Los parásitos del poder Ernesto Villanueva,Hilda Nucci,2017-01-06 Una de las injusticias que más nos indignan a los mexicanos es que el dinero de nuestros impuestos vaya a parar a los bolsillos de burócratas y políticos carentes de toda ética, profesionalismo y vocación de servicio. El caso de los expresidentes de la República es distintivo de estas conductas francamente depredadoras. Los parásitos del poder, producto de un osado trabajo académico realizado por los investigadores Hilda Nucci y Ernesto Villanueva, pone al descubierto el entramado legalista y los brumosos subterfugios que -avalado siempre por legisladores sumisos ante el poder presidencial- permiten a los exmandatarios y sus familias gozar de numerosos beneficios: pensiones, seguros de vida y de gastos médicos mayores, apoyos administrativos, subvenciones, vigilancia personal... El resultado de esta investigación es tan contundente como insólito: los privilegios de los que gozan los expresidentes de México, país donde casi 55 millones de personas sobreviven en condiciones de pobreza, son superiores a los que perciben sus homólogos de los países más ricos de mundo.

The Politics of Identity in Latin American Censuses Luis F. Angosto-Ferrández,Sabine Kradolfer,2017-10-02 The Politics of Identity in Latin American Censuses contributes new and original perspectives to existing discussions about the shaping of multiculturalist ideology in Latin America, its interweaving with the cultural politics of neoliberalism and the relation

between ethnic identification resurgence and economic globalization. Scrutinising national censuses across the continent, the studies included in this volume reveal clear relationships between censuses, nation-building and government projects, but also strong and determinant connections between domestic and supra-national spheres. The contributors to this volume open provocative avenues of research on Latin American societies by demonstrating how, in the realm of identity politics, supra-national institutions and normativity socialise national census bureaus in a way that largely annuls ideological differences between regional governments. This book was originally published as a special issue of the Journal of Iberian and Latin American Research.
