

How To Sell To Thriftbooks

Gary Goodman

Making a Collection Count Holly Hibner, Mary Kelly, 2023-01-30 Making a Collection Count, A Holistic Approach to Library Collection Management, Third Edition is unique in its focus on collection quality, including topics on making the most of a library collection budget, performing physical inventory, and gathering/using data and statistics about collection use. Beyond collection development, this title looks at the entire lifecycle of the collection and those with responsibilities at each step. - Takes on new topics important in collection management such as expanded sections on inclusion, diversity, equity and access. - Covers world events such as the Covid-19 pandemic of 2020, as well as new technology-based collections and streaming services available in libraries and how they have changed the way we approach collection development - Includes a new chapter on library budgets

Fundamentals of Collection Development and Management, Fourth Edition Peggy Johnson, 2018-07-23 Technical Services Quarterly declared that the third edition “must now be considered the essential textbook for collection development and management ... the first place to go for reliable and informative advice. For the fourth edition expert instructor and librarian Johnson has revised and freshened this resource to ensure its timeliness and continued excellence. Each chapter offers complete coverage of one aspect of collection development and management, including numerous suggestions for further reading and narrative case studies exploring the issues. Thorough consideration is given to traditional management topics such as organization of the collection, weeding, staffing, and policymaking; cooperative collection development and management; licenses, negotiation, contracts, maintaining productive relationships with vendors and publishers, and other important purchasing and budgeting topics; important issues such as the ways that changes in information delivery and access technologies continue to reshape the discipline, the evolving needs and expectations of library users, and new roles for subject specialists, all illustrated using updated examples and data; and marketing, liaison activities, and outreach. As a comprehensive introduction for LIS students, a primer for experienced librarians with new collection development and management responsibilities, and a handy reference resource for practitioners as they go about their day-to-day work, the value and usefulness of this book remain unequalled.

Bookseller & Stationer and Office Equipment Journal, 1929

The Last Bookseller Gary Goodman, 2021-12-07 A wry, unvarnished chronicle of a career in the rare book trade—now in

paperback *When Gary Goodman wandered into a run-down, used-book shop that was going out of business in East St. Paul in 1982, he had no idea the visit would change his life. He walked in as a psychiatric counselor and walked out as the store's new owner. In The Last Bookseller Goodman describes his sometimes desperate, sometimes hilarious career as a used and rare book dealer in Minnesota—the early struggles, the travels to estate sales and book fairs, the remarkable finds, and the bibliophiles, forgers, book thieves, and book hoarders he met along the way. Here we meet the infamous St. Paul Book Bandit, Stephen Blumberg, who stole 24,000 rare books worth more than fifty million dollars; John Jenkins, the Texas rare book dealer who (probably) was murdered while standing in the middle of the Colorado River; and the eccentric Melvin McCosh, who filled his dilapidated Lake Minnetonka mansion with half a million books. In 1990, with a couple of partners, Goodman opened St. Croix Antiquarian Books in Stillwater, one of the Twin Cities region's most venerable bookshops until it closed in 2017. This store became so successful and inspired so many other booksellers to move to town that Richard Booth, founder of the "book town" movement in Hay-on-Wye in Wales, declared Stillwater the First Book Town in North America. The internet changed the book business forever, and Goodman details how, after 2000, the internet made stores like his obsolete. In the 1990s, the Twin Cities had nearly fifty secondhand bookshops; today, there are fewer than ten. As both a memoir and a history of booksellers and book scouts, criminals and collectors, The Last Bookseller offers an ultimately poignant account of the used and rare book business during its final Golden Age.*

The Library Friends, Foundations, and Trusts Handbook Diane P. Tuccillo, 2024-04-24 *The Library Friends and Foundations Handbook is a must-have resource for members of Friends groups, Foundations, library staff members, administrators, and others who wish to begin or enhance such support group partnerships. Its background details build a knowledge base of what such groups are all about and its helpful recommendations can be put into practice as it: Focuses*

upon the history of such groups and how their contributions matter to the vitality of library institutions of all kinds—public, school, state, college/university, and special. Describes the various kinds of Friends and Foundation groups (sometimes combined), how they are organized and run, and ways they partner with the libraries they support so that readers may consider how they too might design and form or augment their own groups. Carefully explains how groups can effectively market their membership options and purposes to their communities. Gives practical advice on recruiting volunteers of all ages and providing training for them to beneficially aid their libraries both financially and with hands-on assistance. Describes ways library support groups can advocate for their libraries. Presents a wide variety of fundraising and donation ideas, procedures, and examples that readers can emulate, reflecting current trends such as online book sales, grab bag book sales, gala events, and securing grants along with equitable methods of monetary distribution. Offers a selected bibliography, a webliography, and an appendix with sample documents. The book covers the history of such groups, how their contributions matter to the vitality of libraries and library institutions of all kinds—public, school, state, college/university, and special. It describes the various kinds of Friends and Foundation groups, how they are organized and run, ways they partner with the libraries they support, how they can effectively market their membership options and purposes to the community to which they are dedicated, and ways to advocate for their libraries. It explains how volunteers of all ages (yes, including teenagers) are recruited, trained, and used successfully to aid their libraries both financially and with hands-on assistance. A wide variety of fundraising and donation ideas, procedures, and examples are featured that reflect current trends in such activities as online and grab bag book sales, gala events, securing grants, and methods of monetary distribution.
