Casas con estructuras de acero Esteban Jáuregui, Claudio Negri, 2021-08-16 El presente libro está dirigido particularmente a los estudiantes y profesionales relacionados con el mundo de la construcción, interesados en profundizar algunos aspectos del sistema de construcción con perfiles de acero galvanizado liviano Steel Framing en lo relacionado con la documentación de obra. Se brindan una serie de pautas generales para efectuar un legajo de obra cuya temática es la vivienda unifamiliar, las que han sido utilizadas a lo largo de varios años de experiencia constructiva. Se ejemplifican 8 trabajos, con las memorias descriptivas y técnicas que pautaron los proyectos, los planos de arquitectura, los elementos componentes del sistema en cada caso, los planos de detalle más significativos, acentuando la graficación de lo referente a la estructura del sistema. La gama de ejemplos contempla desde ampliaciones de construcciones existentes hasta obras nuevas de diferente complejidad.

Diseño, construcción y mantenimiento de invernaderos de madera ,

ASPIRACIONES Y ESPACIOS DE UNA REVOLUCIÓN Manuel Cuadra, 2019-09-15 Al dedicarse a Cuba, el presente trabajo pretende contribuir a cerrar uno de los tantos vacíos en el tratamiento de la arquitectura de los países del llamado Tercer Mundo. Siendo un país pequeño, lo especial de Cuba y su importancia en un contexto latinoamericano y global reside en buena parte en el camino diferente que anda de 1959 en adelante. Más allá de las opiniones que este camino pueda merecer a nivel político, el presente trabajo contempla y se orienta por la arquitectura: que sean los frutos los que digan ante qué árbol se está. Para esto, las ciudades y las casas han sido contempladas de una manera que permitía leer de ellas los contenidos que han dado lugar a sus formas y espacios, a su materialidad, a su especial relación con el contexto. La idea es tomar en serio la arquitectura, tomar en serio los espacios en cuanto expresión de las aspiraciones de los que los crearon.

MANUAL DE CRITERIOS GENERALES PARA LA ESTRUCTURACIÓN DE EDIFICIOS DE ACERO Héctor Soto Rodríguez, 2022-11-09 El Manual de Criterios Generales para la Estructuración de Edificios de Acero presenta los principios

generales referentes a la estructuración de edificios de acero. El autor incorpora el juicio ingenieril del autor y pretende lograr una arquitectura e ingeniería acertadas en nuestro medio a mediano plazo a través de los temas que se presentan y de las recomendaciones que se hacen en esta obra.
