María Jesús Ruiz Muñoz

Historia de España Domingo Plácido Suárez,2007 A lo largo del siglo XVIII, España vivió una serie de tensiones y conflictos derivados de las contradicciones entre los intereses del viejo orden social y las exigencias de la dinámica moderna. Para el autor de este volumen, la clave del período está en la constante relación entre lo individual y lo colectivo, entre las acciones humanas y las condiciones sociales heredadas e impuestas por intereses muy minoritarios, empeñados en perpetuarse.

El mapa mental: Una estrategia cognitiva de aprendizaje David Aguilera Reyes,Editorial Digital UNID, El aprendizaje de la historia de los alumnos, presenta graves problemas; un notable desinterés por parte de los alumnos y maestros, producto de la falta de estrategias didácticas, de recursos para su enseñanza, así como el poco tiempo que se le dedica y asigna curricularmente. De acuerdo con la literatura revisada para esta investigación el proceso de enseñanza-aprendizaje de la historia presenta muchas dificultades, algunas de ellas citadas en libros publicados por la secretaria de educación pública quien reconoce que existen problemas en la enseñanza-aprendizaje de la historia.

La España del siglo XX en siete días Tomás Pérez Vejo,José-Carlos Mainer,Pilar Mera Costas,2021-10-07 La presente edición de lujo en estuche reúne los siete volúmenes de la colección «La España del siglo XX en siete días». Siete libros para siete fechas clave de nuestra historia. Porque no todos los días son iguales. Solemos abordar la historia a partir de arcos de tiempo dilatados. Pero ¿qué sucede si, por una vez, centramos la atención en los instantes concretos que más han marcado nuestro pasado colectivo? Los protagonistas, sus acciones, sus emociones, sus deseos, sus dudas y sus errores pasan al centro del relato, irrumpen con la fuerza de la imprevisibilidad, y los revivimos como si fuera la primera vez. En esta novedosa colección, algunos de los mejores historiadores nos muestran que nada puede darse por sentado, y cómo ciertos acontecimientos pueden dejar un rastro profundo en un país. Reseñas: «Una serie para tener muy en cuenta.» Manuel Rodríguez Rivero, Babelia «Una historia en la que los protagonistas son las personas, los individuos y no tanto la abrumadora

y fría erudición de los hechos y los datos.» Fernando Prieto Arellano, La Vanguardia

Enjoy this classic work today. These selected paragraphs distill the contents and give you a quick look inside A History of Spain - founded on the Historia de España y de la civilización - española of Rafael Altamira: Look inside the book: We have some one-volume histories of Spain in Castilian which are to be recommended for the needs of our own secondary schools, but not for those of a foreign country, whose students require another manner of presentation of our history, for they have to apply an interrogatory ideal which is different from ours in their investigation of the deeds of another people,—all the more so if that people, like the Spanish, has mingled in the life of nearly the whole world and been the victim of the calumnies and fanciful whims of historians, politicians, and travellers. ...X), in my lectures on the history of Spain in the nineteenth century (given at the Ateneo of Madrid, some years ago), in the little manual of the Historia de la civilización española (History of Spanish civilization) which goes to the year 1898, and even in the second part of a recent work, España y el programa americanista (Spain and the Americanist program), published at Madrid in 1917, nevertheless could not avail itself of a single text, a continuous, systematized account, comprehensive of all the aspects of our national life as in the case of the periods prior to 1808. ...At about the point where the Pyrenees proper and the Cantabrian Mountains come together the Iberian, or Celtiberian, range, a series of isolated mountains for the most part, breaks off to the southeast until near the Mediterranean, when it curves to the west, merging with the Penibética range (better known as the Sierra Nevada Mountains, the name of that part of the range lying south of the city of Granada), which moves westward near the southern coast to end in the cape of Tarifa. About Charles E. (Edward) Chapman, the Author: Born in New Hampshire in 1880, Chapman studied two years at Princeton University, received the A.B. degree from Tufts College in 1902, the LL.B. degree from Harvard University in 1905, and was admitted to the bar in both Massachusetts and California in 1906. ...He played a leading part in the founding of the Hispanic American Historical Review, which has become the outstanding magazine in its field, and was on its editorial board continuously from its beginning in 1917 until his death.

La guerra en México y el Caribe Laura Muñoz, María del Rosario Rodríguez, 2023-11-03 La guerra en México y el Caribe: lo inadvertido, lo oculto y lo olvidado es un trabajo conjunto de quince autores dedicados al estudio de las guerras irregulares

desde diversas perspectivas y con el objetivo de ofrecer nuevas reflexiones e interpretaciones sobre el tema. El objetivo principal es tratar de deconstruir mitos nacionales e ir más allá de la tradicional historiografía militar nacionalista. En esta ocasión, la región de estudio se amplía del Caribe a México. Este texto es el tercer volumen de una serie, resultado del proyecto de investigación Guerras Irregulares en el Caribe, un proyecto de largo aliento desarrollado en el marco del seminario El Caribe Visiones Históricas de la Región. Los trabajos reunidos proponen acercarnos a la vida de hombres y mujeres en escenarios de guerra, observando su vida diaria a través de una mirada desde la historia social y cultural. Asimismo, la atención está puesta en manifestaciones como la poesía, la música, el baile, la pintura y la cultura en general. El lector encontrará también reflexiones sobre el dolor, la memoria, los silencios, así como trabajos enfocados en el estudio de las relaciones internacionales y la guerra. Como constatará el lector, los ensayos reunidos en el presente volumen, enfatizan aspectos que habían pasado inadvertidos, quedado ocultos o habían sido olvidados.

El cine olvidado de la transición española María Jesús Ruiz Muñoz, 2015 Se definen los mecanismos de funcionamiento inherentes a la elaboración, distribución y exhibición de películas alternativas que fueron realizadas durante la etapa del paso al régimen democrático, profundizando en el caso específico de la comunidad andaluza. Asimismo, a través del uso de fuentes orales, se ha indagado en la experiencia de los cineastas implicados en el sector de la producción, sus inquietudes y motivaciones, sus logros y dificultades, así como en los trabajos emprendidos por ellos y los proyectos frustrados, con el fin de desentrañar otra clase de factores más subjetivos que también condicionaron el cine independiente de aquellos años. Finalmente, se analizan los temas predominantes en el cine marginal andaluz del período y también la visión de Andalucía que se transmite a través de las obras cinematográficas alternativas que fueron concebidas tanto dentro como fuera de esta región. Cuarta Transformación: significados, contexto y trazos de políticas Javier Rosiles Salas, 2024-04-11 Una creciente literatura que examina el gobierno encabezado por el presidente Andrés Manuel López Obrador comienza a acumularse. Tanto su profundidad, calidad y perspectivas son muy variadas, así como las conclusiones que arroja. Cabe advertir que las aseveraciones de esta novel literatura no pueden considerarse como definitivas, pues se trata de una administración federal

en marcha y los efectos y resultados de sus acciones todavía no puedan establecerse con precisión. De cualquier manera, es indispensable seguir desarrollando investigaciones que analicen el ejercicio de gobierno de una apuesta tan ambiciosa como lo es la llamada Cuarta Transformación. Este libro, justamente, se propone contribuir a la comprensión, examen y balance de un movimiento que se constituyó en gobierno a partir de 2018, el primero de izquierda a nivel nacional en la historia del país. Cinco autores se proponen en esta obra identificar y analizar ciertas tendencias en materia de políticas públicas, así como desentrañar el significado de esta nueva etapa en la historia del país. La novedad se encuentra en el abordaje histórico que se hace de la propuesta encabezada por el presidente López Obrador, el examen del contexto político en el que se desarrolla, así como la observación y una primera evaluación de tres aspectos que han sido un tanto relegados en los estudios sobre el actual sexenio: el feminismo, la administración pública y las políticas de corte cultural.
