Pirate Women Laura Sook Duncombe, 2017-04-01 In the first-ever Seven Seas history of the world's female buccaneers, *Pirate Women: The Princesses, Prostitutes, and Privateers Who Ruled the Seven Seas* tells the story of women, both real and legendary, who through the ages sailed alongside—and sometimes in command of—their male counterparts. These women came from all walks of life but had one thing in common: a desire for freedom. History has largely ignored these female swashbucklers, until now. Here are their stories, from ancient Norse princess Alfhild and warrior Rusla to Sayyida al-Hurra of the Barbary corsairs; from Grace O'Malley, who terrorized shipping operations around the British Isles during the reign of Queen Elizabeth I; to Cheng I Sao, who commanded a fleet of four hundred ships off China in the early nineteenth century. Author Laura Sook Duncombe also looks beyond the stories to the storytellers and mythmakers. What biases and agendas motivated them? What did they leave out? *Pirate Women* explores why and how these stories are told and passed down, and how history changes depending on who is recording it. It's the most comprehensive overview of women pirates in one volume and chock-full of swashbuckling adventures that pull these unique women from the shadows into the spotlight that they deserve.

The Business of Entertainment Robert C. Sickels, 2008-11-30 We love to be entertained. And today's technology makes that easier than ever. Listen to tunes while working out? No problem. Watch a movie on your cell phone? Can do. Get 450 channels of digital entertainment bounced off a satellite and into your vehicle—even while traveling through empty wastelands? Simple. But behind these experiences is a complex industry, dominated by a handful of global media conglomerates whose executives exert considerable influence over the artists and projects they bankroll, the processes by which products are developed, and the methods they use to promote and distribute entertainment. As this set shows, the industries in which commerce, art, and technology intersect are among the most fascinating in all of business. Entertainment is a high-stakes industry where stars are born and flame out in the blink of an eye, where multimillion dollar deals are made on a daily basis, and where cultural mores, for better or worse, are shaped and reinforced. *The Business of Entertainment* lifts the curtain to show the machinery (and sleight of hand) behind the films, TV shows, music, and radio programs we can't live without. *The Business of Entertainment* comprises three volumes, covering movies popular music, and television. But it's not all about stars and glitter—it's as much about the nuts and bolts of daily life in the industry, including the challenges of

digitizing content, globalization, promoting stars and shows, protecting intellectual property, developing talent, employing the latest technology, and getting projects done on time and within budget. Challenges don't end there. There's also advertising and product placement, the power of reviews and reviewers, the cancerous spread of piracy, the battles between cable and satellite operators (and the threat to both from telephone companies), the backlash to promoting gangsta lifestyles, and more. Each chapter is written by an authority in the field, from noted scholars to entertainment industry professionals to critics to screenwriters to lawyers. The result is a fascinating mosaic, with each chapter a gem that provides insight into the industry that—hands down—generates more conversations on a daily basis than any other.

Envisioning Black Feminist Voodoo Aesthetics Kameelah L. Martin,2016-09-30 In the twenty-first century, American popular culture increasingly makes visible the performance of African spirituality by black women. Disney's Princess and the Frog and Pirates of the Caribbean franchise are two notable examples. The reliance on the black priestess of African-derived religion as an archetype, however, has a much longer history steeped in the colonial othering of Haitian Vodou and American imperialist fantasies about so-called 'black magic'. Within this cinematic study, Martin unravels how religious autonomy impacts the identity, function, and perception of Africana women in the American popular imagination. Martin interrogates seventy-five years of American film representations of black women engaged in conjure, hoodoo, obeah, or Voodoo to discern what happens when race, gender, and African spirituality collide. She develops the framework of Voodoo aesthetics, or the inscription of African cosmologies on the black female body, as the theoretical lens through which to scrutinize black female religious performance in film. Martin places the genre of film in conversation with black feminist/womanist criticism, offering an interdisciplinary approach to film analysis. Positioning the black priestess as another iteration of Patricia Hill Collins' notion of controlling images, Martin theorizes whether film functions as a safe space for a racial and gendered embodiment in the performance of African diasporic religion. Approaching the close reading of eight signature films from a black female spectatorship, Martin works chronologically to express the trajectory of the black priestess as cinematic motif over the last century of filmmaking. Conceptually, Martin recalibrates the scholarship on black women and representation by distinctly centering black women as ritual specialists and Black Atlantic spirituality on the silver screen.

Fashion and Fetishism David Kunzle,2006-08-24 Presenting the history of corsetry and body sculpture, this edition shows how the relationship between fashion and sex is closely bound up with sexual self-expression. It demonstrates how the use of the corset rejected the role of the passive, maternal woman, so that in Victorian times it was seen as a scandalous threat to the social order.
