Leaving Microsoft to Change the World John Wood, 2006-08-29 John Wood discovered his passion, his greatest success, and his life's work—not at business school or leading Microsoft's charge into Asia in the 1990s—but on a soul-searching trip to the Himalayas. Wood felt trapped between an all-consuming career and a desire to do something lasting and significant. Stressed from the demands of his job, he took a vacation trekking in Nepal because a friend had told him, If you get high enough in the mountains, you can't hear Steve Ballmer yelling at you anymore. Instead of being the antidote to the rat race, that trip convinced John Wood to divert the boundless energy he was devoting to Microsoft into a cause that desperately needed to be addressed. While visiting a remote Nepalese school, Wood learned that the students had few books in their library. When he offered to run a book drive to provide the school with books, his idea was met with polite skepticism. After all, no matter how well-intentioned, why would a successful software executive take valuable time out of his life and gather

books for an impoverished school? But John Wood did return to that school and with thousands of books bundled on the back of a yak. And at that moment, Wood made the decision to walk away from Microsoft and create Room to Read—an organization that has donated more than 1.2 million books, established more than 2,600 libraries and 200 schools, and sent 1,700 girls to school on scholarship—ultimately touching the lives of 875,000 children with the lifelong gift of education. Leaving Microsoft to Change the World chronicles John Wood's struggle to find a meaningful outlet for his managerial talents and entrepreneurial zeal. For every high-achiever who has ever wondered what life might be like giving back, Wood offers a vivid, emotional, and absorbing tale of how to take the lessons learned at a hard-charging company like Microsoft and apply them to one of the world's most pressing problems: the lack of basic literacy.

The Changing World of Farming in Brexit UK Matt Lobley, Michael Winter, Rebecca Wheeler, 2018-11-22 The 2016 referendum resulted in a vote for the United Kingdom to withdraw from the European Union. This has led to frenzied political debate across the whole spectrum of policy, and agriculture is no exception. For the first time in a generation, the future of agriculture is unclear and unfettered by the constraints and incrementalism of the Common Agricultural Policy. This book makes an empirical contribution to the Brexit debate, bringing a social dimension to agri-Brexit and sustainable agriculture discourses. Understanding the social in the context of farmers is vital to developing a way forward on food security and agricultural sustainability. Farmers are the recipients of the market and policy signals that link to global uncertainties and challenges. This book is a commitment to understanding farmers as occupiers and managers of land. Chapters in this book explore farmers' own aspirations and knowledge about patterns of land use and production, which underpin discussions around the environment and sustainability. There is a deficit in understanding what kind of agricultural industry we now have, following years of restructuring and repositioning. This book is an attempt to address that deficit and will appeal to students and researchers exploring agriculture, food politics and rural sociology.
