

Hope Is A Good Thing

William Hay Macdowall Hunter AITKEN

Hope is the Thing B. J. Hollars, 2021-09-14 In March 2020, as a pandemic began to ravage our world, writer and professor B. J. Hollars started a collaborative writing project to bridge the emotional challenges created by our physical distancing. Drawing upon Emily Dickinson's famous poem "'Hope' is the thing with feathers," Hollars called on Wisconsinites to reflect on their own glimpses of hope in the era of COVID-19. The call resulted in an avalanche of submissions, each reflecting on hope's ability to persist and flourish, even in the darkest times. As the one hundred essays and poems gathered here demonstrate, hope comes in many forms: a dad dance, a birth plan, an unblemished banana, a visit from a neighborhood dog, the revival of an old tradition, empathy. The contributors are racially, geographically, and culturally diverse, representing a rough cross section of Wisconsin voices, from truck driver to poet laureate, from middle school student to octogenarian, from small business owner to seasoned writer. The result is a book-length exploration of the depth and range of hope experienced in times of crisis, as well as an important record of what Wisconsinites were facing and feeling through these historic times.

Hope...the Best of Things Joni Eareckson Tada, 2008-06-26 One thing has saved her: the heaven-sent hope found only in Christ. If hope is scarce in your life, this special booklet will draw you toward a fresh perspective on suffering, true scriptural encouragement, and this beloved author's hard-won insights about the goodness of God. In her life's journey Joni has learned to meet suffering on God's terms. She has learned that joy is for real. And most of all, she has learned that hope is the best of things when we give it a chance. This book powerfully communicates all these truths from someone who has lived them, so that you can live them too, no matter what you're going through.

Discipleship Book Two - for individuals, home groups and churches Ian Traill M.Th., 2010 A Christian who does not study the Word of God will not be able to live to the fullness of what God has promised to him or her. The enemy is trying to steal away our peace, and finally destroy us, hoping we will turn away from God. 2Timothy 2:15 Do your best to present yourself to God as an approved worker who has nothing to be ashamed of, handling the word of truth with precision. (ISV) Here we see we are to study His Word, to be approved workers, which is right, but let us look at the second part of this statement. handling the word of truth with precision. The word precision has an implication of importance and we need to know how to handle it in our defence against the enemy. We need to understand the Word of God clearly, so that we can

extinguish the fiery arrows of the enemy.

Theologies of Hope in the Twelfth and Thirteenth Centuries Christopher Dyczek, 2023-11-15 This book is a translation of J. G. Bougerol's research, and positions this in relation to recent post-doctoral studies of the Summa Halensis from King's College, London. It identifies literary aspects of religious fears in medieval and nineteenth century theology as both a New Testament and a scholastic problem. Academically trained preachers, in European culture, are viewed through the lens of dynamic community language, and Franciscan initiatives for confident, peace-seeking theology are mapped out in detail.

Hope is a Strategy Ian B. Pettigrew, 2025-12-08 There's a global hope crisis. Here's how to fix it. Some people say that hope isn't a strategy: Ian Pettigrew strongly believes that it is. Hopelessness keeps people stuck where they are. Hope is a powerful motivator that helps you focus on what you want and do everything in your power to achieve it. It also helps you navigate the inevitable bumps in the road on the journey. Hope is active, and has nothing to do with naive optimism, wishful thinking or toxic positivity. This book is for leaders who want to build hope in themselves, their teams, and their organizations, so that they can succeed whilst being happy, engaged, and resilient. Full of evidence-based approaches, interwoven with both extraordinary and everyday stories of hope, it explores what hope really is, and the damage caused by getting it wrong. Hope changes lives: in this book Ian Pettigrew, strengths coach and one of HR's most influential thinkers, provides a blueprint for leaders to discover it for themselves and to help others find it too.

A Charitable Orthopathy John W. Morehead, Brandon C. Benziger, 2020-04-07 Evangelicals and other conservative Christians of the twenty-first century face enormous challenges in the pluralistic public square, not least with Muslims and atheists. Contrary to biblical injunctions to keep in step with the Spirit (Gal 5:25b) and to love our neighbors as ourselves (e.g., Matt 22:37-40; Luke 10:25-37)--both of which involve not only behavioral but also important affective elements--we often harbor deep-seated antipathies toward atheists and adherents of other religions. While such feelings are at times justified and help us cope with conflict-related tragedies, they are also often baseless, misconstrued, and counterproductive, priming us to avoid religious others, support discriminatory policies against them, and even confront them in verbal or physical ways. The purpose of this volume is to offer an academically informed yet practically oriented collection of essays that challenges and encourages Christians to engage their religious neighbors in a much more loving, compassionate, hopeful, and courageous--indeed, orthopathic--manner, whether in the realm of politics, in debate and conference venues, on the mission field, or in their own homes, schools, churches, and neighborhoods. As such, a set of reflection and discussion questions is included to facilitate individual and/or group study.

Socrates in the Apology C. D. C. Reeve, 1989-01-01 Reeve's book is an excellent companion to Plato's Apology and a

valuable discussion of many of the main issues that arise in the early dialogues. Reeve is an extremely careful reader of texts, and his familiarity with the legal and cultural background of Socrates' trial allows him to correct many common misunderstandings of that event. In addition, he integrates his reading of the apology with a sophisticated discussion of Socrates' philosophy. The writing is clear and succinct, and the research is informed by a thorough acquaintance with the secondary literature. Reeve's book will be accessible to any serious undergraduate, but it is also a work that will have to be taken into account by every scholar doing advanced research on Socrates. --Richard Kraut, Northwestern University

Moral Responsibility and Persons Eugene Schlossberger, 2010-07-02 Challenging traditional philosophical views of moral responsibility, Eugene Schlossberger argues that we are responsible not so much for what we do as for who we are. He explores what it means to be a person, concluding that personhood is the sum of beliefs and values—which are by no means entirely within our control. Consequently, the voluntariness of our acts—or even whether we act at all—is irrelevant to the moral evaluation of us as persons. Schlossberger contends that we are to be judged morally on the basis of what we are, our world-view, rather than what we do. In *Moral Responsibility and Persons* Schlossberger disputes various received philosophical positions. His challenging and entertaining account also examines psychology and its view of the nature of personhood, as well as insanity and the personality of animals, children, and computers. He explores the validity of emotions we may feel in response to others—especially gratitude and resentment. And finally, Schlossberger tackles the inevitable implications of his position in the area of crime and punishment.
