Anaconda Horacio Quiroga, 2010-08-31 Anaconda es un relato del escritor uruguayo Horacio Quiroga, publicado en 1921 y perteneciente al libro Anaconda y otros cuentos, que trata de la destrucción causada por el ser humano en el mundo natural. De brutal actualidad, narra cómo las víboras, representando a los seres humanos, se constituyen en amenaza para el entorno. Al inicio de la historia una serpiente yarará descubre la presencia de hombres en un viejo edificio deshabitado en la selva. El suceso provoca un Congreso de las Víboras para afrontar la situación. Durante el cónclave determinan que es preciso atacar a los humanos para proteger sus vidas, siendo lo más conveniente matar primero a sus caballos. Solo las serpientes Ñacaniná y Anaconda creen, en minoría, que sería más efectivo atacar primero al perro que han traído los humanos pues este está adiestrado para cazarlas y puede ser letal. La disputa entre las víboras y los hombres es en este relato de Quiroga una metáfora de la intromisión humana en la naturaleza y del exterminio que ello supone para la vida salvaje.

Drag Kings B. Christine Arce, César Braga-Pinto, Nathalie Bouzaglo, Gabriela Cabezón Cámara, Diamela Eltit, Cecilia Fajardo-Hill, Licia Fiol-Matta, Javier Guerrero, Carlos G. Halaburda, Daniel Link, Denilson Lopes, Andrés Mendieta, Sylvia Molloy, Thomas Matusiak, Graciela Montaldo, Sophia Blea Núñez, Luis Pérez-Oramas, Gina Saraceni, Juan Pablo Sutherland, 2025 La masculinidad se fundó en la idea de que el cuerpo del hombre se correspondía con el lugar del original, era principio de la materia, constituía su primera piel. No obstante, esta no siempre fue percibida como statu quo del cuerpo. Dicha ilusión de naturaleza, la idea de que el hombre ocupa el lugar de cuerpo neutro o, incluso, la percepción de que su cuerpo es un componente implícito o del todo ausente en la idea de la masculinidad, forma parte de un grupo de operaciones performativas que ha necesitado tiempo para perpetrarse. Drag Kings: arqueología crítica de masculinidades espectaculares en Latinx América se propone discutir el porvenir del género en el espacio desigual, plural y contradictorio que hemos llamado Latinx América. Partiendo del drag king show y de lo que proponemos como masculinidad espectacular --aquella masculinidad hiperbólica que usurpa el espacio de privilegio y centralidad que se le otorga a la masculinidad del hombre--, planteamos una sistemática arqueología de la puesta en escena de las muchas masculinidades y su capacidad de generar crisis en el heterosexismo, máquina de producción de sentidos a la que se le ha encomendado la programación binaria del género.

Science Fiction in Argentina Joanna Page, 2016-03-29 This book examines an unprecedented range of science fiction texts—including literature, cinema, theater, and comics—produced in Argentina from the nineteenth to the twenty-first centuries. These works address themes common to the genre across the industrialized world, including techno-authoritarianism, new modes of posthuman subjectivity, and apocalyptic visions of environmental catastrophe. At the same time, Argentine science fiction is fully grounded in the social and political life of the nation. The texts discussed here explore the impact of an uneven modernization, mass migration, dictatorships, crises in national identity, the rise and fall of the Left, the question of Argentina's indigenous heritage, the impact of neoliberalism, and the most recent economic crisis of 2001. Argentine science fiction is also highly reflexive, debating within its pages the role of science fiction and fantasy in the society of its day, and the nature of the text in a world of advancing technology. This book makes important contributions to our understanding of science fiction as a genre, as well as to materialist theories of cultural texts. It will also interest students and scholars researching the culture, history, and politics of Argentina and Latin America. Book jacket.

The Americas Kimberly J. Morse, 2022-08-23 This two-volume encyclopedia profiles the contemporary culture and society of every country in the Americas, from Canada and the United States to the islands of the Caribbean and the many countries of Latin America. From delicacies to dances, this encyclopedia introduces readers to cultures and customs of all of the countries of the Americas, explaining what makes each country unique while also demonstrating what ties the cultures and peoples together. The Americas profiles the 40 nations and territories that make up North America, Central America, the Caribbean, and South America, including British, U.S., Dutch, and French territories. Each country profile takes an in-depth look at such contemporary topics as religion, lifestyle and leisure, cuisine, gender roles, dress, festivals, music, visual arts, and architecture, among many others, while also providing contextual information on history, politics, and economics. Readers will be able to draw cross-cultural comparisons, such as between gender roles in Mexico and those in Brazil. Coverage on every country in the region provides readers with a useful compendium of cultural information, ideal for anyone interested in geography, social studies, global studies, and anthropology.

Español y portugués en contacto Dolores Corbella, Alejandro Fajardo, 2017-11-20 The present study aims at offering an overview of Spanish-Portuguese (and Spanish-Galician-Portuguese) language contact, both in Europe and in America. It pays a special attention to the history of linguistic interferences in each region, examining how and when lexical borrowings entered the Spanish language and how they disseminated across the Spanish-speaking world.

Postcolonial Approaches to Latin American Children's Literature Ann González, 2018-01-31 In this volume González explores how the effects of a traumatic colonial experience are (re)presented to Latin American children today, almost two centuries after the dismantling of colonialism proper. Central to this study is the argument that the historical constraints of colonialism, neocolonialism, and postcolonialism have generated certain repeating themes and literary strategies in

children's literature throughout the Spanish-speaking Americas. From the outset of Spanish domination, fundamental tensions emerged between the colonizers and native groups that still exist to this day. Rather than a felicitous mixing of these two opposing groups, the mestizo is caught between contrasting worldviews, contending explanations of reality, and different values, beliefs, and epistemologies (that is, different ways of seeing and knowing). Postcolonial subjects experience these contending cultural beliefs and practices as a double bind, a no-win situation, in which they feel pressured by mutually exclusive expectations and imperatives. Latin American mestizos, therefore, are inevitably conflicted. Despite the vastness of the geography in question and the innumerable variations in regional histories, oral traditions, and natural settings, these contradictory demands create a pervasive dynamic that penetrates the very fabric of society, showing up intentionally or not in the stories passed from generation to generation as well as in new stories written or adapted for Spanish-speaking children. The goal of this study, therefore, is to examine a variety of children's texts from the region to determine how national and hemispheric perceptions of reality, identity, and values are passed to the next generation. This book will appeal to scholars in the fields of Latin American literary and cultural studies, children's literature, postcolonial studies, and comparative literature.
