four volumes cover the following periods: The War of Independence and Antebellum Expansion and Reform, 1763-1861, The Civil War, Reconstruction, and the Industrialization of America, 1861-1900, The Emergence of Modern America, World War I, and the Great Depression, 1900-1940 and Wartime, Postwar, and Contemporary America, 1940-Present. Each volume includes a selection of primary documents, a timeline of important events during the period, images illustrating the text, and extensive bibliography of further information resources—both print and electronic—and a detailed subject index.

Makers of History Frank Romer, 1926

Gun Guys Dan Baum, 2013-12-03 Dan Baum is a gun fanatic. He is also Jewish Democrat who grew up in suburban New Jersey. In *Gun Guys*, he takes us on a guided tour of gun stores and gun shows, shooting ranges and festivals, contests and auctions, trying to figure out what draws so many of us to guns in the first place. Is it just part of being American?

Introducing a wide cast of characters, Baum shows both sides of the gun culture in America, bringing an entire world vividly to life, and in doing so helping to find a middle ground in the gun debate, where actual conversation can take place.

Hunter-trader-trapper ,1925

Hemingway's Guns Silvio Calabi,Steve Helsley,Roger Sanger,2010-11-01 Ernest Hemingway is a mythic writer and alpha male. As a hunter and conservationist, he drew greatly from the strong example of Theodore Roosevelt, and he much enjoyed teaching newcomers to shoot and hunt. Including short excerpts from Hemingway's works, these stories of his guns and rifles tell us as much about him as a lifelong, expert hunter and shooter as a man.

Outing and the Wheelman ,1913

Pistols and Revolvers and Their Use Julian Sommerville Hatcher,1927

The Armed Jew Adam L. Fuller,2025-06-30 In the face of rising anti-Semitic violence and hate crimes, *The Armed Jew* explores the essential role of gun ownership in the Jewish experience, both historically and in contemporary society. With rising threats to Jewish communities worldwide, this book argues that the right to bear arms is not just a matter of self-defense, but an integral part of Jewish history and survival. Despite the increasingly manifest threats to American Jews, in particular, they remain among one of the demographic groups that are least likely to own firearms, which leaves them defenseless and further invites aggression. Adam L. Fuller argues that guns have been vital tools in protecting Jewish communities for centuries. From the medieval self-defense of Jewish settlements to Jewish gangsters, vigilantes, soldiers, law officers, and resistance efforts during the Holocaust, guns have been crucial in the preservation of life and dignity. Drawing on a careful study of Jewish sociocultural and religious traditions in dialogue with Jewish historical experience, as well as conversations with Jewish gun owners, Fuller makes a compelling argument for why Jews should embrace their right to own and carry firearms as part of their broader struggle for safety and autonomy. *The Armed Jew* challenges assumptions, empowers Jewish communities, and provides a thought-provoking perspective on the intersection of faith, identity, and self-defense in the modern world.

The Hudson Triangle ,1913

The Line Riders Jim Miller,Professor of Linguistics Jim Miller,1994 Blue-blooded easterner Darren Ames knows little about the cattle trade when he sets up on the Ames Land and Cattle Company in 1877. His vast ranch will need the protection of the best line riders--honest and loyal men to protect his borders from outsiders. To his family's luck, he found the Campbells. Traditional western adventure.

Outing ,1914

Outing Magazine ,1914

Outing Magazine Poultney Bigelow,James Henry Worman,Ben James Worman,Caspar Whitney,Albert Britt,1893

The Fighting Tenderfoot William MacLeod Raine,1929

This Here's a Good'un Bill Brett,1983 In fact, all the stories in this collection are good'uns. Bill Brett has a fine ear for the ways of speech and a sharp eye for the way of life of the forests and swamps of the southeastern region of Texas. Some might say that the tone of many of these tales is more autobiographical than that of his earlier collection, *There Ain't No Such Animal*, and perhaps that's true, for in these stories he shows a keen understanding of what it was like for a boy growing up in the early decades of the twentieth century, passing into manhood, and accepting the responsibility that comes with maturity.
